TOPIC		TEST SKILL AC = Academic GT = General Training	TASK TYPE	LANGUAGE FOCUS V = Vocabulary, G = Grammar, P = Pronunciation
Unit 1 Communicate! 8–11 Communication	1.1	Reading (AC / GT) Speaking	True / False / Not given Short-answer questions Part 1	V Paraphrase V Ways of communicating
	1.2	Writing extra (AC / GT) Listening	Spelling errors Note completion	G The passive P Spelling and numbers
Test folder 1 12–13		Reading	Yes / No / Not given	
Unit 2 A healthy diet 14–17 Food and drink	2.1	Listening Speaking	Note completion Part 1	P Weak and strong forms V Adjectives describing food
	2.2	Writing extra (AC / GT) Speaking	Using appropriate language Part 3	G Comparing things or talking about similarities and differences G Adverbs of degree
Writing folder 1 18–19		Academic Writing Task 1	Describing processes	
Unit 3 City attractions 20–23 Leisure in the city	3.1	Speaking Reading (GT)	Part 1 Multiple matching	G Cause, purpose and result
	3.2	Listening	Note completion	V Descriptive adjectives V Adjectives ending in <i>-ing</i> and <i>-ed</i> P Word stress in related words
Test folder 2 24–25		Listening Reading	Matching	
Unit 4 Ways of learning 26–29 Education	4.1	Speaking Listening	Part 3 Multiple choice Multiple choice with multiple answers	V Words used in academic writing
	4.2	Reading (GT)	Reading effectively	G Review of present tenses P Word stress
Writing folder 2 30–31		Academic Writing Task 1	Handling data 1 – line graphs	
Revision Units 1–4 32–33				
Unit 5 Discovering the past 34–37 History	5.1	Reading (AC / GT) Speaking	True / False / Not given Multiple choice Note completion Part 3	V Types of building V Collocations related to research
	5.2	Listening Writing extra (AC)	Labelling Task 1: A description of a place	G Review of past tenses
Test folder 3 38–39		Listening Reading	Sentence and note completion	
Unit 6 What is job satisfaction? 40–43 Work	6.1	Listening	Flow-chart completion Sentence completion Labelling a diagram Table completion Multiple choice	V Work V Collocations with <i>money</i>
	6.2	Writing extra (GT) Speaking	Task 1: Letter of application Part 2	G Past simple or present perfect?
Writing folder 3 44–45		Academic and General Training Writing Task 2	Understanding the question and planning your writing	

TOPIC		TEST SKILL AC = Academic GT = General Training	TASK TYPE	LANGUAGE FOCUS V = Vocabulary, G = Grammar, P = Pronunciation
Unit 7 Selling dreams? 46–49 Advertising	7.1	Speaking Reading (AC / GT)	Parts 1 and 3 Multiple choice Headings	V Word formation
	7.2	Listening	Sentence completion Matching	P Sentence stress G Relative clauses V Advertising
Test folder 4 50–51		Reading	Headings	
Unit 8 Time to waste? 52–55 Leisure activities	8.1	Reading (GT) Speaking	Table completion Part 1	G Talking about the future
	8.2	Listening Speaking	Short-answer questions (lists) Short-answer questions Part 3	P Vowel length V Leisure activities
Writing folder 4 56–57		General Training Task 1	Writing a letter	
Revision Units 5–8 58–59				
Unit 9 Climate change 60–63 The environment	9.1	Reading (AC)	Summary completion	
	9.2	Speaking Listening Writing extra (AC)	Part 3 Note and table completion Task 1: A diagram	G Countable and uncountable nouns V Collocations related to the environment
Test folder 5 64–65		Reading Listening	Summary completion	
Unit 10 A place to work or live in 66–69 Buildings	10.1	Speaking Listening Writing extra (GT)	Part 1 Note completion Task 1: A letter of complaint	P Polite intonation V Phrasal verbs and collocations with <i>house</i> and <i>home</i>
	10.2	Speaking	Part 2	G <i>-ing</i> forms and infinitives 1
Writing folder 5 70–71		Academic Writing Task 1	Handling data 2 – bar and pie charts and tables	
Unit 11 Animal life 72–75 Animals	11.1	Reading (AC)	Multiple choice Multiple choice with multiple answers	V Definitions relating to social organisation
	11.2	Listening	Sentence completion	G Articles V Compound nouns P Diphthongs
Test folder 6 76–77		Listening Reading	Multiple choice with multiple answers Multiple choice	
Unit 12 Sport: just for fun? 78–81 Sport	12.1	Speaking Listening Speaking	Part 1 Table completion Part 3	V Sport V Word formation
	12.2	Reading (AC / GT)	Matching	G <i>Should, had better, ought to</i>
Writing folder 6 82–83		Academic and General Training Task 2	Connecting ideas 1	
Revision Units 9–12 84–85				
Unit 13 Choices 86–89 Making decisions	13.1	Reading (AC)	Locating information Multiple choice	V Collocations with adverbs
	13.2	Listening Speaking	Multiple choice Note completion Part 3	G Conditionals
Test folder 7 90–91		Reading	Locating information	
Unit 14 The importance of colour 92–95 Colour	14.1	Listening Writing extra (AC) Speaking	Matching Listening for specific information Task 1: Describing changes Part 3	V Words and phrases related to change P Linking words V Colours V Adjectives describing personality
	14.2	Listening	Short-answer questions	G <i>-ing</i> forms and infinitives 2 V Confused words V Comment adverbs
Writing folder 7 96–97		Academic and General Training Task 2	Making a general statement, giving examples and using comment adverbs

Content of the IELTS Test

Each candidate takes four IELTS test modules, one in each of the four skills, Listening, Reading, Writing and Speaking. All candidates take the same Listening and Speaking Modules. There is a choice between Academic and General Training in the Reading and Writing Modules.

Listening 40 questions approximately 30 minutes

There are four sections to this part of the test and they are always in the same order. Each section is heard **ONCE** only. During the test, time is given for you to read the questions and write down and check your answers. Ten minutes is allowed at the end of the test for you to transfer your answers from the question paper to an answer sheet.

Section	Format	Task types	Objective Test folder
1 and 2	The first two sections are concerned with social needs. There is a conversation between two speakers, followed by a monologue.	Questions are chosen from the following types: <ul style="list-style-type: none"> ● multiple choice ● short-answer questions 	TF 6
3 and 4	Sections 3 and 4 are concerned with situations related to educational or training contexts. There is a conversation between up to four people and then a further monologue.	<ul style="list-style-type: none"> ● sentence completion ● note completion ● summary completion ● labelling a diagram ● table/flow-chart completion ● classification ● matching 	TF 3 TF 3 TF 5 TF 10 TF 8 TF 2

Reading 40 questions 60 minutes

There are three reading passages in the Reading Module with a total of 2,000 to 2,750 words (Academic) or 2,000 to 2,500 words (General Training). All answers must be entered on an answer sheet during the test. No extra time is allowed to transfer answers.

Academic	General Training	Task types	Objective Test folder
Texts are taken from magazines, journals, books and newspapers, which have been written for a non-specialist audience. They deal with issues which are interesting and accessible to candidates entering undergraduate or postgraduate courses or seeking professional registration.	Tests are taken from notices, advertisements, official documents, booklets, newspapers, instruction manuals, leaflets, timetables, books and magazines.	Questions are chosen from the following types: <ul style="list-style-type: none"> ● multiple choice ● short-answer questions 	TF 6
At least one text contains detailed logical argument. One text may contain non-verbal materials such as diagrams, graphs or illustrations.	The first section, 'social survival', contains texts relevant to basic linguistic survival in English.	<ul style="list-style-type: none"> ● sentence completion ● note completion ● summary completion ● labelling a diagram ● table/flow-chart completion 	TF 3 TF 3 TF 5 TF 10
	The second section, 'training survival', focuses on the training context – either training itself or welfare needs. This section involves a text or texts of more complex language.	<ul style="list-style-type: none"> ● headings ● Yes/No/Not given ● True/False/Not given ● locating information ● classification ● matching 	TF 4 TF 1 TF 1 TF 7 TF 8 TF 2
	The third section 'general reading', involves reading longer, more complex texts.		

Writing 2 tasks 60 minutes

			Writing folder
Task 1 allow about 20 minutes for this	Describing graphic data / a diagram You will be assessed on your ability to: <ul style="list-style-type: none"> organise, present and compare data describe a process describe an object, event or sequence of events explain how something works You must write at least 150 words.	Writing a letter You will be assessed on your ability to: <ul style="list-style-type: none"> write a personal or formal letter ask for and provide factual information express needs, wants, likes and dislikes express opinions, complaints You must write at least 150 words.	Academic WF 1 WF 2 WF 5 WF 10 General Training WF 4 WF 10
Task 2 allow about 40 minutes for this	Writing an essay You will be assessed on your ability to: <ul style="list-style-type: none"> present the solution to a problem present and justify an opinion compare and contrast evidence evaluate and challenge ideas You must write at least 250 words.	Writing an essay You will be assessed on your ability to: <ul style="list-style-type: none"> provide general factual information outline a problem and present a solution present, evaluate and challenge ideas You must write at least 250 words.	Academic and General Training WF 3 WF 6 WF 7 WF 8 WF 9 WF 10

Speaking approximately 11–14 minutes

The Speaking Module consists of an oral interview between you and an examiner.

Part	Format	Timing	Objective Test folder
Part 1 Introduction and interview	The examiner introduces him/herself and asks questions about familiar topics, for example, your home, family, job and interests.	4–5 minutes	TF9
Part 2 Individual long turn	The examiner gives you a card, which contains a topic and some prompts, and asks you to speak for 1–2 minutes on the topic. The examiner asks one or two questions to round off the long turn.	3–4 minutes (including 1 minute preparation time)	TF9
Part 3 Two-way discussion	The examiner invites you to take part in a discussion of a more abstract nature, based on questions thematically linked to the Part 2 topic.	4–5 minutes	TF9

1 The pictures show different methods of communication. With a partner:

- put them in order of how often you use them
- say what you last used them for.

EXAMPLE: *I use text messaging most. I last sent a text message to tell my friend where to meet me.*

Reading

Test spot

There is a lot to read in both the General Training and Academic Reading Modules (between 2,000 and 2,750 words) and you only have one hour, so you may need to improve your reading speed. By the end of this course, you should be able to read up to 300 words per minute. Time yourself and use the approximate word count given with this symbol ⌚ to work out your reading speed, dividing the number of words by the time taken. Keep a record, so you can see what progress you are making.

2 Read the text opposite as quickly as you can and say where you would find this text. This type of reading is called 'skimming'. We skim a text in order to get a general idea of what it is about. Don't worry too much about words you don't know.

⌚ about 500 words

3 Read the text again to find the following information. This is called 'scanning'. We 'scan' a text to search for specific information.

- 1 the year schoolchildren started learning Silbo Gomero
- 2 the countries Gomerans went to live in
- 3 where Silbo Gomero came from originally

Whistling in La Gomera

An ancient language of whistles that enabled long-distance communication long before the invention of the mobile phone will be saved from extinction on a volcanic island off the west coast of Africa. The island is part of the Canary Islands and is called La Gomera. The language, Silbo Gomero, which sounds like birdsong, was used by the people on the island to communicate up to three kilometres across the deep valleys that radiate from La Gomera's central volcanic peak.

With the opening of the island to tourism and the arrival of the telephone, Silbo Gomero had started to die out. Luckily, the island authorities realised what they were losing before it was too late and, since 1999, Silbo Gomero has been part of the school curriculum for children up to the age of 14. About 3,000 students spend 25 minutes a week learning it, which is enough to understand the basics. The name, Silbo Gomero, comes from the Spanish verb 'silbar' meaning to whistle and 'Gomero' meaning 'coming from the island of La Gomera'.

The language is made up of four vowels and four consonants, which can be whistled to make more than 4,000 words. In the past, children learnt it from their parents but as fewer and fewer adults were teaching their children, it became necessary for the government to take over. According to Eugenio Darias, a teacher of Silbo Gomero and director of the island's Silbo programme, 'There are few really good silbadores, fluent whistlers of the language, so far, but lots of students are learning to use it and understand it. We've been very pleased with the results.'

An important step towards saving the language was the First International Congress of Whistled Languages, which was held in La Gomera in 2003. Silbo-like whistling has been found in parts of Greece, Turkey, China and Mexico, but none is as developed as Silbo Gomero. Research will now be carried out in Venezuela, Cuba and Texas – all places to which Gomerans have traditionally emigrated and where traces of the language still survive.

Dr Francisco Rivero is a researcher at La Laguna University in Santa Cruz de Tenerife. 'Historically, from the earliest settlers up until quite recently, the Silbo Gomero language was the mobile phone of the period. It allowed people to communicate across great distances because its frequency allowed the sound to be transmitted.' Although Silbo probably originated in the Atlas Mountains of North Africa 2,500 years ago, it was adapted to La Gomera by adopting Spanish speech patterns. 'It relies on vowels rather than consonants,' explains Dr Rivero. 'These are whistled at different frequencies, using Spanish grammar. If we spoke English, we'd use an English structure for whistling. It's not just disjointed words – it flows, and you can quite easily have a proper conversation with someone.'

'Silbo Gomero is the most important pre-Hispanic cultural heritage we have. It is unique and has many values – historical, linguistic, anthropological and aesthetic,' says Moises Plasencia, Director of the Canary Islands' Historical Heritage department. Señor Plasencia has begun working to persuade UNESCO to support La Gomera's efforts to save the island's language.

Test spot

True / False / Not given tasks test understanding of factual information, and the questions are always in the order in which the answers occur in the reading passage. It's a good idea to underline the part of the text where you find the answer. This will help you to see if an answer is *Not given*. ... TF 1 (This means: Look at Test folder 1 for more information.)

4 Scan the text to do the following task.

Read the article about Silbo Gomero. Do the following statements agree with the information in the reading passage? Write

- TRUE** if the statement agrees with the information
FALSE if the statement contradicts the information
NOT GIVEN if there is no information on this

Example:

0 Silbo Gomero was only used face to face.

Answer: False (The information giving the answer is underlined in the text.)

- Silbo Gomero began to disappear with the introduction of more modern technology.
- Schoolchildren in La Gomera enjoy learning Silbo Gomero.
- Schoolchildren on the island have a 25-minute lesson in Silbo Gomero once a day.
- Eugenio Darias is the best teacher of Silbo Gomero on the island.
- Having an international conference on the island is believed to be a good thing for the future of Silbo Gomero.
- It would be impossible to adapt Silbo to English.

5 In the IELTS Test, the questions often do not repeat words from the text, but say the same thing using different words. This is called *paraphrasing*. It is important to be able to recognise and understand paraphrasing.

Find words or phrases in the text which have the same or similar meaning to the words or phrases below. Use an English–English dictionary to check your answers. The relevant paragraph number is given in brackets.

- | | |
|--------------------------------------|--|
| 1 the summit or top (1) | 6 immigrants (5) |
| 2 to begin to disappear (2) | 7 came from (5) |
| 3 the essentials or fundamentals (2) | 8 was changed to suit different conditions (5) |
| 4 consists of (3) | 9 depends on (5) |
| 5 some evidence of (4) | 10 not well connected (5) |

Speaking Part 1

Test spot

The first part of the Speaking Module takes about four to five minutes. It is the same whether you do the General Training or the Academic Module. You will be asked general questions about yourself, your home and family, your job or studies or your interests. ... TF 9

6 With a partner, ask and answer these questions. Make sure you don't just say *Yes* or *No*. Always expand your answer.

- Do you have a large or small family?
- Who do you talk to most in your family? Why?
- What problems do you have when you talk to someone in a second language?

COMMUNICATE!

9

Grammar The passive

1 The passive is very important in academic writing. It is often used in newspaper reports, in formal notices and in technical writing about processes in science and engineering. (See **WFI** for how the passive is used in Academic Writing Task 1.)

Look at the sentences below. Which do you think is more impersonal and formal?

- a The Congress was held in La Gomera in 2003. (passive)
- b Some people held the Congress in La Gomera in 2003. (active)

2 The passive is formed by using tenses of *be* + past participle, or modal verb + *be* + past participle. Look at these examples from the reading passage in 1.1.

- (*Silbo Gomero*) ... **will be saved** from extinction
future simple passive
- (*The island*) ... **is called** La Gomera
present simple passive
- (*Silbo Gomero*) ... **was used** by the people on the island
past simple passive
- (*Silbo Gomero*) ... **can be whistled**
modal passive
- Silbo-like whistling* **has been found** in parts of Greece
present perfect simple passive

Underline the other examples of the passive in the reading passage.

G ... page 138 (This means: Look in the Grammar folder on page 138 for more information.)

3 The passive is often used when the person responsible for the action (the agent) is either not known or is not important. If we *do* want to mention a person, then we use *by*.

With a partner, talk about the following inventions, which are all to do with communication.

EXAMPLE: *I think the telephone was invented in ... by ...*

1 The telephone	1966	Henry Mill
2 The World Wide Web	1951	Chester Carlson
3 The photocopier	1876	Tim Berners-Lee
4 The fax machine	1714	Xerox
5 The typewriter	1994	Alexander Graham Bell

4 Read this article about the history of the mobile phone. Decide if the verbs need to be active or passive and put them in the right form.

Motorola designer Rudy Krolopp with DynaTAC portable cellular phone prototypes, 1983

The first public telephone call on a portable radiotelephone 1 (make) on April 3rd, 1973 by Martin Cooper, one of a team of engineers in Motorola's Communications Systems Division. Previously, people could only phone someone from a building or a car. Martin Cooper says, 'As I 2 (walk) down the street talking on the phone, New Yorkers 3 (look) amazed at the sight of someone actually moving around while making a phone call.'

The phone that Cooper 4 (use) looked like a large brick. In 1983 the 28-ounce 'DynaTAC' phone, the world's first commercial handheld cellular phone, 5 (introduce) by Motorola. Each phone 6 (cost) the consumer \$3,500. Today there 7 (be) more mobile subscribers than landline phone subscribers in the world, and mobiles 8 (weigh) very little and 9 (can buy) for as little as \$35.

Mobile phones today 10 (use) to send photos and receive e-mails as well as for making phone calls and text messaging. In the future, who knows what else mobile phones 11 (use) for? Certainly, most people 12 (not seem) able to leave home without one.

5 Complete these sentences using the verb in brackets in the right form of the passive.

EXAMPLE: My phone (make) was made in the USA.

- 1 It (think) that more text messages (send) by girls than boys.
- 2 Bill Gates (say) to be the richest man in the world today.

Test folder 1

Yes / No / Not given and True / False / Not given

(Academic Reading and General Training Reading Modules only)

You will be given some sentences which relate to the reading passage. The sentences follow the order of the passage.

You must decide whether each sentence agrees with the text or contradicts it, or whether there is not enough information in the passage for you to decide.

Yes / No / Not given is used to test your understanding of the writer's opinions. *True / False / Not given* is used to test your understanding of factual information.

Advice

- Skim the whole passage before you start working on any of the tasks. Then read the instructions, so that you know what you need to do. They are not always phrased in the same way.
- Read the first statement. It may help to underline key words.
- Look through the passage to find the relevant information, and think carefully about what it means. Underline the part of the text that contains the answer. Decide if the statement agrees with or contradicts the passage or is *Not given*. Remember you must base your answer on what is in the passage, not on your own knowledge or what you think is likely to be true. *Not given* means that there isn't enough information in the passage to decide if the statement is *True* or *False* (or *Yes* or *No*).
- Continue with the other statements in turn. If you can't find the relevant part of the passage, it probably means that the statement is *Not given*.
- Always give an answer – you won't lose any marks if it's wrong. If you're not sure, choose *Not given*.

This passage is similar to those in the Academic Reading Module and Section 3 of the General Training Reading Module, but it is only about 600 words. (See *Content of the IELTS Test* on pages 6–7 for the length of reading passages in the Test.)

The Functions of Language

The question 'Why do we use language?' hardly seems to need an answer. But our everyday familiarity with speech and writing can make it difficult to realise how complex the skills are that we have learned. This is particularly so when we try to define the range of functions to which language can be put.

'To communicate our ideas' is the answer that most of us would give to the question – and, indeed, this must surely be the most widely recognized function of language. Whenever we tell people about ourselves or our circumstances, or ask for information about other people and their circumstances, we are using language in order to exchange facts and opinions. It is the kind of language which is found in any spoken or written interaction where people wish to learn from each other. But it would be wrong to think of it as the *only* way in which we use language. There are several other functions where the communication of ideas is irrelevant.

Emotional expression

Mr X carefully leans his walking stick against a wall, but it falls over. He tries again, and it falls a second time. He shouts at the walking stick. How should we classify this function of language? It cannot be 'communication of ideas', for there is no one else in the room.

Here we have one of the commonest uses of language – a means of getting rid of our nervous energy when we are under stress. This type of language can be used whether or not we are alone. Swear words are probably the commonest signals to be used in this way, especially when we are angry. But there are also many words that we use to express positive feelings, such as affection, or a reaction to beautiful art or scenery.

The most common linguistic expressions of emotion consist of conventional words or phrases (such as 'Gosh', 'My') and the semi-linguistic noises often called interjections (such as 'Wow' and 'Ouch').

Social interaction

Mrs P sneezes violently. Mrs Q says, 'Bless you!' Mrs P says, 'Thank you.' Again, this hardly seems to be a case of language being used to communicate ideas, but rather to maintain a comfortable relationship between people. No factual content is involved. Similarly, the use of such phrases as 'Good morning' or 'Pleased to meet you', and conventional exchanges about health or the weather, do not 'communicate ideas' in the usual sense.

Phrases of this type often state the obvious (e.g. 'It's a lovely day') or have no content at all (e.g. 'Hello'). They are used to maintain a friendly relationship between people, arising out of the basic human need to signal such an attitude. If someone does not say these sentences when they are expected to, their absence may be interpreted as a sign of distance or even danger.

These illustrations apply to English and to many European languages. But cultures vary greatly in the topics which they permit in this type of social interaction. The weather is not as universal a conversation-filler as English people might like to think! Other topics are used to serve the same purpose, and some cultures avoid this type of language and prefer silence.

The power of sound

In many situations the only apparent reason for a use of language is the enjoyment that the users or listeners gain from the sounds, and this applies to all age groups. Many children's rhymes are of this type, as are the lyrics of popular songs, and the voices of individuals singing in the kitchen or the bath.

Do the following statements reflect the claims of the writer in the reading passage?

Write

YES if the statement reflects the claims of the writer

NO if the statement contradicts the claims of the writer

NOT GIVEN if it is impossible to say what the writer thinks about this

Example:

Answer:

Using a language involves complicated skills. **YES**
(But our everyday familiarity with speech and writing can make it difficult to realise how complex the skills are that we have learned)

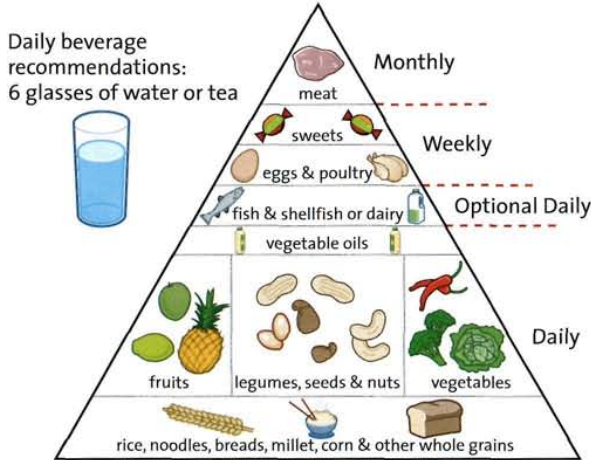

- 1 Most people are aware that a major function of language is to communicate ideas.
- 2 We communicate ideas every time we use language.
- 3 The communication of ideas involves at least two people.
- 4 We are becoming more aware of how language is used for emotional expression.
- 5 Interjections are similar in all languages.
- 6 Phrases like *Good morning* can be used to express a range of feelings.
- 7 The weather is used as a standard topic of social communication in all languages.
- 8 Some types of sounds can give pleasure to both adults and children.

A healthy diet

1 Compare the two diets below.

- What are the staple foods of each diet?
- What differences and similarities are there between the two diets?
- Are there some foods which are better for you than others?
- Which foods contain mainly
 - a carbohydrate? b protein? c fat?

THE TRADITIONAL HEALTHY ASIAN DIET PYRAMID

THE TRADITIONAL HEALTHY LATIN AMERICAN DIET PYRAMID

Listening

Test spot

In Part 2 of the Listening Module you will hear one person talking about something of general interest. There is usually more than one type of question. You will often need to listen for specific information – that is dates, times, names, important words.

Always read through the questions very carefully before you listen, to get an idea of what you are listening for.

You will hear a lot of information, but you don't need to understand it all. You should always look ahead to the next question so that you don't miss hearing the answer to a question.

Write the exact words that you hear, but don't write more than the maximum number of words. You will only hear each section once in the IELTS Test. ... TF 3

2 You are going to listen to someone talking about two websites. Look at the questions below and, with a partner, decide what type of information you are going to listen for.

Websites about Food

The History of Rice

- Rice first grown: 1 years ago
- Amount of rice produced every year: 2 over tonnes
- Number of calories in one serving of rice: 3 calories
- Three things you can make from rice: drinks, glue and 4

Yokohama Noodle Museum

- Date museum opened: 5
- Day museum closed: 6
- Souvenir shop: on 7 floor
old 8 shown on TV
- Number of noodle shops in the theme park: 9
- Journey time by train from Tokyo: 10

Listen to the recording and complete the notes. Write **NO MORE THAN TWO WORDS AND/OR A NUMBER** for each answer.

Pronunciation *Weak and strong forms*

Short words like *a, and, some, to, at*, etc., are usually not stressed in spoken English.

MENU	Starters
	Soup of the day Melon
	Main courses
	Steak Salmon Chicken (served with chips and salad or vegetables)
	Desserts
	Raspberries and cream Ice cream (chocolate, vanilla, or strawberry) Cheese and biscuits
	Drinks
	Tea Coffee Soft drinks Mineral water

- 3 Listen to the conversation. What types of words are stressed?

Man: I'll have soup to start with, please.

Waiter: And for the main course?

Man: Steak, please.

Waiter: With chips and salad or with vegetables?

Man: I'll have some vegetables, please.

Waiter: And to drink?

Man: Just a glass of water.

Waiter: OK, right away, sir.

Waiter: Would you like a dessert?

Man: Yes, some raspberries and cream, please.
And a cup of coffee.

Now, with a partner, order a meal from the menu.

- 4 Sometimes we stress the short words. Listen to this example:

*I ordered raspberries and cream **and** ice cream.*

Look at the conversations below. Are the underlined words weak (W) or strong (S)? Write W or S and then listen to the recording to check your answers.

- A: Do you like chocolate?
B: Yes, I do.
- A: Where's the waiter?
B: That's him, by the bar.
- A: What do you want with the raspberries, cream or ice cream?
B: I'd like cream and ice cream – they're lovely together!
- A: I'm eating at the Savoy Hotel tonight.
B: Not the Savoy Hotel in London?

Vocabulary Adjectives describing food

- 5 Match the food to the appropriate adjective.

1 meat which is beginning to smell	ripe
2 a hot curry	rotten
3 a perfect apple	fresh
4 yesterday's milk	spicy
5 three-day-old bread	bland
6 unsalted food	burnt
7 black toast	sour
8 newly laid eggs	stale

Speaking Part 1

- 6 Answer the questions with a partner.

- What kinds of food do you like best?
- Are there any things that you dislike?
- What is your idea of a perfect meal?
- What do you eat on special occasions?
- How well do you cook?

Useful language

Likes, dislikes, preferences

I love bananas.

I really like ice cream.

My favourite is ...

I'm not keen on (eating) green vegetables.

I can't *stand/bear* (eating) meat.

I hate tomatoes.

I prefer rice to potatoes.

I'd rather drink tea than coffee.

I think chocolate is nicer than anything else.

I'm good at ...

I can only cook ...

My speciality (= the thing I'm best at cooking) is ...

Grammar

Comparing things or talking about similarities and differences

1 In both the Speaking and Writing Modules of the IELTS Test you are often asked to compare and contrast. Look at the table of comparative and superlative adjectives and complete the rules below.

adjective	comparative	superlative
quick	quicker	(the) quickest
happy	happier	(the) happiest
modern	more modern	(the) most modern
expensive	more expensive	(the) most expensive

EXAMPLE: *A dish of noodles is one of **the quickest meals** you can make – it's much **quicker than** making a rice dish, for example.*

To form the comparative

- with one-syllable words, we add 1
- with two-syllable words ending in -y, we change the -y to 2 and add 3
- with most other two-syllable words and words with three or more syllables, we add the word 4

To form the superlative

- with one-syllable words, we add 5
- with two-syllable words ending in -y, we change the -y to 6 and add 7
- with most other two-syllable words and words with three or more syllables, we add the word(s) 8

Negative comparatives and superlatives

EXAMPLES: *Interestingly, although rice **isn't as rich in Vitamin C as** the potato, it is **less fattening than** the potato.*

*The museum is open every day except for Tuesday, with Sunday being the busiest day and Thursday being **the least busy**.*

To make negative comparisons we use *not as + adjective + 9* or *less + adjective + 10*

To make negative superlative statements we use 11

2 Complete the sentences using the comparative or superlative form of the word in brackets.

EXAMPLE: My mother is a (good) *better* cook than my father.

- 1 This is (good) hamburger I've ever eaten!
- 2 The old chef was (bad) than the new one.
- 3 This restaurant is (expensive) in London. It costs a fortune.
- 4 This is one of the (easy) recipes I know – a child could make it.
- 5 These apples are (sweet) than those.
- 6 José's mother always finds (cheap) vegetables in the market than in the supermarket.
- 7 People say small vegetables are (nice) than large ones.
- 8 I think salad is (healthy) than chips.
- 9 Chips are (not expensive) as caviar.
- 10 Our college canteen is (expensive) place to eat in town – three courses for only £5!

Using adverbs of degree

To talk about similarities and differences more precisely we can use the following adverbs of degree in front of comparative structures. We can also use them to compare quantities. You will need to use adverbs of degree in the Academic Writing Module for Task 1.

a bit a good deal considerably a lot
much a great deal a little slightly

With superlative structures we can use *by far*.

3 Look at the chart below and the examples that follow. Then write six sentences about the consumption of sugar and tea.

	rice (‘000 tonnes)	sugar (‘000 tonnes)	tea (‘000 tonnes)
China	134,800	10,000	495
India	83,680	17,900	693
Indonesia	36,500	3,700	-
Japan	8,790	2,400	136
Brazil	8,100	10,500	-

EXAMPLES:

(almost) the same *Brazil consumes almost/nearly as much rice as Japan.*

not the same *Japan doesn't consume (nearly) as much rice as India.*

more/less *India consumes a great deal more / much more rice than Indonesia.*

superlative *China consumes by far the most rice.*

4 Write a list of what you eat and drink in a day and compare it with others in the class. Write five sentences using the information you find out and report back orally to the class.

EXAMPLES: *I drink considerably more coffee than most people. Leila eats slightly more chocolate than I do. (= written, more formal register)*

I drink a lot more coffee than most people. Leila eats a bit more chocolate than I do. (= spoken, informal register)

Writing extra

In the IELTS Writing and Speaking Modules you will be marked on how well you use vocabulary. It is important not to confuse informal and more academic language, or use words which are inappropriate. It's also better not to use abbreviations (*etc., e.g.*) or contractions (*I'm, we've*) in formal writing.

Look at these examples from the Grammar section.

less formal language	more formal language
a lot more/less	considerably / a good deal more/less
a bit more/less	slightly / a little more/less
	by far the most

5 The following sentences all contain words that IELTS candidates have used inappropriately. Underline all the inappropriate words and replace them with a suitable word or phrase from the box. One word is used twice.

a great deal angry because become
children friends goods manager
men people regarding women

- Some people get mad when they find that they do not have enough water to grow their crops.
- Kids are the ones who suffer most during food shortages.
- Many children eat junk food cos they see their mates buying it.
- The boss of the supermarket told us to put the stuff on the shelves.
- There were some guys planting rice in the field.
- Men eat a lot more meat than ladies.
- About the food you ordered for your party, could you please confirm the date on which it is required?
- Many persons in the world do not have enough to eat.

Speaking Part 3

Test spot

In Part 3 of the Speaking Module, which lasts between four and five minutes, the examiner and the candidate will talk about more abstract issues and ideas linked to the topic of Part 2. ...TF 9

6 With a partner, discuss the following questions.

- What do you think about the way food is produced nowadays (factory farming, GM food, organic food)?
- Do you think all children should learn to cook at school?
- What role do fast food and junk food play in your country?

Useful language

Expressing and justifying an opinion

I think/believe that ... because ...

In my opinion, ... This is because ...

Well, first of all, ...

The first point I'd like to make is (that) ...

Let me explain.

Writing folder 1

Academic Writing Task 1: Describing processes

In Task 1 of the Academic Writing Module you may be given a diagram or other graphic data and asked to describe a process or explain how something works. You should spend 20 minutes on this task and you should write at least 150 words.

Advice

- Look carefully at the diagram or graphic data and make sure you understand what it is about.
- Use your answer sheet to make notes on, but remember to cross them out when you have finished your answer.
- Begin your answer by writing a summary sentence to introduce what the diagram or flow chart is about.
- Note that the passive is often used in this task. ... Unit 1
- Count approximately how many words you write. You should try not to write too much.

1 Look at the diagram below and decide which of the following summary sentences is best.

- The diagram shows the human digestive process.
- The diagram shows how food is taken to the stomach.
- Human digestion takes a long time.

2 The following is a description of the process of food digestion. When you write about a process it is important to make sure you give the information in the right order. Put the sentences a–g in order and then use the best sequencing word in each space.

first of all then next finally after

- The resulting mass is swallowed and is passed through the throat into the oesophagus. The oesophagus is a long tube which connects the throat with the stomach. It uses muscle action to send the food mass to the stomach.
 - passing through the small intestine, the food enters the large intestine, where water is removed and there are bacteria to help in the digestion process.
 -, food in the mouth is broken down by the process of chewing with the back teeth and then by the action of enzymes.
 -, waste material is excreted.
 - Here it is mixed with a chemical called bile, which is produced in the liver.
 -, the food mass mixes in the stomach with gastric acid, which breaks down the food further and helps digestion.
 - From the stomach, the partly digested food goes into the small intestine.
- 3 Underline the verbs in sentences a–g in exercise 2. Which verbs are passive and which are active? Which tense is used? Why?

4 You will get marks for organisation. Try to avoid paragraphs which have only one sentence, except possibly for the introductory paragraph. Your answer needs an introductory paragraph followed by two to three more paragraphs, each consisting of several sentences.

How would you paragraph the task on the human digestive system?

5 Look at the pictures below. With a partner, talk about the process.

Useful language

Sequencing

first of all	afterwards	finally		
firstly	secondly	thirdly	then	lastly
to begin with	next	after (this)		

1 cacao tree ripe red pods
grown in S. America, Africa, Indonesia

2 pods harvested white cocoa beans

3 beans fermented

4 spread in sun to dry

5 put in large sacks

6 transported by train or lorry

7 taken to factory

8 beans roasted

9 beans crushed outer shell removed

10 inner part pressed
liquid chocolate produced

Planning your answer

- 1 Think about what your opening sentence will be.
- 2 Select what you think are the main points of the process and do not add anything irrelevant – for example the fact that you personally love chocolate!
- 3 Join some of the sentences together using sequencing words and relative pronouns (*which, that, where, when*). You will lose marks if you use too many or not enough sequencing words, or if you use them incorrectly.
- 4 Is there unnecessary repetition? Avoid this by using pronouns – *it, they*, etc.
- 5 Organise the sentences into paragraphs – two or three, possibly four.
- 6 Check your spelling (especially of the words which you are given) and grammar.
- 7 Check that you have written enough.

6 Now complete the following Task 1.

You should spend about 20 minutes on this task.

The illustrations above show how chocolate is produced. Summarise the information by selecting and reporting the main features.

Write at least 150 words.

Speaking Part 1

- 1 Discuss these questions with a partner.

If you were given a free holiday in any city in the world ...

- 1 Which city would you like to visit, and why?
- 2 What would you enjoy doing during the day?
- 3 How would you spend your evenings there?
- 4 Where would you prefer to stay, and why?
- 5 Think about your last holiday. What do you remember most?

Reading

- 2 Here is some information about four of the attractions in Edinburgh, the capital of Scotland. Read about one attraction at a time, and discuss with a partner why it is popular. These phrases may be useful.

It appeals to people who ...
It attracts people who ...
It's a good place to go if ...

- A **EDINBURGH CASTLE** is well known throughout the world. It used to be the home of Scotland's kings and queens and it has some impressive buildings from the 15th and 16th centuries. It stands on Castle Rock, a massive volcanic rock in the heart of the city, with a magnificent view of the surrounding countryside and of the Firth of Forth, an inlet of the sea. There have been settlements on Castle Rock for nearly 3,000 years because of its good position. The Military Tattoo, a floodlit spectacle of military drum and bagpipe music, takes place at Edinburgh Castle every August, as part of the Edinburgh Festival.
- B **OUR DYNAMIC EARTH** is the most exciting attraction to have opened in Edinburgh in recent times. Inside a striking, purpose-built tented structure, there is plenty of interactive entertainment on offer for both children and adults alike. Our Dynamic Earth explores the extremes of our planet Earth. Travel back in time to witness the Big Bang, feel the earth shaken by an erupting volcano, fly over glaciers, feel the chill of polar ice, and get caught in a tropical rainstorm. It's pre-historic, volcanic, antarctic, dynamic, fantastic! Out of this world ... but about this planet!
- C In the 19th century, people travelling by train between Edinburgh and places north of the Firth of Forth had to change to a ferry to cross the water, then transfer to another train. This was very time-consuming. The solution was to construct the **FORTH RAILWAY BRIDGE** a few kilometres west of Edinburgh. It was opened in 1890, and has been in continuous use ever since.
- D Situated under one end of the Forth Bridge, **DEEP SEA WORLD** brings you face to face with the creatures of the deep. From 112 metres of underwater tunnels you can enjoy a spectacular view of the piranhas and other tropical fish in the aquarium surrounding you. Or you can go scuba diving among the sharks. You must be at least 16 and in reasonably good health for this, because swimming with sharks can be pretty terrifying! Teachers – contact Deep Sea World about how we can help the children in your class to improve their scientific skills.

Test spot

Matching tasks like this are sometimes used in the General Training Reading Module. It's quickest to read one of the texts, then check all the sentences to find the ones that refer to it. The skills you need are also useful for Academic Reading. There may be more than one sentence about each text. Each sentence has only one right answer. ... TF 2

- 3 For which attraction is each of the following statements true?

Write the correct letter A–D.

Example:

Answer:

This attraction is located in the city centre. **A**
(The relevant phrase in the passage is underlined.)

- 1 This was built to save people time.
- 2 An unusual building was designed to house this attraction.
- 3 There is an age limit on one of the activities at this attraction.
- 4 This attraction is used in the same way as it was over 100 years ago.
- 5 A performance is given here once a year.
- 6 Educational activities can be arranged here on request.
- 7 In this attraction visitors can learn about different regions of the world.

Grammar Cause, purpose and result

- 4 Complete each sentence 1–6 with the correct ending a–g from the box below. Think about both the grammar and the meaning. There is one extra ending which you will not need to use.

- 1 Castle Rock has been inhabited for nearly 3,000 years because of
- 2 The Forth Bridge was constructed so
- 3 You must be reasonably healthy to swim with sharks, because
- 4 The Forth Bridge was made particularly strong because
- 5 A lot of interactive exhibits were used in Our Dynamic Earth so that
- 6 Our Dynamic Earth is popular with children because of

- a it seems more like entertainment than education.
b trains could cross the river.
c it would appeal to children.
d its good position.
e the interactive exhibits.
f it can be pretty terrifying!
g many people were afraid it would collapse.

- 5 Now complete these rules by choosing the correct alternatives.

EXAMPLE: *Because* is used to introduce a *cause/purpose*. It is followed by a *clause* / *infinitive / noun phrase*.

- 1 *Because of* is used to introduce a *cause / purpose*. It is followed by a *clause / noun phrase*.
 - 2 *So (that)* is used to introduce a *cause / purpose*. It is followed by a *clause / noun phrase*.
- 6 What is the difference between the meanings of *so* in these two sentences?

- 1 The underwater tunnels at Deep Sea World were designed so visitors could get close to the fish.
- 2 Tickets for the Military Tattoo sell very quickly, so it's worth booking as early as possible.

Decide if *so* in each of these sentences introduces a purpose (when *so that* is also possible, particularly in writing) or a result (when *so that* isn't possible). In two sentences, both meanings are possible.

- 3 Our Dynamic Earth was constructed on a former industrial site so it would help to improve that district of Edinburgh.
- 4 The Forth Bridge is a striking structure so it is well known around the world.
- 5 The water in Deep Sea World is heated so tropical fish can survive there.
- 6 Castle Rock is an extinct volcano so there is no danger of an eruption.
- 7 Our Dynamic Earth offers plenty of exciting activities so visitors have the experience of a lifetime.

G page 138

- 7 Talk to a partner about living in a city. Use *because*, *because of* and *so (that)* to expand your answers. This will help you with Part 3 of the Speaking Module. Here are some suggestions of ways to begin:

Living in a city is good/bad for young people because of ...

A lot of people move to cities so that ...

Cities can be exciting because ...

1 These pictures were taken in Sydney, Australia. Can you identify what each one shows?

Listening

2 You are going to hear a conversation that is similar to those in Part 1 of the Listening Module. In this task you need to listen for specific information in order to complete the notes.

You will hear Jerry, an Englishman, asking an Australian friend, Robin, for advice about his trip to Sydney.

First read the notes and discuss what kind of information you need to listen for.

Complete the notes below.

Write **NO MORE THAN THREE WORDS AND/OR A NUMBER** for each answer.

Information from Robin about Sydney

Example:	Answer:
Temperature: will probably be about	25 degrees

Pylon Lookout:
access from the **1**
go up to the **2** for a view of the harbour

Opera House:
tours last about **3**
tickets sold in the **4** at the Opera House

The Rocks:
the **5** district of Sydney
has popular **6** and

The Dragon Festival:
more than **7** competitors
first event includes **8** and

Vocabulary Adjectives

3 Here are some adjectives that are often used in guide books.

beautiful	crowded	famous
fascinating	massive	
spectacular	striking	
terrifying	thrilling	

Choose the word from the box that is closest in meaning to the words in *italics* in the sentences below. There is one extra word which you will not need.

- Edinburgh Castle stands on a *very big* rock in the centre of the city.
- The Military Tattoo can be a *very exciting* experience.
- The Sydney Opera House is *very unusual in appearance*.
- The Dragon Festival is a *magnificent* event that attracts thousands of spectators.
- Sydney Harbour Bridge is *well known* around the world.
- Sydney is a *very attractive* city.
- There are some *very interesting* museums to visit in Sydney.
- Sharks can be *frightening* if you get too close to them.

Adjectives ending in *-ing* and *-ed*

Some verbs have two related adjectives, one ending in *-ing* and the other in *-ed*.

Adjectives ending in *-ing* have an active meaning, for example, *an interesting city* is one that interests someone, such as the speaker.

Adjectives ending in *-ed* have a passive meaning, for example, *I'm interested in architecture* describes the effect that architecture has on me. These *-ed* adjectives are related to verbs used in the passive (see Unit 1).

4 Complete this table. Be careful with the spelling.

verb	'active' adjective, <i>-ing</i>	'passive' adjective, <i>-ed</i>
to amaze	amazing	
to astonish		astonished
to excite		excited
to fascinate		fascinated
to frighten	frightening	
to interest		interested
to surprise		surprised
to terrify	terrifying	
to thrill	thrilling	

5 Circle the correct alternative.

- 1 A *fascinating* / *fascinated* book was published recently about the history of Sydney.
 - 2 Edinburgh is really *interesting* / *interested*, because a great deal has happened there over the centuries.
 - 3 I was *astonishing* / *astonished* to discover that Sydney has a large Chinese population.
 - 4 Many people are *fascinating* / *fascinated* by foreign cities that are very different from ones in their own country.
 - 5 I'm very *interesting* / *interested* in the way that Sydney has developed.
 - 6 An *amazed* / *amazing* number of people watch the Dragon Boat Races.
- 6 Now complete these sentences by telling a partner about cities you have visited or lived in.
- 1 I think ... is a very exciting city, because ...
 - 2 Some visitors to ... are amazed that ...
 - 3 It's surprising that ... doesn't have ...
 - 4 Most people who visit ... for the first time are thrilled when they see ...
 - 5 It's astonishing that ... is ...

Pronunciation *Word stress in related words*

- 7 In the word *spec'tacular*, the second syllable, *ta*, is stressed (shown by ' in front of the syllable). Most words have one stressed syllable, but it is not easy to work out which one it is, so whenever you learn a new word, make sure you also learn which syllable is stressed.

Make sure you know the meanings of the words below. Many of them are used in this unit. The two words in each pair have different stressed syllables. Mark the stressed syllable in each word.

EXAMPLE: 'spec.ta.cle (n) spec.ta.cu.lar (adj)

- 1 in.form (v) in.for.ma.tion (n)
- 2 ob.serve (v) ob.ser.va.tion (n)
- 3 solve (v) so.lu.tion (n)
- 4 ac.tive (adj) ac.ti.vi.ty (n)
- 5 lo.cal (adj) lo.ca.li.ty (n)
- 6 na.tion (n) na.tion.al.i.ty (n)
- 7 a.ca.de.my (n) a.ca.de.mic (adj)
- 8 sci.ence (n) sci.en.ti.fic (adj)

 Listen and check your answers.

- 8 Now complete this rule about the position of stressed syllables.

When a word ends in , or , the stressed syllable is always the one immediately before that ending.

Try and think of other words that follow the rule in the box above.

- 9 This is how the pronunciation of *activity* is shown in the *Cambridge Advanced Learner's Dictionary*: /æk'tɪv.ɪ.ti/.

With a partner, try and read the words below. They were all used in this unit.

- 1 /'fei.məs/
- 2 /ə'træk.tɪv/
- 3 /'strai.kɪŋ/
- 4 /hɪ'stɔr.ɪkəl/
- 5 /'bjʊz.tɪ.fəl/
- 6 /mæg'nɪ.fɪ.sənt/

Test folder 2

Matching

(Academic Reading, General Training Reading and Listening Modules)

You may be asked to match questions with options from a box in all three modules. In the General Training Reading Module *only*, you may need to match questions with parts of the passage.

In the Listening Module, the questions follow the order of the passage. In the Reading Modules they don't.

Sometimes there are more options than questions, and you must choose a different option each time.

Sometimes there are more questions than options, and you will see the instruction **NB You may use any letter more than once.**

Listening

- 1 🎧 You might find a task like this in Section 2 of the Listening Module. In the test the listening passage would be longer than this.

What is the focus of each day's activity?

Choose your answers from the box and write the letters A–J next to questions 1–5.

- 1 Monday
2 Tuesday
3 Wednesday
4 Thursday
5 Friday

- A art
B shipping
C famous people
D former amusements
E geography of the city
F old homes
G the range of museums
H transportation
I visiting local people
J wildlife

Advice

Reading Modules

- Skim the whole passage before you start working on any of the tasks. Then read the instructions and the task carefully. It may help to underline the key words.

Matching questions with options in a box

- Read the first option in the box and then find the part of the passage that mentions it. Read what is written about it. Look through the questions. If you find one that matches what is in the passage, write your answer. If nothing matches, it may be one that you don't need to use, so go on to the next option.
- You might find it helpful to underline the part of the text that contains the answer.
- Remember that the words in the questions or in the box may be paraphrases of words in the passage.

Matching questions with parts of the reading passage (GT only)

- Read each part of the passage in turn, and see which of the questions match it before going on to the next part of the passage.

Listening Module

- Read the task before you listen.
- If you miss an answer, stop thinking about it when you hear the speaker going on to talk about the next question, or you'll miss that one.

All modules

- Check that all your answers are different, unless you read the instruction 'NB You may use any letter more than once'.
- Always give an answer – you won't lose any marks if it's wrong.

Guided London walking tours

A Dickens's London

Follow in the footsteps of Charles Dickens, the nineteenth century writer, and listen as we recite parts of his novels and bring characters like Oliver Twist vividly to life. Stand by the remains of the Marshalsea, where Dickens's own father was imprisoned, and which is the scene of much of his novel 'Little Dorrit'.

B Mayfair

For more than 250 years Mayfair has been the most upmarket district in London, and many well-known books have been written here. We explore streets with familiar names like Savile Row, famous for its men's suits, and Piccadilly, home of the Royal Academy.

C Clerkenwell to the Angel

We walk along St John Street, where animals used to be driven on their way to Smithfield Market, and see a 1504 gateway. We pass the historic Sadler's Wells Theatre and the original termination of the New River, constructed to bring water to London from springs over 30 km away.

D South Bank

We walk along the River Thames to Bankside, where the former power generating station has been transformed into Tate Modern art gallery. Close by we see the new Globe, a replica of Shakespeare's theatre of four hundred years ago, then continue to Borough Market, where you'll find it hard to choose among all the fine food and other goods on sale.

E London's oldest buildings

In a secret city of ancient buildings, courtyards and narrow streets, you'll discover how Stinking Lane and Turnagain Lane got their names, and go inside some of London's oldest and most fascinating buildings, some of which can only be visited by special arrangement.

2 This passage is about 300 words long and is similar to a Section 1 text in General Training Reading. Here you need to match the questions to parts of the text.

Look at the five descriptions of guided walks A–E. For which walk is each of the following statements true? Write the correct letter A–E.

NB You may use any letter more than once.

Example: Answer:
This tour includes the site of a former prison. A
(the remains of the Marshalsea, where Dickens's own father was imprisoned)

- 1 This tour includes a street well known for its clothes shops.
- 2 On this tour excerpts from books are read aloud.
- 3 On this tour you can see a building that has been converted to a new use.
- 4 On this tour you can see where an artificial watercourse used to end.
- 5 This tour includes going inside places that are normally closed to the public.
- 6 This tour includes a functioning market.
- 7 This tour is of an area that has high status.
- 8 This tour takes you to a modern theatre.
- 9 On this tour you will learn the meanings of some street names.

🎧 Read questions 1–4, then listen to the next part of the recording and answer them.

Questions 1–4

Choose the correct letter, **A**, **B** or **C**.

- Morag started having lessons at home because
 - she was unhappy at school.
 - she was not learning much at school.
 - she lived a long way from the nearest school.
- What does she dislike about learning at home?
 - Her mother always knows what she is doing.
 - She has to study for most of the day.
 - She is unable to spend time with friends.
- She thinks that working on projects
 - takes too much time.
 - helps her to understand the subject.
 - teaches her how to use the Internet effectively.
- What does she find most difficult about working on projects?
 - writing reports
 - finding information
 - planning the project

🎧 Now read questions 5 and 6. Here you have to choose more than one of the options. Listen, and as Morag mentions each of the options, find it in the list, and put a tick (✓) if it is a right answer, and a cross (X) if it is wrong.

Questions 5 and 6

- Which **THREE** subjects does Morag enjoy studying?

A history	D biology
B geography	E economics
C English	F foreign languages
- Which **TWO** careers is Morag interested in?

A sport	D teaching
B cinema	E medicine
C music	
- Do you think it's a good idea for Morag to be taught by her mother? Would you like to have been taught at home?

Speaking Part 3

- In small groups, discuss these questions.
 - Do you think it is better to have one-to-one lessons or to study in a class?
 - What are the advantages or disadvantages of one-to-one lessons?

Listening

Test spot

Multiple-choice tasks are used in the Listening and Reading Modules. First read the questions and the options. As you listen, consider *all* the options. Only one of them is right, unless you are told to choose more than one (as in questions 5 and 6 below). ... TF 6

- 🎧 You are going to listen to a radio interview with Morag, who is 16. She is talking about her experience of having lessons at home instead of going to school.

Read the example question.

- 0 How old was Morag when she started having lessons at home?
- A 4 B 7 C 8

Now listen to the example on the recording and notice that Morag talks about all three ages, but the answer to the question is C – she says *I left when I was eight, and my mother's been teaching me at home ever since*.

Reading

- 4 What advice would be useful for someone who wants to read more effectively? In small groups, discuss which of these pieces of advice you would give.
- 1 First decide why you're reading the text.
 - 2 Always read a text in full.
 - 3 Read the title to find out what the text is about.
 - 4 Ask other people questions about the subject.
 - 5 Look for the main information in the last sentence of each paragraph.
 - 6 Copy the most important parts of the text.
- 5 The following advice was given by a university, to help students to read books and academic papers more effectively. Read it, and decide which of the above six pieces of advice it includes. Put a tick (✓) beside the advice in exercise 4 if it's included, and a cross (X) if it isn't.

🕒 about 250 words

READING FOR COMPREHENSION

- As a student you'll need to read a great many articles, books and texts on the Internet, so make sure you can do it effectively. Before you start reading, decide what your purpose is. Then you should choose the most suitable reading method. For instance, if you need to find something specific, such as information about a particular person or topic, scan the text until you find the person's name or a mention of the topic, then read just the relevant section. Scanning is the most rapid form of reading.
- 10 If you need to find out the main theme and ideas of the text, you'll need to read more of it. First spend two or three minutes looking at the title, subheadings, introduction and summary, if there is one. Write down the questions that you want answers to, for example, *Why did such-and-such happen?* or *What was the result of such-and-such an event?* Then read the first sentence of each paragraph: if it's relevant, read the rest of the paragraph. Otherwise go on to the next. Also use the writer's linking phrases as a guide, words like *the first point*, *however*, *to sum up*, and so on.
- 20 Above all, interact with what you're reading. Work out how it relates to what you already know. Make sure you can follow the writer's thought processes. Make notes about the topic, using your own words rather than copying what you have read. Reading effectively means using your brain – simply moving your eyes across the words is a waste of time!

Which of these is your brain?

Vocabulary

- 6 These words and phrases paraphrase words in the passage which are more suitable for academic writing. Find the words in the passage. They appear in the same order.
- 1 understanding
 - 2 the reason for doing something
 - 3 a way of doing something
 - 4 particular
 - 5 connected with what you are interested in
 - 6 the name of a book, article, etc.
 - 7 is connected
- 7 Complete each sentence with a word from exercise 6.

- 1 There is more than one of reading, and the best one depends on what you intend to gain from that book or article.
 - 2 The usually indicates what a book is about.
 - 3 If you need information, it may help to scan the text for it.
 - 4 The of reading a textbook is usually to get information.
 - 5, particularly when reading in a foreign language, requires mental effort by the reader.
- 8 In small groups, discuss what's important for effective learning at school or college, for example:
- the number of students
 - the ability of the teachers
 - activities during lessons
 - equipment and facilities
 - whether all the students have a similar knowledge of the subject.

- 1 Talk to a partner about how you study or work.
- Do you usually study or work on your own, or with friends?
 - Do you do anything while you're studying or working, for example, eat, talk, or listen to music?
 - How often do you take a break?
 - What are you studying or working on at the moment?

Grammar Review of present tenses

Present simple and continuous

- 2 These sentences come from the recording in 4.1. Choose the meaning (a, b or c) from the box that best suits the verb in *italics* in each sentence.
- a a temporary activity around the time of speaking
b how often an action is carried out
c something that is true in general, or permanently
- 1 We *start* around 9 o'clock, five days a week.
 - 2 At the moment I'm *doing* research into the island where we *live*.
 - 3 I *spend* most weekends with other people.
 - 4 I *enjoy* doing things on my own.
 - 5 I'm *thinking* seriously about becoming a doctor.
 - 6 Some people *think* I must be lonely.

Now write *present simple* or *present continuous* beside each of the meanings (a, b and c) in the box.

- 3 Choose the correct alternative, and decide whether the meaning is a, b or c from the box in exercise 2.
- 1 We *study* / *are studying* South America in our geography lessons this month.
 - 2 I *understand* / *am understanding* why some people find photography interesting.
 - 3 I can't talk to you now – I *have* / *am having* lunch.
 - 4 How often *do you work* / *are you working* on the computer?
 - 5 Morag *thinks* / *is thinking* about her project.
 - 6 I *think* / *am thinking* it's more fun to study with other people than on my own.
 - 7 I *never spend* / *am never spending* much time studying in the evening.

Some verbs are rarely used in the continuous tense. Many of them describe

- a state of mind, e.g. *believe, understand*
- a feeling, e.g. *like, love, want*
- a relationship, e.g. *belong, cost, include*.

- 4 The following sentences show common errors that IELTS candidates have made in the use of tenses. Correct the errors.

- 1 How much time I spend doing homework is depending on what else I want to do.
- 2 Please stop talking – I listen to the teacher.
- 3 Most people are feeling tired when they've worked hard all day.
- 4 This week we have lessons in the library because our classroom is being decorated.

Present perfect simple

- 5 These are the three main meanings of the present perfect tense. Choose the most suitable meaning, a, b or c, for each sentence below.
- a an action or situation that started in the past and continues to the present
b an action or situation that finished at an unspecified time in the past
c a past action or situation, with the emphasis on its result in the present
- 1 Morag *has lived* on a remote island for the last few years.
 - 2 We can't use the Internet because the computer *has crashed*.
 - 3 Most people *have had* lessons that were boring.
 - 4 I've *read* some interesting books about biology.
 - 5 The school *has bought* some new equipment which will help the students studying physics.
 - 6 I've *known* since I was a child that I want to go to university.

Present perfect continuous

6 The present perfect continuous is used to describe:

- a actions which have lasted for some time and are likely to continue
- b actions which lasted for some time and have just stopped

Look at these examples. Which use, a or b, matches each one?

- 1 In this programme we've been looking at different forms of education, and now we'll leave that and turn to health.
- 2 In this series we've been looking at different forms of education, and today we're going to talk about having lessons at home.
- 3 Joanne has been revising for her maths exam, and now she's starting business studies.
- 4 Many young people have been using computers since they were children.

G page 139

7 Talk to a partner. Imagine that you haven't seen each other for two or three weeks. Tell each other what you've done since you last met, using the present perfect simple and continuous.

EXAMPLE: *I've been to the cinema twice.*
I've been studying for exams (and I haven't finished yet).

Here are some verbs for you to use:

be	eat	go	read
see	study	talk	visit
walk	practise		

Pronunciation Word stress

8 With a partner, put a mark (') in front of the stressed syllable in each of the words in *italics*.

EXAMPLE: Now in this programme we've been looking at different forms of *e.du.'ca.tion* for children up to the age of 16.

- 1 But now I *pre.fer* it.
- 2 The only *di.ffi.cul.ty* is that I'm the centre of attention.
- 3 After that I have to write a *re.port* on what I've found out.
- 4 What subjects do you *stu.dy*?
- 5 I do a lot of projects on *par.ti.cu.lar* topics.
- 6 We learn how the *cli.mate* affects the way we live.
- 7 I find the *pro.nun.ci.a.tion* of foreign languages quite difficult.
- 8 I can't seem to remember the *vo.ca.bu.la.ry*!
- 9 I think *pho.to.gra.phy* is fascinating.
- 10 There are so many things you can do when you take *pho.to.graphs*.

Now listen and check that you have marked the right syllables.

9 Write the words from exercise 8 in the right boxes below. The most useful clue to the pattern is whether the word ends in one of a number of suffixes. If it doesn't, it's often a question of how many syllables follow the stressed syllable. It will be helpful to complete the boxes for pattern 1 first.

This symbol • means that a syllable is stressed.

– means a syllable is unstressed.

(–) means any number of unstressed syllables (including none)

1 Pattern: stress on the syllable before certain suffixes, including: *-cian, -graphy, -ial, -ian, -ic, -ical, -ics, -ious, -ience, -ity, -logy, -sion, -tion*,

e.g. *ex'per.ience*

a b

2 Pattern: (–) • e.g. *be'cause*

a b

3 Pattern: • – e.g. *'some.thing*

This is the main pattern for words of two syllables.

a b

4 Pattern (–) • – e.g. *'In.ter.net*

This is the main pattern for words of three or more syllables.

a b

5 Pattern (–) • – – e.g. *'ne.ce.ssa.ry*

a b

Does your name have any of these stress patterns? If so, write it by the appropriate pattern.

Read the words to a partner, so they can check that you say the words with the stress on the right syllable. Then they should read the words to you.

When you learn a new word, use an English–English dictionary to find out which syllable is stressed. Mark that syllable in your notes.

10 Tell a partner how you feel about studying. What are you interested in? What are you good / less good at? What are you looking forward to?

Writing folder 2

Academic Writing Task 1: Handling data 1 – line graphs

In Task 1 of the Academic Writing Module you may be given one or more line graphs and asked to explain what they show. You should spend 20 minutes on this task and you should write at least 150 words.

Advice

- You will need to compare the information as well as describe it. For language of comparison/similarities/differences see Unit 2.2.
- It is important not to offer your opinion on the graph or to try to give reasons for the figures mentioned.

1 A line graph is a way to summarise how two pieces of information are related. Look at chart 1. Which sentence, a or b, is a better summary of the chart?

- The graph shows how much money was spent on students in California from the end of the 70s to the beginning of the 21st century.
- The graph shows how many dollars were spent on each student's education in the state of California in selected years between 1977 and 2002.

Chart 1

Chart 2

2 Look at chart 2. Use appropriate vocabulary from the Useful language box on the opposite page to complete the following sentences:

Noun + adjective

EXAMPLE: There was a *sharp rise* in the amount spent on books in 1993, compared with the previous year.

- There was a in the amount spent on computers between 1992 and 1994.
- There was a in spending on computers from 1998.
- There was a in spending on computers in 1992 and then again in 1998.
- There was a in spending on books from 1997.

Verb + adverb/adjective/noun

EXAMPLE: Spending on computers *fluctuated slightly* between 1992 and 1994.

- Spending on books from 1992 to 1993.
- Spending on books in 1993.
- Spending on books from 1994 to 1996.
- Spending on computers in 1996.
- Spending on computers in 1998.
- Spending on computers in 1999 and 2000.

Useful language

Expressing changes

to rise / a rise
to increase / an increase
to go up
to double

to reach a peak

to hold/remain steady
to be stable
to be constant
to level off

to fluctuate
a fluctuation

to decrease / an decrease
to decline / a decline
to fall / a fall

gradual / gradually
steady / steadily

dramatic / dramatically
steep / steeply
sharp / sharply

Time expressions

for the period
since 1999
for five years
between 1990 and 2001
in 1987

3 Complete the report below, which describes the chart showing school enrolment in the USA. Each space has a clue to the type of word needed, to help you.

School enrolment in the USA (student numbers in millions)

The chart shows the increase **0** (preposition) *in* the number of people who received an education in the USA **1** (preposition) 1890 and 2001.

2 (preposition) the beginning of the twentieth century numbers of those who were enrolled in grades 1-8 and in grades 9-12 (high school) began to **3** (verb) By the end of the twentieth century figures for the former **4** (verb + preposition) around 38 million, compared to 15 million for high school. Only two periods showed a **5** (noun) - starting in the 1930s and 1970s for grades 1-8, and in the 1940s and 1980s for grades 9-12.

The number of students in colleges and universities was much lower than those enrolled in grades 1-8, and was generally below those in grades 9-12. The number of students going on to further education **6** (verb and adverb) until the end of the 1960s, when there was a **7** (adjective and noun) This **8** (noun) continued until the 1990s, when numbers were level with those leaving high school - around 15 million.

Overall, during the twentieth century there was a **9** (noun) in the number of Americans receiving an education at all levels.

Units 1–4 Revision

Topic review

1 Read these sentences and say which are true for you, giving more details. Try to expand your answers.

- 1 I was sent over 50 text messages last week.
- 2 I wouldn't want the latest mobile phone as a present.
- 3 In my opinion, the computer will never take the place of books.
- 4 I like to think my diet is healthier than that of my friends.
- 5 I would never buy fast food.
- 6 I am the best cook in my family.
- 7 I prefer city to beach holidays as there is more to do there.
- 8 I need to study abroad so I can get a better job.
- 9 Sydney would be a great city to visit.
- 10 I get stressed in the city because of the traffic.

Grammar

Passive/active

2 Read this description of how glass bottles are made. Put the verb into an appropriate form – passive or active, simple present or past, or present perfect.

No one knows exactly when or where glass 0 (first make) *was first made*. It probably 1 (originate) in Mesopotamia, where pieces of well-made glass 2 (find) In those days, glass 3 (always make) by hand. A glassblower 4 (blow) through a hollow tube and 5 (make) a bottle shape out of the hot glass.

In the thirteenth century, Venice 6 (become) an important centre for glass making. Venetian glass 7 (praise) for its imaginative forms and, in fact, glass makers in Murano, an island near Venice, 8 (forbid) to leave the island in case they 9 (give) away their secrets to others.

Today, bottles and jars 10 (usually make) by machine. In the factory, sand, soda, lime and crushed glass 11 (mix) together. This mixture 12 (heat) in a huge oven called a furnace to 1,560 degrees C. It 13 (melt) and 14 (become) red-hot liquid glass. Next, a lump of the hot, soft glass 15 (remove) from the furnace and dropped into a metal mould. Finally, air 16 (blow) into the glass in the mould to make a bottle.

Present tenses

- 3 Correct the following sentences, if necessary. Some sentences are correct.
- I live in England for six months.
 - Our principal is believing in democracy in the classroom.
 - That briefcase belongs to Paula.
 - I am enjoying studying mathematics this term.
 - Elsa is never understanding which are the healthiest things to eat.
 - Franco has waited outside the gallery since four o'clock.
 - I've been going to the college twice this week.
 - I'm seeing Lisa tonight.
 - I've been knowing how to drive since I was eight.
 - Water is freezing at 0 degrees centigrade.
 - Dr Scott knows my father since 1960.
 - What do you do? – I read a book.
 - How are you feeling now?
 - Paul is working hard on his thesis at the moment.

Comparatives and superlatives

- 4 Look at the 2005 statistics for the cities below and write six sentences comparing the cities.

	population	area (km ²)	number of high-rise buildings
Beijing	7,746,519	16,808	289
Durban	847,324	2,291	173
Hong Kong	6,787,000	1,001	7,422
Las Vegas	517,017	294	98
New York	8,115,135	800	5,444
Osaka	2,598,589	290	740
São Paulo	10,600,060	1,525	3,014

© Emporis 5/2005

EXAMPLES: *Hong Kong has by far the largest number of high-rise buildings of the seven cities mentioned here.*
Durban has a larger number of high-rise buildings than Las Vegas, and has a much greater area.

Prepositions

- 5 Complete these sentences using a preposition.
- My class consists students from all over the world.
 - Sue depended her mobile to keep in touch with her family.
 - The tour guide in the coach got very well with the driver.
 - How did you get to the restaurant – foot or taxi?
 - Marco was very good whistling.
 - I'm looking forward finishing the term.
 - The courier was very quick counting out the change.
 - My brother is keen cooking Chinese food.

Vocabulary

- 6 Circle the correct alternative.
- This city tour is really *bored* / *boring*.
 - I was very *surprised* / *surprising* to get a fax from the college.
 - It was really *excited* / *exciting* to have lessons by radio.
 - Tom was *astonished* / *astonishing* to read that a quarter of Americans are overweight.
 - This book I'm reading on further education is very *interested* / *interesting*.
- 7 Which word is different?
- attractive crowded fascinating impressive
 - terrifying frightening worrying spectacular
 - bland fresh sour burnt
 - sour rotten stale spicy

1 Match places 1–4 with photographs A–D and then say which type of structure each is.

- | | |
|---------------------------|--------------------------|
| 1 The Great Wall, China | a temple |
| 2 The Moai, Easter Island | a system of defence |
| 3 The Parthenon, Greece | tombs or burial chambers |
| 4 The Pyramids, Egypt | sculptures |

Reading

2 Read the article and answer the following questions. Don't worry about the spaces in the article for now.

- Where is Easter Island?
- Who built the Moai and why were they built?

3 Words a–e are taken from the article. Match them with their meanings, 1–5, then decide where they fit in the article.

- | | |
|-----------|--|
| a clan | 1 an area or type of work or study |
| b sites | 2 no longer active |
| c remains | 3 places that are being dug up to find information |
| d field | 4 ruins, what's left behind |
| e extinct | 5 a family group or tribe |

🕒 about 700 words

The Moai of Easter Island

Easter Island was named by a Dutchman, Jacob Roggeveen, who arrived there on Easter Day, 6 April 1722, but its native name is Rapa Nui, sometimes translated as 'centre of the Earth'. Nearly 4,025 km from the coast of Chile and 4,185 km from Tahiti, this island is a triangular volcanic rock of just 17 square kilometres, and is one of the most isolated places on Earth. The top of the highest of its three volcanoes, which are now (1), is 511m above sea level. Currently, the island has 3,000 inhabitants and a single town, Hanga Roa. Easter Island or Rapa Nui is now a nature reserve and is governed by Chile. The island is particularly known for the large statues or sculptures, called Moai, which are found there.

In 1989, the Chilean government invited Giuseppe Orifici, an Italian archaeologist, to visit the island. Impressed by the wealth of archaeological (2), Orifici arranged to begin digging the following year. He co-ordinated a team of experts, each a specialist in their own (3), who visited the island for several weeks over the next ten years. These specialists ranged from archaeologists and anthropologists to botanists and sculpture experts.

Scientists once believed that the Rapa Nui people had originally come from South America around the 7th century.

However, a few surviving traditions, as well as the shapes of some of the sculptures, show that the people are from Polynesia and probably arrived on the island in the 5th century. Recent research on bones and teeth strongly supports this theory. While anthropologists Dr Andrea Drusini and Professor Daris Swindler were carrying out research on teeth from various (4) on the island, they found that something known as a 'genetic bottleneck' had occurred. On a small island, where people never marry outside their own (5), inbreeding is inevitable, and as a result, the gene pool for each group is narrow. A particular feature, such as large or missing teeth, then shows up within family members with much more regularity than would otherwise be expected and this enabled the scientists to prove where the people had originally come from.

Bones were found mostly in burial chambers beneath the Moai. It is thought that the social and economic power of a clan chief was measured by the size and number of Moai he had, so there was fierce competition between clan chiefs to build the biggest and best. Usually, each chief had between one and 15 Moai on his family's tomb, all of which were between 3m and 8m tall. More were constantly being built – in total, nearly 12,000 are thought to have been made, using rock from the Rano Rarku volcano. The largest of the Moai found by Orifici's team was 33m tall and weighed nearly 300 tonnes. Sometimes the sculptures were engraved – one has carvings of a boat – while others have large or small ears, depending on the clan that built them.

Test spot

Each section of the Reading Module has a text (or, in sections 1 and 2 of GT, texts) followed by a set of questions. There will be a variety of question types on each text – for example, multiple choice, sentence completion or a matching task.

You will need to go back to the beginning of the text each time you begin a new section of questions.

4 Questions 1–6

Do the following statements agree with the information in the article? Write

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

- Orifici organised the experts who came to Easter Island.
- Experts believe the Rapa Nui people came from South America.
- Burial chambers varied from clan to clan.
- Each of the Moai took many months to construct.
- No Moai were made after the sixteenth century.
- The Rapa Nui people were hungry because they refused to eat fish.

Question 7

Choose **TWO** letters **A–E**.

In which **TWO** centuries did a number of new people come to Easter Island?

- A** 5th **B** 7th **C** 16th **D** 17th **E** 18th

Most have a pukao – a kind of hat made of red volcanic rock.

- 50 Completed Moai were arranged to face in towards the island, and played an important part in the religion of the island. Islanders worshipped them as ancestors who had become gods.

- The building of Moai and the religion associated with it lasted until the 16th century. A number of factors led to its collapse and 55 the near collapse of the Rapa Nui people, including population growth and the destruction of the forest. But it seems that the main reason was that the religion had simply got too big for the island. More and more people were building ever larger Moai and they weren't spending enough time growing food or fishing. The 60 fish close to the shore were hunted to extinction and increasing numbers of trees were destroyed to use as rollers to transport the Moai. When there were no more trees, the land lost its fertility, people starved and there was no wood to build boats to escape. Luckily, a new, less demanding, religion grew up during the 17th 65 century, which saved the islanders and enabled limited resources to be shared out more fairly.

- Europeans arrived in the 18th century and destroyed much of what remained by introducing foreign diseases and importing a few species which destroyed the native plants and animals. It was also at this time that the key to the Rapa Nui written language was lost.

- 70 The history of Rapa Nui and its people should be a warning to us all in the 21st century – to take care of our natural resources before it is too late.

Questions 8–10

Complete the notes below.

Choose **NO MORE THAN THREE WORDS AND/OR A NUMBER** from the reading passage for each answer.

The Moai sculptures

- 8 were made from rock taken from the
- 9 could be as high as
- 10 were moved about the island on wooden

Vocabulary

Collocations related to research

- 5 Which verb in each group (1–4) doesn't collocate with the noun on the right?

- | | |
|--|--------------------|
| 1 to get, to do, to perform, to carry out | an experiment |
| 2 to make, to find, to lead to | a discovery |
| 3 to draw, to arrive at, to do, to reach | a conclusion |
| 4 to get, to make, to analyse, to evaluate | results/statistics |

Speaking Part 3

- 6 Look at this question and responses a–c below. Which response would gain more marks? Why?

Can history teach us anything or is it a waste of time?

- No, it's a waste of time.
- I consider that society could learn a great deal from the study of history because history has a habit of repeating itself.
- Well, history is very interesting. My favourite historical person is Captain Cook because he discovered many places.

With a partner, ask and answer the following questions. Remember to expand your answers.

- Do you think history is taught well?
- What could be done to make students want to study history?
- Do you think students should have more choice in which area of history they study? What would you choose?

Useful language

Suggesting and giving answers

Let me give you an example.

A case in point is ...

Let me explain why I think that.

For one thing, they could ..., and for another, ...

Personally, I think that ... / I would choose ...

Grammar Review of past tenses

- 1 Look at the three tenses below and match each with the correct explanation a–c. Then match the examples 1–4, which are taken from the reading passage in 5.1, with the right tense and explanation.

past simple PS

past continuous PC

past perfect simple PPS

- a to talk about something which is unfinished at a particular time in the past
 b to talk about something that happened before a particular time in the past
 c to talk about something which began and ended in the past

- 1 In 1989, the Chilean government *invited* Guiseppe Orifici to visit the island.
 2 Scientists once *believed* that the Rapa Nui people *had* originally *come* from South America.
 3 More and more people *were building* ever larger Moai and they *weren't spending* enough time growing food or fishing.
 4 While anthropologists *were carrying out* research on teeth ... they *found* that something known as a 'genetic bottleneck' *had occurred*.

G ... page 139

Past simple

- 2 With a partner, take it in turns to ask and answer questions based on the prompts and the answers in the box.

EXAMPLE: *When did the Space Age start?*
It started in the 1950s.

- 0 The Space Age / start
 1 The Berlin Wall / fall
 2 The Pharaohs / build the Pyramids
 3 Cavemen / do the wall paintings at Lascaux
 4 Mao Zedong / govern China
 5 The USA / become independent

around 2600 BC	in the late 1700s
from 1949 to 1976	in 1989 in the 1950s
approximately 15,000 years ago	

Past continuous and past simple

- 3 Complete the sentences with either a past simple or past continuous form of the verb in brackets.

EXAMPLE: Archimedes (have) was having a bath when he suddenly (shout) shouted. Eureka!

- 1 I (dig) a hole when I suddenly (see) the gold coin.
 2 Dr Smith (give) a lecture this morning when the fire alarm (go off)
 3 While we (look) round the gallery, we (hear) a loud noise outside.
 4 The museum director accidentally (drop) an ancient vase when he (put) it back on the shelf.

Past perfect simple

- 4 Before Europeans arrived on Easter Island, a number of things had happened. With a partner, say what those things were, based on the prompts below.

EXAMPLE: Some people / arrive there from Polynesia in the 5th century.

Some people had arrived there from Polynesia in the 5th century.

- 1 The people / build large sculptures called Moai.
 2 They / use volcanic rock to build them.
 3 They / carve pictures on some of the Moai.
 4 They / cut down the forest.
 5 They / stop fishing.
 5 Complete the passage using the verbs in brackets in either the past simple, past continuous or past perfect simple tense.

TUTANKHAMEN'S TOMB

The British archaeologist Howard Carter (1) (work) for Lord Carnarvon when he (2) (discover) the tomb of King Tutankhamen. Carnarvon was keen to be the first person to find the tomb and the treasure it (3) (contain) Before this Carter (4) (spend) many years looking for the burial place but (5) (not have) any success. However, in 1922, Carter (6) (be) very lucky. His team (7) (begin) digging on November 1, 1922. On November 4, while they (8) (dig) in the Valley of the Kings, they (9) (find) a staircase and this (10) (lead) them to a sealed door. Luckily, no one (11) (break into) the tomb before them and the contents (12) (be) still untouched.

Listening

Test spot

There are different types of diagram in the Listening Module. There may be a map, a plan, a process, a chart or a picture of an object. Study the diagram very carefully before you listen.
... TF 10

- 6 You are going to listen to a guide talking about a museum. Before you listen, talk about a museum you have visited. Where was it? What was it like? What did you like best in the museum? Can you remember where everything was?

Useful language

Directions
on your left, on your right
straight ahead
the ground/first/second floor
in the corner/middle
at the side/back
behind / in front of / opposite

- 7  Look at the floor plan of the museum below and listen to a guide talking about the museum.

Label the rooms on the map of the museum. Choose your answers from the box below and write them against numbers 1–5 on the map.

- | | |
|-----|--------------------------|
| A | African paintings |
| AA | Australian art |
| B | Bookshop |
| ER | Egyptian room |
| GS | Greek sculpture |
| L | Lift |
| NAC | Native American clothing |
| R | Restaurant |

Main entrance

Writing extra

- 8 Write a description of your first school, explaining where it was and saying where the main rooms were. Mention any changes which were made to the building or grounds. You must write at least 150 words.

Test folder 3

Sentence and note completion

(Academic Reading, General Training Reading and Listening Modules)

Notes usually focus on one part of the passage. Sentences in the Reading Modules may relate to different parts of the passage.

The questions always follow the order of information in the Listening Module, and usually do in the Reading Modules.

The sentences or notes normally use different words from the words in the passage to express the same ideas.

If you have to choose words from the passage, you will be told the maximum number of words to use for each answer.

If you have to choose words from a box, there will be more words than spaces, and they are usually different from the words in the passage. In the Reading Modules a box may contain the endings of sentences.

Words must be spelt correctly to gain marks.

Listening

1 This passage is similar to Section 4 of the Listening Module.

Complete the sentences below.

Write **NO MORE THAN THREE WORDS** for each answer.

Example: Answer:
Most people lived in homes made of mud.

- 1 The city probably functioned as the of the region.
- 2 The name 'Zimbabwe' may mean
- 3 Construction is thought to have started in the century.
- 4 The Great Enclosure was probably a home.
- 5 was probably held back by the relatively poor soil.
- 6 is no longer believed to be the reason for founding the city here.
- 7 The city was rich because it was a
- 8 A shortage of and other resources probably contributed to the city's decline.
- 9 Nobody lived in the city after approximately

Advice

Reading Modules

- Skim the whole passage, before you start working on any of the tasks and work out what it is about.
- Read the first sentence or note. Then find the relevant part of the passage, and look for something that means the same. Find the words (in the passage or box) that fit the question. Consider *all* the words in the box, or all the words in the relevant part of the passage. Think about both the *meaning* and the *grammar*.
- Remember that you must use the exact word(s) from the passage or box. Copy your answer carefully.

Listening Module

- You will be given time to read the sentences or notes before you listen. Consider what information is likely to fit each space. Think about both the *meaning* and the *grammar*.
- Listen for each answer in turn. If you miss one, go on to the next question or you may miss that too.

All modules

- Check that your answers fit both the meaning and grammar, that the spelling is correct, and that you haven't written more than the maximum number of words.

2  This passage is similar to Section 3 of the Listening Module.

Complete the notes using words or phrases from the box.

aim	books	catalogue	cross-references
daily life	district	questions	record
society	software	source documents	

Researching family history

- first find relevant **1**
- decide on **2**
- make a **3**, starting with self
- plan **4**
- try to find **5**
- study details of **6**
- choose suitable **7**
- include **8**
- join a **9**

Reading

3 This passage is similar to those in the Academic Reading Module, but it is only about 300 words long.

Why Study History?

Happiness in life could be defined as successfully acting as the chief character in a story one has written oneself. While individuals create a meaningful personal story through action, experience, behaviour and memory, so too the history of a nation (or other group) is a story that gives meaning to the members of that nation living today.

Historians try to combine an understanding of social, economic, political and cultural activity into a general story, explaining how these have affected each other to shape the general course of human events.

Historians use rational scientific methods like the study of statistics and data, but their goal is to tell stories that make sense and have a plot. Many facts are, or seem, certain. But the meaning of those facts, or even the full story of what happened, is less obvious than one might think. To understand

and explain the past, the historian must develop a theory and test it against the evidence he or she has collected. In a nutshell, the more evidence it can satisfactorily account for, the better the theory.

Much of the evidence that historians use was not available to people of the time, and much material that existed then has been lost. Relatively little new evidence comes to light, so historians largely rely on developing new methods of analysis, asking new questions, or following new story lines that show the relevance of evidence that was previously ignored.

No historical theory can be proved beyond all doubt, because there is room for interpretation in any human activity. Every time one tries to understand the past, one gains insight into the uncertainty of any knowledge: history is sometimes more like a detective story than an experiment in a laboratory.

Complete each sentence with the correct ending **A–G** from the box below.

Write the correct letter **A–G** next to each sentence.

- 1 Nations use history to understand
- 2 Historians show the interaction between
- 3 Historians try to explain
- 4 Historians often need to work out
- 5 We can never be certain about

- | |
|--|
| A alternative ways of interpreting existing material. |
| B scientific and non-scientific approaches. |
| C various influences on our lives. |
| D new sources of evidence. |
| E as much as possible of what is known. |
| F explanations of the past. |
| G the present situation. |

What is job satisfaction?

1 Average hours worked per week in UK

2 UK employees inspired by their bosses

For example: 65% of people who work 18–28 hours per week feel inspired by their boss.

- 1 Talk about charts 1 and 2 above. What do the charts tell you about working life today?
- 2 What makes a good job? Rank the following 1 to 8, with 1 being the most motivating for you, and discuss your decisions with your partner.
 - flexible working hours
 - being part of a team
 - an excellent salary
 - good holidays
 - promotion prospects
 - staff facilities, e.g. a sports centre
 - responsibility
 - an inspirational boss

- 3 You are going to hear a woman giving a lecture to a group of business students on the subject of motivation at work. In the test the recording may pause, but it won't be stopped. For this exercise, however, you should stop after each group of questions so you can look carefully at the next set of questions before you listen to the next part of the recording.

The questions are in the order in which you will hear the answers in the recording. Write **NO MORE THAN TWO WORDS AND / OR A NUMBER** for each answer.

Questions 1 and 2

Complete the diagram below.

Listening

Test spot

Section 4 of the Listening Module is always a talk or short lecture related to academic work or study. There will be a mixture of task types and you will be told which questions to read, and be given time to read them, before you hear the recording.

Questions 3–5

Complete the sentences below.

Taylor wrote his theory in the 3 century.

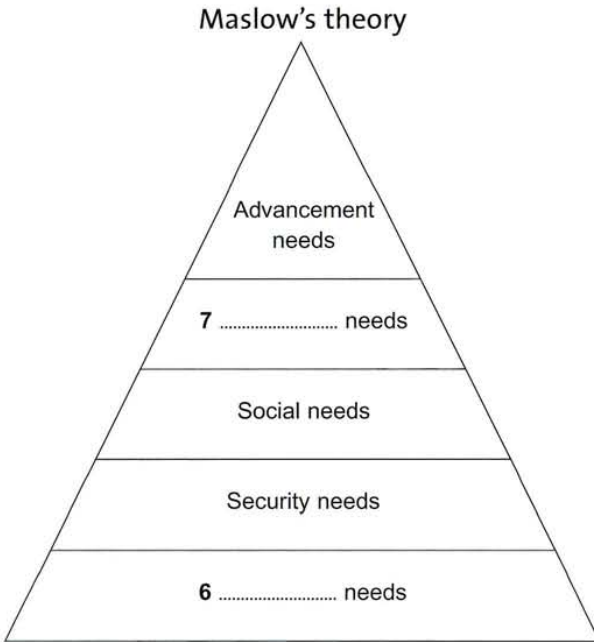

Taylor's theory was that people only worked for 4

Later research concluded that some people preferred to work 5

Questions 6 and 7

Complete the diagram below.

Look carefully at the diagram and check you understand where to write your first answer.

Questions 8 and 9

Complete the table below.

Look at the table and notice that in this section you need to listen for percentages.

Source of job satisfaction	% of employees
Inspirational leader	72%
Type of work	8
Good pay	50%
Flexible working hours	9

Question 10

Choose the correct letter, A–D.

What does the speaker say about workers in the UK?

- A They want to have a good lifestyle.
- B Socialising at work is not a priority for them.
- C They want to earn a lot of money.
- D Having a job title is a priority for them.

Vocabulary

Collocations with *money*

4 Complete the sentences with a verb from the box in the right form.

change	give	invest	leave	lend
make	pay	save	spend	waste

- 1 Don't your money on buying a cheap office desk – it won't last very long.
 - 2 My grandmother me £10,000 when she died.
 - 3 Claudia all her money on presents for the family.
 - 4 Don't your money at the airport – they don't give a very good rate.
 - 5 Every month I a certain percentage of my salary into my pension scheme.
 - 6 Can you me £20 until the weekend?
 - 7 The woman £10 to the man playing the guitar in the market square.
 - 8 If you your money in stocks and shares, you might lose it.
 - 9 Jon over £100 by buying his books second hand.
 - 10 Steve Rogers his money selling insurance.
- 5 How do you handle money? Ask and answer these questions with a partner.
- 1 Do you spend more than you have?
 - 2 What's the best way to make money?
 - 3 Would you ever buy anything second hand?
 - 4 Would you lend or borrow money?
 - 5 What do you think about investing on the stock exchange?

The Shanghai stock exchange

Grammar Past simple or present perfect?

Present perfect *There **have been** many theories which **have attempted** to explain the nature of motivation.*

Past simple *In 1943, Maslow **identified** five important needs which he **placed** in a triangle.*

1 IELTS students often confuse the past simple and the present perfect. Look at some facts about each tense. Which fact is true for the past simple (PS) and which is true for the present perfect (PP)? Write PS or PP next to each statement 1–4.

- 1 This tense is used to talk about events and situations that occurred at a specific time. The time is either stated or is clear from the context.
- 2 This tense is used to talk about events and situations that occurred in the past (and may be continuing), but we don't know when, or the time isn't important.
- 3 We use it with words like *ago, in 2001, at the weekend, on Monday, in March, in the morning*, etc.
- 4 We use it with words like *for, since, often, just, already, yet, three times*, etc.

G ... page 139

2 Read this article about the British entrepreneur Richard Branson. Circle the correct tense.

Richard Branson was born in 1950 and 1 *grew up / has grown up* in Britain. He 2 *went / has been* to public school, where, at the age of sixteen, he 3 *started / has started* a national magazine called *Student*. After 4 he *left / has left* school, he 5 *went / has been* to Oxford University but 6 *didn't graduate / hasn't graduated*. At the age of 20, he 7 *founded / has founded* Virgin Records and 8 *opened / has opened* a shop in London's Oxford Street.

Since then, the interests of Branson's Virgin Group 9 *expanded / have expanded* into publishing, transport and hotels. Virgin Atlantic Airways, which Branson 10 *started / has started* in 1984, is now the second largest British long-haul international airline. Branson 11 *founded / has founded* the airline with the idea of offering competitive and high quality first-class and economy services. In 1993, the combined sales of Virgin Group companies 12 *exceeded / has exceeded* US\$1 billion.

3 With a partner, ask and answer questions 1–8 using either *Have you ever ...?* or *Did you ...?* Use each of the verbs in the box once, in the right form. Give full answers.

have	have	learn	see
spend	take	think	want

- 1 a job?
- 2 computing when you were at school?
- 3 of being a doctor?
- 4 any time doing work experience?
- 5 to be a train driver/nurse when you were young?
- 6 an inspirational boss or teacher?
- 7 your parents' advice about jobs when you were at school?
- 8 an advisor about your career?

Branson 13 *spent / has spent* most of his life living in London and Oxfordshire, but he 14 *didn't only spend / hasn't only spent* his time working. Since 1985, he 15 *tried / has tried* to break a number of land and air speed records. His boat 16 *crossed / has crossed* the Atlantic in 1986 in a record time, and in 1991 Branson 17 *broke / has broken* all records in his balloon flight across the pacific.

What type of person do you think Richard Branson is? Would you like him as your boss? Do you think he sounds inspirational? Why, or why not?

Writing extra

- 4 In the GT Writing Module you may be asked to write a letter of application for a job. (---WF 4) You will need to use a range of vocabulary, some quite specialised, in your letter.

Complete the letter with words from the box.

Dear Sir,

I am writing to apply for the 1 of Sales Manager advertised on 3rd March in *The Times* newspaper. I have worked for the past two years as a junior 2 in an electronics company in the Marketing 3 I feel now is the right time to apply for a higher position as I believe I have gained the necessary 4

I am a 5 engineer (see the enclosed 6) and believe I have excellent management 7 My 8 at present is £25,000 a year.

I realise that the 9 date for applications was last Friday, but I hope that you will still be willing to consider my application. I am available for 10 at any time. I look forward to hearing from you in the near future.

Yours faithfully,

Jason Stephenson

Speaking Part 2

Test spot

In Part 2 of the Speaking Module you will have to give a short talk lasting 1–2 minutes. The examiner will give you a card to read and then you will have 1 minute to prepare. It is a good idea to make notes. You must talk about all the points on the card. ---TF 9

- 5 Look at this task.

Describe someone who has motivated you.

You should say:

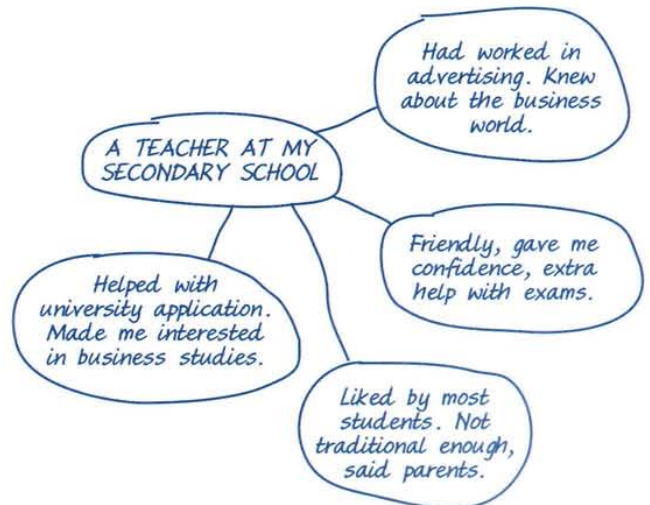

who they are

what was special about this person

what other people say about this person

and explain why this person has motivated you.

Use a mind map like the example opposite to make notes of important points and then give your talk to your partner. Time yourself – make sure you speak for a maximum of two minutes, preferably a little less.

Writing folder 3

Task 2: Understanding the question and planning your writing

In both the Academic and General Training Modules of IELTS you will be asked to write 250 words, giving your opinion on something or suggesting a solution to a problem. You should allow 40 minutes for this task.

Understanding the question

1 Look at the example Task 2 question below.

Write about the following topic:

Working hours today are too long and people are not spending as much time as they should with their families or on leisure activities.

What is your opinion on this?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Work with a partner. Which of the following ideas might be appropriate to include in your answer? Which would not be appropriate? Why?

Your answer could ...

- 1 say why you think people are spending more time at work
- 2 talk about just one type of job
- 3 explain what kind of job you want to have in the future
- 4 give examples of possible problems of someone who is always at work
- 5 talk about the effect of absent parents on the children
- 6 discuss the salaries of different jobs
- 7 say how much money you would like to make
- 8 mention a friend or a member of your family
- 9 say why a particular job would suit you
- 10 include a conclusion disagreeing very strongly with the statement.

Structuring the essay

You will gain marks if your essay is structured appropriately. This model may help you:

- an introductory paragraph followed by
- two to three paragraphs giving your reasons and examples from your own knowledge or experience followed by
- a concluding paragraph

Advice

- Make sure you read the question carefully – there are often two parts to the question and you will need to answer both parts. If you don't, you will lose marks.
- There is no correct answer, so you can agree or disagree or a mixture of both, though it is usually a good idea to put forward both sides of the argument.
- Don't repeat the question in your introduction.
- Make a plan before you start writing. Make a list of ideas that you want to include and sort them into the different sides of the argument – for and against, or advantages and disadvantages.

The introduction

- 2 The introduction to your essay is very important and often the hardest part to write. Look at the three paragraphs below. Which ones do you prefer? Why?

A

I disagree with the statement that working hours today are too long and that people are not spending as much time as they should with their families or on leisure activities. Everyone knows that people today don't work as much as they used to. It is a fact that if people don't work hard, the economy will fail and there will be no jobs for anyone. I think my family is a good example of a family who work very hard.

B

In the twentieth century people believed that life in the future would be easier and that they would have more leisure time and spend less time at work. However, now we are in the twenty-first century we can see that this is not the case. In fact, people in most countries need to work even harder today than they did in the past.

C

The first thing we need to consider is where we are talking about when we say that people are working long hours. It is important to make clear that in many countries people have always worked long hours and to work shorter hours is not an option available to them.

Useful language

First of all, I would like to say that ...
The first thing to consider when discussing X is that ...
There is no doubt that ...
One of the main arguments put forward for X is that ...
I strongly agree/disagree with the statement that ...
Although some people say that ..., I believe that ...

Giving reasons and examples from knowledge or experience

- 3 It is very important to give reasons and relevant examples from your own knowledge or experience. Read through the example below and then work with a partner and think of examples of your own which would be relevant to the essay task in exercise 1.

EXAMPLE: I think a person should not have to work more than 38 hours a week so that he or she can spend time with the family. Firstly, let's say the father, needs time to relax with his children, get to know them and see them grow. One example of a person working too much comes from my own family. My father used to work very long hours and never had the time to attend parents' evenings at school or see me play in concerts. This had a negative effect on the family unit.

Useful language

Firstly, ...
The most important point is ...
The next most important point is ...
Secondly, ...
Next, ...
One/An example/illustration of this is ...
I can illustrate this with an example from my own experience.
... such as ...

The conclusion

It's important to have a conclusion – a short paragraph which summarises your arguments. You shouldn't introduce new arguments in your conclusion. It should summarise what you have already said earlier in your essay.

Useful language

Finally, ...
To sum up, ...
In conclusion, ...

- 4 Write your answer to the task in exercise 1. Before you begin, read the question again and underline the important words. The question has two parts: what are they?

You can use one of the introductory paragraphs from exercise 2 or one of your own. Make sure you write 250 words or just over. If you write fewer than 250 words, you will lose marks.

Speaking Parts 1 and 3

1 With a partner, read this question and answer.

Question: Do you ever advertise products or companies, for example by recommending them to friends?

Answer: Yes, I sometimes do.

That answer doesn't show how good your English is. Here are some answers that have been expanded. By each of the beginnings (1–3), write the letters of the expansions (a–e) that can follow it.

- 1 Yes, I sometimes do.
 - 2 No, I don't.
 - 3 I've never thought about it.
- a **For instance**, I told my friends about my mobile phone, because I thought it was very smart.
 - b **I suppose** I do, because carrying a plastic bag with a company's name on it is a form of advertising.
 - c **The reason is** that one of my friends does it all the time, and it gets very boring.
 - d **I'm not sure** if I would want to, but perhaps it's hard to avoid.
 - e **Maybe** I'll stop doing it, because I don't want to provide free advertising for companies.

Now answer these questions, using some of the phrases in bold above to develop your answer.

- Do you ever advise people not to buy certain products?
- Does advertising affect what you buy?
- Does advertising make you want things you can't afford to buy?

Reading

- 2 Whenever you read, try to work out the main point of each paragraph. The newspaper article on page 47 is about using members of the public to pass on advertisements on their computers. Read each of the first three paragraphs in turn, and answer questions 1 and 2. There is an example to help you.

Questions 1 and 2

Choose the correct letter, **A**, **B** or **C**.

Example:

What is the first paragraph about?

- A** the type of people who make films
- B** what happens in the writer's film
- C** how films are used in marketing

The answer is **B**. The paragraph describes a sequence of events (= *what happens*), and the last sentence, "*Cut!*" *shouts the director*, suggests that it's about a particular film, not films in general.

- 1 What is the second paragraph about?
 - A** deciding what a film should be about
 - B** choosing where to shoot a film
 - C** the reason for making a film
- 2 What is the third paragraph about?
 - A** how viral marketing started
 - B** the writer's concerns about viral marketing
 - C** a company that advises on viral marketing

Test spot

Choosing the best headings from a list, as in questions 3–6, is one of the task types in the Reading Modules. Read each paragraph, consider all the headings in the box, and choose the one that fits the meaning of the paragraph best. Each paragraph should have a different heading. You won't use all the headings in the list. → TF 4

Questions 3–6

For each of the last four paragraphs, choose the best heading from this list, and write its letter beside the paragraph.

- A Some products benefit more than others from viral marketing
- B It matters who sent it
- C Getting the balance right
- D The writer changes his mind about viral marketing
- E How viral marketing has changed
- F The response to the writer's viral

🕒 about 450 words

>> How I made my first viral

I'm sitting at a desk signing copies of my book. Suddenly, a man hits me on the head with a frying pan as hard as he can. I try to hide under the desk, but he's too quick and keeps hitting me. "Cut!" shouts the director.

5 The scene took place in a London bookshop. A company called the Viral Factory was making a 20-second film to promote my recently published book. The film was to be sent by email to people who know plenty of other people. The hope was that they'd send it on to all their friends, and I'd become famous.

Viral marketing – promoting a product on the web – probably dates back to 1996, when it was used to advertise a free email service. Every time a customer used the service, the company's website address was automatically included at the end. The company, Hotmail, signed up an amazing 12 million subscribers in only 18 months.

3 Today, viral marketing is a lot more sophisticated. It's not enough to simply put a website address at the foot of an email. These days, only an instantly memorable short film will "go viral" – something attention-grabbing enough to make people want to pass it on immediately, something that gives the impression of having been caught on camera quite by chance.

4 Viral marketing has two great advantages over most other advertising. It's extremely cheap, and it has enormous impact. With a television ad, there's no guarantee that viewers will actually watch it. But if a viral arrives in your email inbox from a friend, you'll be curious and click on it. The message is then delivered straight into your brain.

5 Of course, if the clip is too obviously designed to advertise a particular product, people won't pass it on. No one wants to feel they are being used by a business. On the other hand, nobody will buy the product if they don't know what it is. So the product name and a website address are normally put at the end of the clip. That's what I did in my viral. I didn't want it to be too obvious that the whole incident was a marketing exercise.

6 So did it work? It's difficult to measure the success of a viral marketing campaign. In the few days after I launched my viral, traffic to my website increased dramatically, from a handful of visitors a day to several hundred. Certainly, to judge by the number of people who asked if I was all right, it was a great success. The answer, incidentally, was no. Even though the frying pan was made of rubber, it still really hurt.

from an article by Toby Young

Vocabulary Word formation

3 Complete the spaces in this table with words that are related to the ones given, which come from the article above. Use an English–English dictionary to help you, and mark the stressed syllable in each word. In most cases, more than one noun is possible.

verbs	nouns	adjectives
		'viral
pro'mote		
'advertise		
		'memorable
	a'ttention	
		'curious
	suc'cess	

4 Complete each sentence with the most suitable adjective from the table in exercise 3.

- 1 People are usually to see film clips they have received from a friend.
 - 2 The key to viral marketing is personal contact.
 - 3 videos are ones designed to show a company's products to potential customers.
 - 4 TV commercials are still talked about years later, even if they have had little effect on sales.
 - 5 Although great care is taken when making commercials, viewers may still find mistakes in them.
- 5 Would you read virals sent to your computer? Would you send them to your friends? Do you think companies should be allowed to send virals?

1 In small groups, discuss what these quotes mean and say what you think about them. Remember to expand what you say.

Telling lies does not work in advertising.

If the advertising budget is big enough, you can make people believe anything.

In our factory, we make lipstick. In our advertising, we sell hope.

Listening

2 You are going to hear a radio interview with Gary Phillips, the head of an advertising agency. Listen to the first part of the interview.

Questions 1–6

Complete the sentences below.

Write **NO MORE THAN ONE WORD** for each answer.

- Early advertising provided only
- In the late nineteenth century, manufacturers advertised because they needed to increase the for their goods.
- Companies were able to make a large by selling luxury goods.
- Increased meant that companies risked going out of business if they didn't advertise.
- Persuasive advertising tries to involve people's
- Persuasive advertising stresses the of buying particular products.

In the second part of the interview, Gary uses each of the products below (7–11) as an example of a different advertising technique. First make sure you understand the words in the box, using an English–English dictionary if necessary.

Questions 7–11

Which technique does each product exemplify?

Choose your answers from the box.

- Example: children's clothing Answer: *H*
- running shoes
 - furniture
 - washing powder
 - snacks
 - engine oil

- A wide product range
- B humour
- C a claim that is suggested and not expressed
- D a name that young children can remember
- E celebrity endorsement
- F repetition
- G greater value for money
- H creating a brand

Pronunciation Sentence stress

3 Read this sentence from the recording aloud, stressing *only* the words that are underlined.

My guest this evening is advertising expert Gary Phillips, who's going to tell us how advertising works.

It's difficult to read the sentence in that way, and hard to understand, because the wrong words are stressed.

Now listen to the sentence with the stress on the right words and repeat it.

4 In this extract from the recording, underline the words that should be stressed.

Interviewer: Welcome to the programme.

Gary: Thank you.

Interviewer: How did it all start?

Gary: When everyone lived in small communities, and knew the local farmer who grew and sold vegetables, advertising was unnecessary. But in a larger community it's a different situation.

Now listen and check.

5 Put each of these word classes in the right column in the table below.

- adjectives
- adverbs
- auxiliary verbs
- conjunctions
- nouns
- main verbs
- prepositions

content words (usually stressed)	grammatical words (rarely stressed)

6 Words aren't given equal stress in sentences. Why do you think the words in boxes are given extra stress?

- 1 When everyone lived in small communities, advertising wasn't necessary. But in a **larger** community, it's a different situation.
- 2 For centuries adverts simply gave information. The big change occurred in the late nineteenth century. This was really the beginning of advertising designed to **persuade** people to buy.

Why do you think the words in *italics* below would not be given much stress?

- 3 My guest today is advertising expert Gary Phillips. Gary, have we always had *advertising*?
- 4 At the same time, in some countries there were plenty of people with money to spend on luxuries and other *inessential goods*.

Now read sentences 1–4 aloud, making sure you stress the right words.

 Listen and check.

Grammar Relative clauses

7 Look at these two sentences which you heard in the recording. The relative clauses are underlined. Which relative clause is defining (gives essential information), and which is non-defining (gives extra information)?

- 1 My guest this evening is advertising expert Gary Phillips, who's going to tell us how advertising works.
- 2 Imagine a company which makes children's clothing.

8 In each of the sentences below, underline the relative clause, write *defining* or *non-defining*, and draw a **box** round the relative pronoun.

EXAMPLES: We learn by imitating people **who** are important to us. *defining*

My guest this evening is advertising expert Gary Phillips, who's going to tell us how advertising works. *non-defining*

- 1 A great deal of advertising is about the benefits that we hope to gain.
- 2 Ordinary people who appear in advertisements are usually intended to make the viewer or reader identify with them.
- 3 Jewellery and perfume, which are luxury goods, are usually very profitable for the manufacturer.
- 4 Consumers that see the same advertisements many times are likely to remember the name of the product.

Now complete this table with the correct relative pronouns.

	defining	non-defining
people or
things or

Which type of relative clause needs commas round it (or a comma and a full stop)?

G page 139

9 In groups of three, match pictures 1–6 with a type of advertising (a–f).

- | | |
|----------------|--------------------------|
| a small ads | d a banner |
| b a commercial | e a pop-up |
| c a flyer | f a poster on a hoarding |

Now take turns to define one of the types of advertising, using relative clauses. The other people in your group should guess which type is being defined.

EXAMPLE: *This is an advertisement which is normally a single piece of paper, and which is given to people or put in places where people will see it. (Answer: a flyer)*

Test folder 4

Headings

(Academic Reading and General Training Reading Modules only)

You may be asked to choose suitable headings for some paragraphs or sections of the passage, which will be labelled alphabetically.

The headings are given Roman numerals, where i = 1, v = 5 and x = 10. The numbers one to twelve are: **i, ii, iii, iv, v, vi, vii, viii, ix, x, xi, xii**. Although you don't need to know this number system, you must copy the numbers correctly.

When this task is used, it is always the first one on a particular passage, and the headings are given before the passage.

Advice

- Skim the passage quickly to get a general idea of its meaning.
- Re-read the first labelled paragraph or section, and decide what it's about. Read all the headings, and write beside the paragraph all those that might be suitable. Make sure they fit the meaning of the whole paragraph, and don't simply use some of the same words.
- Do the same with the other paragraphs, in each case reading *all* the headings.
- Where you have chosen more than one heading, decide which one fits best. Remember that every paragraph or section will have a different heading and there will always be more headings than paragraphs. If you are given an example, make sure you don't use that heading for other questions.

- 1 This passage is similar to those in Section 3 of the General Training Reading Module, though shorter, about 600 words.

The article below has nine paragraphs, **A–I**.

Choose the correct heading for each paragraph from the list of headings on the opposite page.

Write the correct number *i–xii* next to each question 1–8.

Example: Paragraph **A****X**.....

- 1 Paragraph **B**
- 2 Paragraph **C**
- 3 Paragraph **D**
- 4 Paragraph **E**
- 5 Paragraph **F**
- 6 Paragraph **G**
- 7 Paragraph **H**
- 8 Paragraph **I**

- A** Do we really want non-stop TV advertising without the boring programmes in between? Well, that's what more and more retailers are giving us, in the shape of in-store TV. Go into a supermarket or department store, and the chances are there will be plasma screens beaming the company's own TV channel at you.
- B** In between news clips, recipe tips and beauty advice, the screens show advertisements for products in the aisles. The news and other editorial sections of the broadcast play an important role in preventing shoppers from feeling they are the constant target of ads. 'Advertorial' pieces can be very effective: these are ads presented in the style of an editorial or journalistic report, and have been known to cause sales to treble or even quadruple.
- C** In the early years of in-store TV, too often screens were dotted randomly around stores, playing continuous adverts that were not tailored to the shopping environment. In terms of customer experience, it sometimes left a lot to be desired. This has been changing, though, as advertisers get more sophisticated at using in-store TV.
- D** In-store ads have to be particularly attention-grabbing because people are there to shop, not watch TV. Unless an ad is outstanding, no-one watches it for more than a few seconds. Advertisers have realised that this requires a different approach from standard television, and often customise ads just for in-store TV. One ad for

List of Headings

- i Satisfied shoppers
- ii How the technology has improved
- iii Building on past experience
- iv Why not everyone is happy
- v The advantages for advertisers compared with TV
- vi The products that it suits best
- vii Not just advertising
- viii Information required
- ix Giving shoppers input
- x A growing trend
- xi Making customers notice the ads
- xii Ads designed for different departments

deodorant body spray certainly attracted attention. It was actually set in a store: a male shopper sprays on some of the product, making himself so attractive that women in the store run after him.

- E** Ads that communicate facts about a product or an offer appear to work better than the more emotional, slice-of-life advertising that dominates regular television. Shoppers are in the store to make purchases, and they want the ad to tell them specifically about a brand and what it is going to do for them.
- F** It is important to make sure customers are not bombarded with messages when they don't want to be, by ensuring that content is tightly tailored to particular store areas. Several TV channels need to be broadcast simultaneously: in the central aisle – which typically has five or six large plasma screens – the café, and so on. That allows advertisers to buy ad time in particular sections of the store: health and beauty, electronics or food, for instance, and reach customers just when they're deciding which brand of toothpaste or which DVD player to buy.
- G** A minority of customers feel that, rather than wasting money on in-store TV, the retailer should lower prices, or at least invest in more useful services. The biggest turn-off, though, for both customers and staff on the shop floor, is noise. However, if sound is not broadcast from all the channels, the noise levels should not cause unnecessary irritation. And directional sound can be used, which again curbs noise levels.
- H** As cable and satellite channels multiply, it has become more difficult for manufacturers and others to reach a mass audience on regular television. Through in-store TV they can reach the large numbers of people who still shop at the supermarket and big chain stores. The big plus is that the medium has been very successful at increasing sales.
- I** The biggest lesson is that in-store TV needs to communicate in an unobtrusive way. Analysing changes in shopping patterns at different times of day can help the retailer to show ads that are relevant to particular customer groups. As a result, the majority of customers feel that in-store TV improves their overall shopping experience. So the objectors are probably going to have to restrict their purchasing to the small shops that in-store TV hasn't yet penetrated.

- 2 This paragraph is from a more difficult passage that might be used in the Academic Reading Module. Consider each heading carefully, because they all have some connection with the paragraph, but only one fits it accurately.

Choose the correct heading from the list below.

List of Headings

- i Customers' rising expectations of what sellers should provide
- ii Selling cars is different from selling certain other goods
- iii What customers should do to find the best products
- iv Manufacturers are improving their products to meet customers' demands
- v Customers and manufacturers need each other
- vi How sellers can manage their relationship with customers to benefit themselves
- vii Being dependent on customers puts a seller in a weak position

Maintaining a positive relationship with buyers is an important goal for a seller, regardless of whether the seller is marketing cereal, financial services, or an electric generating plant.

Through buyer-seller interaction, the buyer develops expectations about the seller's future behaviour. To fulfil these expectations, the seller must deliver on promises made. Over time, a healthy buyer-seller relationship results in interdependencies between the two parties. The buyer depends on the seller to furnish information, parts, and service; to be available; and to provide satisfying products in the future. For example, car buyers depend on car makers to provide quality vehicles, as well as service, guarantees, information about various car models, fair prices, and convenient dealer locations. The seller depends on the buyer to continue purchasing from the seller. A car maker depends on buyers to purchase its cars to supply it with the funds needed to meet its organisational objectives.

- 1 Do you think people should spend their free time actively (for example, dancing or painting) or passively (for example, watching a film or listening to music)? Why? How do you spend your free time?

Reading

- 2 Read the extract from the programme of events at an arts centre.

Complete the table below.

Write **NO MORE THAN TWO WORDS** from the reading passage for each answer.

🕒 about 350 words

Test spot

First read the headings of the columns. Think about what word class would fit the heading and notes (if there are any). All the answers are words from the passage, but they may not be in the same order as in the questions. Make sure you write no more than the maximum number of words and copy them exactly as they are written in the passage. This type of task is similar to note completion. ... TF 3

name	type of event	main theme	notes
Jake Duff	EXAMPLE: 0 <i>..comedy..</i>	1	has been called 2
Nick Robertson	3	supernovas	a 4 will be on sale
'Kate and Joe'	5	6	opportunity to talk to the 7
Sharon Williams	8	seeing 9	subjects are often reflected in 10

This week at the Prospect Arts Centre

Monday and Tuesday at 7.30: Jake Duff

- If you want to see a Shakespearean tragedy, you're bound to be disappointed, but if it's comedy you want, look no further. Jake's hilarious look at rural life will make you laugh till you cry. Recently picked by Ten-Street Magazine as best newcomer, Jake says he'd love to be named their 'Top Satirist'. To judge by his present form, he's sure to achieve this ambition very soon.

Wednesday at 7.30: Nick Robertson

- Nick is a very popular regular at the Prospect, and if you attended last year's talk you'll remember his astonishing slides and clear explanation of how the solar system functions. This year Nick is turning his attention to supernovas, and promises to be an equally fascinating evening. His latest booklet, 'What is a galaxy?', will be available after the talk, and if you'd like to buy a copy, Nick will be happy to sign it for you.

Grammar Talking about the future

3 Match each sentence (1–8) with the right meaning (a–e).

- 1 The Arts Centre is holding a sculpture exhibition soon.
- 2 The play begins at 7.30 p.m.
- 3 The actors are going to meet the audience after the performance.
- 4 The Arts Centre's falling income means it is going to make a loss this year.
- 5 Children will love the comedy show taking place next Saturday morning.
- 6 Because there's a special offer, I think I'll go to both this week's shows.
- 7 I expect Nick will give another talk next year.
- 8 Jake Duff's show is going to be a sell-out, judging by ticket sales so far.

- a a prediction
- b a decision made at this moment
- c something already arranged or decided
- d a future result of a present situation
- e a timetable

Beside each meaning a–e above, write the tenses that can be used for it. You will need to use two of them twice, and one of the meanings has two answers.

Tenses: *will be going to* present simple
present continuous

Thursday to Saturday at 8.00: 'Kate and Joe'

The latest by Canadian playwright Geraldine Scott, 'Kate and Joe' is a moving exploration of growing up. Set in the industrial town where Scott lives, the play will have three performances here at the Prospect, before its extended run in Toronto. On Thursday the actors will be happy to stay and answer questions after the performance. This event is likely to prove very popular, so please book as soon as possible.

All this week: Sharon Williams

Sharon is well known for her fresh insight. In this new photographic exhibition, she moves away from her usual theme of people's emotional states. Through her use of polished metal, we see multiple reflections of everyday objects, apparently floating in air and transformed into abstract shapes. When this exhibition ends, Sharon is starting work on a major commission for the city council.

4 Look at sentences 1–10, in which the writer says how likely a future event is. Decide whether each sentence is closest in meaning to a, b or c.

- a I think it's likely to happen.
 - b I'm not sure if it will happen.
 - c I think it's unlikely to happen.
- 1 If you want to see a Shakespearean tragedy, you're bound to be disappointed.
 - 2 There are so many comedians these days that there's little chance of winning any of the top awards.
 - 3 This year Nick is turning his attention to supernovas, and it promises to be a fascinating evening.
 - 4 I'm convinced I'll enjoy watching live comedy.
 - 5 Having a wide range of events at the Arts Centre may attract more people.
 - 6 I doubt whether many people would want to go on stage with Jake.
 - 7 There's a chance that the Arts Centre will have to close if it can't increase its ticket sales.
 - 8 There'll probably be a queue to get in to Jake's performance.
 - 9 I have no doubt that Sharon Williams's photographs will leave a lasting impression.
 - 10 Maybe holding an exhibition by local artists will attract people.

G ... page 140

Speaking Part 1

5 With a partner, predict what each of these events will be like.

EXAMPLE: You've been invited to listen to an orchestra of very young children.
I doubt whether I'll enjoy it. On the other hand, there's a chance that they'll be better than I expect.

- 1 You've been invited to a performance by your favourite singer or actor.
- 2 You've been asked to sing in front of a large audience.
- 3 You've been invited to a film that you have already seen and don't like.
- 4 You've been asked to take part in a sport that you've never played before.

Use these phrases to start your sentences.

I doubt whether ...	I'm sure ...
I may ...	There's a chance ...
Maybe ...	I'm convinced ...

- 1 Here are five types of experience that people gain from hobbies and other leisure activities. Can you think of another activity which might provide each experience?

relaxation – *walking*
 excitement – *paragliding*
 communion with nature – *scuba diving*
 companionship – *playing football*
 creative expression – *writing short stories*

Listening

- 2 You are going to listen to a talk which is similar to Part 4 of the Listening Module. This one is about the study of leisure.

Test spot

Before listening, read the instructions carefully. Check how many answers you should write and the maximum number of words for each answer. Try and write your answers in the same order that you hear them, but it doesn't matter if you change the order. You should write the words exactly as you hear them. This is similar to note completion. TF 3

Questions 1–9

Example:

List **TWO** leisure activities that are described as likely to provide relaxation.

Write **NO MORE THAN TWO WORDS** for each answer.

Listen to the first part of the talk. When the speaker mentions *the opportunity for relaxation* you know this is the relevant part of the recording. The answers are:

..... *yoga*
 *stamp collecting*

Then keep listening and answer the following questions.

List **THREE** leisure activities that are described as providing 'flow'.

- 1
 2
 3

List **TWO** leisure activities that are described as providing companionship.

- 4
 5

List **TWO** leisure activities that are described as providing communion with nature.

- 6
 7

List **TWO** leisure activities that are described as providing creative expression.

- 8
 9

Listen to the rest of the talk, and answer short-answer questions 10–14. This task type is used in the Listening and in both Reading Modules.

Questions 10–14

Test spot

Read the questions and think about possible answers. Listen for a paraphrase of the question. Write down the words exactly as you hear them. Check that your answers are spelt correctly and make sense in relation to the question.

Answer the questions below.

Write **NO MORE THAN THREE WORDS** for each answer.

Example:

- 0 What is central to people's experience of leisure activities?

Answer: control

The question paraphrases *an essential aspect of leisure* in the talk.

- 10 What should organisers of activities aim to provide?
.....
- 11 What do many participants want to do after an activity?
.....
- 12 What name is given to shopping as a leisure activity?
.....
- 13 What new attraction is now offered by shopping centres?
.....
- 14 What do leisure activities help us to enjoy?
.....

Pronunciation *Vowel length*

3 If you look at how dictionaries show the pronunciation of words, you'll see that both short vowels (e.g. the /ʊ/ in *full*) and long vowels (e.g. the /ɑ:/ in *far*) are represented by one symbol. The symbols for short vowels are /æ/, /e/, /ɪ/, /ɒ/, /ʌ/, /ʊ/, /ɔ/. Most dictionaries add : to show long vowels: /ɑ:/, /ɜ:/, /i:/, /ɔ:/, /u:/. Both short and long vowels may be spelt with one or two letters.

Diphthongs (e.g. the /aʊ/ in *about*) begin as one sound and end as another (*di-* means 'two'), and are represented with two symbols. The spelling often (but not always) has two letters.

You heard these words on the recording. Write them in the correct column.

full far about instead goal
time more there music bird
skills year study people hobby

short vowels /æ/, /e/, /ɪ/, /ɒ/, /ʌ/, /ʊ/, /ɔ/	long vowels /ɑ:/, /ɜ:/, /i:/, /ɔ:/, /u:/	diphthongs /aʊ/, /eə/, /ɪə/, /əʊ/, /aɪ/, /eɪ/, /ɔɪ/
<i>full</i>	<i>far</i>	<i>about</i>

Look up the words in an English–English dictionary, such as the *Cambridge Advanced Learner's Dictionary*. Beside the words in the chart, write the pronunciation symbol for each underlined vowel.

 Listen and repeat. Then, with a partner, read the words aloud, taking care with the pronunciation.

Speaking Part 3

4 In groups of three, choose a leisure activity, and write at least four questions about it. Here are a couple of examples to get you started.

Watching television

- 1 What are the most popular sorts of programmes?
- 2 Do you think the time that children spend watching television should be limited? Why, or why not?
- 3
- 4

Playing computer games

- 1 What are the benefits of playing computer games?
- 2 What do you think about the amount of time some people spend on computer games?
- 3
- 4

Collecting autographs of famous people

- 1 Why do some people collect autographs?
- 2 How easy is it to collect autographs?
- 3
- 4

Reading

- 1
- 2
- 3
- 4

Each of you should choose a leisure activity, and ask someone else in the class the questions.

Writing folder 4

General Training Writing Task 1: Writing a letter

In Task 1 of the General Training Writing Module you will have to write a letter. You will have 20 minutes to complete this task and you will need to write 150 words.

The letter will be about a particular situation/problem and you will have three points to write about.

Advice

- Remember you do not get extra marks for writing more than 150 words, but you will lose marks if you write less or many more.
- The instructions will ask you to write about three points. You must not leave out any of the points or add irrelevant material or you will lose marks.
- Your letter must be paragraphed – for example, a paragraph on each point and a concluding paragraph with a suitable ending.
- You do not need to include any postal addresses.

1 First of all, read the question below carefully. Who is the letter to?

You are studying in a large town where there are no leisure facilities for young people.

Write a letter to the local council. In your letter

- *describe the problem*
- *make some suggestions for leisure facilities*
- *say why you think that these facilities will make the town a better place.*

2 Which of the following opening and closing phrases should you use in this letter? Why? When do you use the other two?

- A Dear Peter B Dear Mr Johnson C Dear Sir/Madam
Best wishes Yours sincerely Yours faithfully

3 Compare these two opening paragraphs and say which one is more appropriate for the letter above. Give your reasons.

A

I am a nineteen-year-old student and I live in Hollworth. I am writing to explain the problems that young people who live in this town have. At present, there are very few things for young people to do and I believe you could help to improve the situation.

B

I want you to do something about the terrible problem we have here in Hollworth. There is nothing for young people to do in the evenings or at weekends. This is because you don't care about young people.

4 Read this answer to point 2 of the task above and say why it wouldn't get high marks.

I think it would be a good idea to have a swimming pool. Swimming is very good exercise and would benefit many people in the town, not just young people. I am sure you could easily raise the money when people find out what a good cause it is. There is a piece of land behind the cinema which would make a great place to have a swimming pool. It is very central and there is room for a car park as well. I am a very good swimmer and I won quite a few prizes when I was at school.

5 Read this conclusion to the letter above. Why is it unacceptable?

So, now you have my reasons and ideas. I hope you get back to me quickly and agree with my ideas. Drop me a line as soon as you can.

Useful language

Purpose of letter

I am writing to ...	
suggest that ...	apologise for ...
complain about ...	ask for your help with ...
explain ...	apply for ...
invite you to ...	give advice about ...
thank you for ...	say how sorry I am about/that ...

Polite requests

I would appreciate it if you would/could ...
I would be grateful if you would/could ...

Saying 'No' politely

I'm afraid that ... I'm sorry that ...

Ending

I look forward to hearing from you soon.
I hope to hear from you in the near future.

- 6 It is important that you use appropriate language. Look at these sentences from job applications, some of them written by IELTS candidates. Why would they be inappropriate in a formal letter? What would be a better way of expressing them?

EXAMPLE: I hope to hear a humble response from you soon.

Inappropriate – *humble* is not used in this way. It would be better to say:

I hope to hear from you soon or *I look forward to hearing from you in the near future.*

- 1 I want a job in your cinema as soon as possible.
 - 2 Please, please, spare a thought to consider my application.
 - 3 I found your Excellency's job advertisement in the paper last week.
 - 4 I want you to answer this letter immediately.
 - 5 I can't attend the interview next week as I am busy.
 - 6 You forgot to send me an application form.
 - 7 It is with regret that I must inform you that there are a number of deficiencies with your answer to my question.
 - 8 Hope you like my CV.
 - 9 Email me about my application any time.
 - 10 May I take this opportunity to enlighten you about my many qualifications?
- 7 Read the question below and the letter in response

to it, which is based on an answer produced by an IELTS candidate. Rewrite the answer, making sure that:

- 1 you have used the appropriate opening and closing phrases
- 2 you have answered all the points
- 3 everything you say is relevant – you may need to add or delete the information given
- 4 you have written in paragraphs
- 5 you have written the correct number of words
- 6 you have used appropriate language
- 7 your grammar is correct
- 8 your spelling is correct.

You are looking for a part-time job in a sports centre. Write a letter to the manager of the sports centre.

In your letter

- **introduce yourself**
- **explain what experience and special skills you have**
- **tell him/her when you think you could start.**

Dear Manager,

I am a twenty-year-old student and I am studying physical education at Pulteney College. I study there since two years. I need job, especially part-time job. This is because I need money for my accomodation which expensiv in this area. I share a house with three other students who are also studing physical education. I think I am suited to working in your sports centre becose I like sport, especially the running, the judo, the tennis and the basketball. I win the college award for Best Student in my first year. I have two more years before I am a qualified sports teacher. I can give you references from my teachers if you want. I can start whenever you want. I would prefer work at evenings and on weekends as I have classes on the daytime.

Write back soon.

Units 5–8 Revision

Topic review

- 1 Read these sentences and say which are true for you, giving more details. Try to expand your answers.
- 1 I have never taken any notice of adverts.
 - 2 I think history and archaeology are fascinating.
 - 3 In the future, people will spend more time on leisure activities.
 - 4 You need to work hard to make money.
 - 5 Qualifications are more important than experience when it comes to work.
 - 6 I am more likely to watch TV than go to the theatre.
 - 7 History as a subject is bound to disappear from the school timetable in the future.
 - 8 A good salary is more important to me than long holidays.
 - 9 I am going to spend next summer working.
 - 10 I am the person who works the hardest in my family.

Grammar

Past simple / present perfect

- 2 Read the text below and circle the correct form of the verb.

Social trends in Australia

Between 1982 and 1994, the average hours worked by full-time workers **0** *(increased) / have increased* from 42 to 45 hours a week. This trend **1** *levelled off / has levelled off* during the late 1990s, and since 2000 the average number of hours worked by full-time workers **2** *dropped back / has dropped back* to around 44 hours a week.

Since 1982, the distribution of full-time hours **3** *changed / has changed* considerably. Between 1982 and 2002, the proportion of full-time workers working a 40-hour week **4** *declined / has declined* from 39% to 24%. The greatest increase in that

period **5** *was / has been* in the proportion of full-time workers working 50 to 59 hours per week (from 10% to 16%). This trend towards longer working hours **6** *was / has been* relatively uncommon among other OECD countries at that time, most of which either **7** *experienced / have experienced* little change, or **8** *continued / have continued* the longer-term trend in reducing full-time working hours.

Relative clauses

- 3 Complete the sentences. Choose the most suitable ending from the box and make it into a relative clause using *who*, *which* or *that*.

EXAMPLE: *I work on Madison Avenue, **which** is the centre of the advertising industry in New York.*

- 0 I work on Madison Avenue
 1 My colleague is always late for work
 2 The archaeologists have found the tomb of the king
 3 We went to see the film
 4 I am writing a book review
 5 Archaeologists are people
 6 I don't like advertisements
 7 What was the name of the company

it won an Oscar this year.
 it makes my boss really angry.
 it is the centre of the advertising industry in New York.
 it might upset the author.
 it gave all its workers a bonus last year.
 he ruled the country in 4500 BC.
 they often have to work in difficult conditions.
 they don't tell the truth.

- 4 Add commas to sentences containing a non-defining relative clause. Sentences with defining relative clauses do not need commas.

EXAMPLE: Richard Branson who is a very successful businessman was invited to speak at the conference.
Richard Branson, who is a very successful businessman, was invited to speak at the conference.

- 1 My wife who lives in New York works in advertising.
 2 The Dorchester Hotel which is near Hyde Park is very comfortable.
 3 I know a lot of people who are archaeologists.
 4 The boy who played the part of Peter in the play goes to my college.
 5 The people who built the Pyramids must have worked long and hard.
 6 My manager who is very strict about punctuality has been with the company for years.

Vocabulary

- 5 The twenty words below have all appeared in Units 5–8. Decide what they are with the help of the information given. Then use some of the words to complete sentences a–e.

- three words to do with history:

1 s _ t _
 2 r e _ _ a _ _ h
 3 t _ _ b

- four words to do with work:

4 s a _ _ r y
 5 p _ _ m _ t _ _ n
 6 _ _ t i v _ _ _ _ n
 7 m _ _ _ g _ _

- five verbs to do with money

8 e _ _ n
 9 _ _ e n _
 10 w _ s _ _

11 s _ _ e
 12 _ _ y

- six nouns to do with leisure

13 p _ a _
 14 _ x _ _ b _ t _ _ _
 15 d _ _ c _ _ g
 16 p _ _ f _ _ m _ _ c _
 17 r _ l _ x a _ _ _ _
 18 a _ t _ v _ _ _

- a I hope I can work my way up from tea boy to of the whole department.
 b You should never ask someone how much money they from their job.
 c We saw an excellent of *Macbeth* last night.
 d Paola has spent the last four years doing into students' leisure habits.
 e I went to a photography last night.

- 6 Complete each sentence with a verb from the box in the correct form. Use each verb once only.

analyse carry out do lead reach
 support

- 1 A historian is a person who research into the past.
 2 The company the conclusion that their advertising campaign wasn't working.
 3 At the meeting, the Chairman the latest sales figures.
 4 I'm afraid the statistics don't your theory about outsourcing.
 5 The staff in the lab are at present an experiment which may to an exciting discovery.

- 1 How much do you know about global warming? Do this quiz with a partner.

1 What has been the average global temperature change over the last 100 years?

A +0.6 °C B +1 °C C +3 °C

2 By how much has the sea level risen in the last 100 years?

A 0-5 cm B 5-10 cm C 10-20 cm

3 Which of the following is NOT an effect of global warming?

A a growth in population
B increased risk of flooding
C a change to animal habitats

4 When will we be experiencing the effects of global warming?

A not for another 50 to 100 years
B we may be experiencing them already
C never

Reading

- 2 Read through the article opposite quickly to find out which of the following people does NOT think global warming is a big problem.

Jonathan Overpeck Jay Malcolm
Ronald Stouffer Marianne Douglas

- 3 Look at headings 1-5 below. Which is the best heading for each paragraph A-E?

- 1 The effect of global warming on plant and animal life
- 2 Uncertainty among experts about the effects of global warming
- 3 Global warming: the position now and predictions for the future
- 4 The countries affected by a rise in sea level due to global warming
- 5 The debate about the causes of global warming

Test spot

There are two types of summary task in the Reading Modules. In one you need to find the answers in the text (and your answers must be actual words from the text). In the other you are given a box of answers to choose from. The summary may be on the whole text or just a section of it, and the answers may or may not be in text order but usually are.

Read the summary through first before trying to complete it. Don't try to complete the summary without reading the relevant parts of the text again carefully. Think carefully about the type of word that is missing – noun, verb, adjective, etc. ... TF 5

- 4 As you complete this summary, remember that your answers must be words taken from the article.

Complete the summary below.

Choose **NO MORE THAN THREE WORDS AND/OR A NUMBER** from the passage for each answer.

The 1 temperature of the Earth has risen over the last hundred years. One effect is a reduction in the 2 in tropical oceans. An increase in carbon dioxide reduces the amount of 3 escaping from the atmosphere. As a result, animals are moving to different 4

In the USA, research has been undertaken into the effect on sea levels if an 5 melted. This would destroy many heavily 6 places, especially in the worst-case scenario of a rise of 7 metres. The conclusion reached is that there is a need for people to reduce their use of 8 and change to different 9

A disaster in the making

A

Most scientists agree that global warming presents the greatest threat to the environment. There is little doubt that the Earth is getting warmer. In the last century the average temperature rose about 0.6 degrees C around the world. From the melting of the ice cap on Mt Kilimanjaro, Africa's tallest peak, to the loss of coral reefs as oceans become warmer, the effects of global warming are often clear. Many experts warn that global warming will cause sea levels to rise dramatically. In the past 100 years the oceans have risen 10 to 20 cms – but that's nothing compared to what would happen if, for example, Greenland's massive ice sheet were to melt. 'The consequences would be catastrophic,' says Jonathan Overpeck, Director of the Institute for the Study of Planet Earth at the University of Arizona. 'Even with a small sea level rise, we're going to destroy a number of nations and cultures that have existed for thousands of years.' Overpeck and his colleagues have used computer models to create a series of maps that show the places most at risk of flooding.

B

Just as the evidence is clear that temperatures have risen in the last century, it's also well established that carbon dioxide in the Earth's atmosphere has increased about 30 percent, allowing the atmosphere to trap too much heat. However, the exact link, if any, between the increase in carbon dioxide emissions and the higher temperatures is still being disputed. Most scientists believe that humans, by burning fossil fuels such as coal and petroleum, are largely to blame for the increase in carbon dioxide. But some scientists also point to natural causes, such as volcanic activity. 'Many uncertainties surround global warming,' says Ronald Stouffer at the US National Oceanic and Atmospheric Administration's Geophysical Fluid Dynamics Laboratory. 'How much of it would still occur if humans were not changing the climate in any way?'

C

The current rate of warming is faster than ever before, however, which suggests it probably is not a natural occurrence. And a large number of scientists believe the rise in temperatures will, in fact, speed up. The UN Group on Climate Change reported in 2001 that the average temperature is likely to increase by between 1.4 and 5.8 degrees C by the year 2100. The climate change is likely to impact on ecosystems, agriculture and the spread of disease. 'Global warming is a serious threat to animal and plant life,' says Jay Malcolm, a forestry professor at the University of Toronto. 'As climates warm, more southerly species will begin appearing further north ... species will find themselves in habitats where they don't belong. For example glaciers and sea ice in both the northern and southern hemispheres are already melting at a rapid pace, placing animals like polar bears at risk.'

D

A recent study suggested that Greenland's ice sheet will begin to melt if the temperature there rises by three degrees C. That is something many scientists think is likely to happen in another hundred years. The complete melting of the Greenland ice cap would raise sea levels by seven metres. Even a partial melting would cause a one-metre rise. Such a rise would have a devastating impact on low-lying islands, such as the Maldives, which would be entirely submerged. Densely populated areas like the Nile Delta and parts of Bangladesh would become uninhabitable, affecting hundreds of millions of people. A one-metre sea-level rise would flood the eastern seaboard of the USA.

E

Other scientists emphasise that such doomsday scenarios may be hundreds of years in the future. 'You can't say with any certainty that sea-level rises are going to have a huge impact on society,' says Stouffer. 'Who knows what the planet will look like 5000 years from now?' Most climate scientists, however, agree that global warming is a threat that has gone unchecked for too long. 'Is society aware of the seriousness of climate warming? I don't think so,' says Marianne Douglas, professor of geology at the University of Toronto. 'Otherwise we'd all be leading our lives differently. We'd see a society that used alternative sources of energy, with less dependency on fossil fuels.'

Grammar

Countable and uncountable nouns

1 Read the following sentences and think about the first phrase in each one. Then fill the gaps or choose the right option to complete rules a and b below.

- 1 How much research has been done on carbon dioxide?
- 2 How many scientists are looking into the problems of global warming?
- 3 A large amount of information is available on climate change.
- 4 A large number of countries are being affected by rising sea levels.

- a Nouns like and are uncountable and cannot be plural. They are used with *How* and *a large* of and take a (*singular / plural*) verb.
- b Nouns like and are countable and can be singular or plural. They are used with *How* and *a large* of.

Other words you can use with countable and uncountable nouns:

countable nouns	uncountable nouns
a/an	-
the	the
some	some
few	little
a lot of	a lot of
plenty of	plenty of
many	a great deal of
a number of	a good deal of

Notes: Some nouns can be both countable and uncountable depending on their meaning.
 The following nouns take a plural verb: *clothes, glasses, goods, people, police, premises, savings, scissors, trousers.*
 The following nouns ending in *-s* take a singular verb: *economics, mathematics, news, politics.*

G page 140

2 Decide if these nouns are countable or uncountable. Write C (countable) or U (uncountable) next to each word. Use a dictionary if necessary.

o-**knowledge** /'nɒlɪdʒ/ noun 1 [U, no plural] information and understanding that you have in your mind *He will easily find a job with his knowledge and skills.* o *He has a detailed knowledge of naval history.* o *He took the car without my knowledge (= I did not know).* 2 to (the best of) sb's knowledge used to say that someone thinks that something is true, but cannot be sure *To the best of my knowledge, she's never worked abroad.*

- pollution
- university
- country
- information
- news
- weather
- activity
- accommodation
- advice
- job
- scientist
- knowledge
- research
- climate
- meal
- work

3 Form sentences from the prompts, making any necessary changes.
 EXAMPLE: deal / research / do / into climate change last year.
A great deal of research was done into climate change last year.

- 1 Global warming / happen faster than people think.
- 2 Information about ecology courses at universities / hard to find.
- 3 lot / people / study / mathematics at my college this year.
- 4 the company / put new equipment in the computer lab next year?
- 5 The news this morning / not good.
- 6 My work on climate change / be published next week.

4 Correct the mistakes that IELTS candidates have made with countable and uncountable nouns and the verbs that follow them. Then try to improve the sentences by using *many, a number of, a good deal of* or *a great deal of* instead of *a lot of* or *plenty of*.

- 1 A lot of people thinks that many of the information about climate change have been wrong. Many research have taken place into whether it have been more influenced by natural occurrences such as volcanoes.
- 2 A lot of gases trap the sun's heat in the atmosphere and causes a gradual warming of the Earth.
- 3 A lot research have found that all people needs to do are use fewer fossil fuel.
- 4 There are evidence that a car emit as many carbon dioxide a year as an entire house. A lot of energy can be saved by driving more smoothly and keeping the tyres inflated.

Speaking Part 3

- 5 With a partner, ask and answer these questions.
- What kind of things can you do personally to reduce global warming? e.g. recycling, using less electricity, etc.
 - Do you think that ordinary people can stop global warming or is it up to the government? Why?
 - Can joining a pressure group help?

Useful language

Speculating

I think the government **could do** more to stop global warming.
Cycling to college or taking public transport **might help**.
It's **possible that** we could do more to recycle our rubbish.
It's **unlikely that** some countries will reduce their CO₂ emissions.
It **would probably help** if people **stopped** using fossil fuels.

Listening

- 6 You are going to hear a woman talking on the radio about a new book. Before you listen, read through the notes below and try to decide what kind of information you need to listen for.

Complete the notes below.

Write **NO MORE THAN TWO WORDS AND/OR A NUMBER** for each answer.

Saving the Planet

Approx. amount of money that each household could save a year: 1 US\$

Main topic of book: 2

Ways to prevent global warming:

3 use modern types of

4 put your in a cool place

5 turn off

6 only shower for

7 unplug your

type of energy saving	amount saved
• keeping tyres inflated	8 US\$
• eating less 9	US\$109
• buying food in 10	US\$293

Vocabulary

Collocations related to the environment

- 7 Vocabulary and collocations related to the environment often appear in IELTS. Link each word on the left with a word on the right. Use a dictionary to help you.

EXAMPLE: 1 f global warming

- | | |
|-------------------|-------------|
| 1 global | a gases |
| 2 recycling | b pollution |
| 3 greenhouse | c species |
| 4 environmentally | d modified |
| 5 light | e friendly |
| 6 endangered | f warming |
| 7 genetically | g waste |

Writing extra

- 8 Write at least 150 words on the greenhouse effect, using the diagram and notes below. ... WF 1

Test folder 5

Summary completion

(Academic Reading, General Training Reading and Listening Modules)

A summary is usually of one part of the passage, but may be of the whole text.

In the Listening Module the questions follow the order of information in the passage. In the Reading Modules they may not.

The summary is worded differently from the passage, but the ideas are the same.

If you have to choose words from the passage, you will be told the maximum number for each answer.

If you have to choose words from a box, there will be more words than spaces, and they are usually different from ones in the passage.

Words must be spelt correctly to gain marks.

Advice

Reading Modules

- Skim the whole passage before you start working on any of the tasks.
- Read the instructions. If the answers come from the passage, check the maximum number of words for each space. Read the heading (if there is one) and the summary. Consider what information is likely to fit each space. Think about both the *meaning* and the *grammar*.
- Read the first gapped sentence. Find the relevant part of the passage – the heading will help you – and look for something that means the same. Find the words (in the passage or box) that fit the question. Copy them exactly. Continue with the next space.

Listening Module

- You will be given time to read the summary before you listen. Consider what information is likely to fit each space. Think about both the *meaning* and the *grammar*.
- Listen for each answer in turn. If you miss one, go on to the next question or you may miss that too.

All modules

- Check that your answers fit both the meaning and the grammar, that the spelling is correct, and that you haven't written more than the maximum number of words.

Reading

- 1 This passage is similar to those in the Academic Reading Module, but is only about 350 words. The task is typical of both Reading modules.

The Little Ice Age

Western Europe experienced a general cooling of the climate after the year 1150 and a very cold climate between 1560 and 1850 that brought dire consequences to its peoples. The period from 1150 to 1850 is sometimes called the Little Ice Age.

During this time, the cooler air of the Arctic began to spread southward. Together with other changes in the atmosphere over the North Atlantic, this directed a higher number of storms into northern Europe. The sea level seems to have been increased by ice melt during the preceding Medieval Warm Period (from about 900 to 1150), contributing to the flooding which caused the loss of hundreds of thousands of lives. Additionally, hail wiped out farmland and killed great numbers of livestock over much of Europe, due to very cold air during the warmer months. Glaciers in many parts of Europe began to advance, destroying farmland and causing massive flooding.

The climate change of the Little Ice Age had a serious impact on agriculture, as it reduced the growing season by up to two months. That is enough to affect almost any type of food production, especially crops highly adapted to use the full-season warm climatic periods. Varieties of seeds that can withstand extreme cold or warmth, wetness or dryness, were not available in the past. The impact on agricultural output was significant, with poor harvests leading to high food prices and famines. In one of the worst famines, millions of people died in France and neighbouring countries in 1693. Food prices reached a peak in the year 1816 – 'the year without a summer'.

The cooler climate during the Little Ice Age had a huge impact on the health of Europeans. Malnutrition led to a weakened immunity to a variety of illnesses, including bubonic plague – the Black Death – which killed a third of the population of Europe in the late 1340s. Cool, wet summers led to outbreaks of an illness called St Anthony's Fire, which caused terrible suffering, hallucinations and even death. This was due to a fungus which develops in grain stored in cool, damp conditions. Used to make bread, the grain passed the illness to whole villages.

Complete the summary below.

Choose **NO MORE THAN TWO WORDS** from the passage for each answer.

The Impact of the Little Ice Age

The increase in cold air affecting Europe led to more frequent **0** in the north of the continent. The sea level rose because of **1** caused earlier, and this led to **2** in which many people died. Animals and crops were destroyed by **3** in the summer. As the climate cooled, **4** spread, causing great destruction.

In agriculture, the Little Ice Age led to a shorter **5**, which had a particular impact on **6** that need long periods of warmth. A further problem was that **7** were more vulnerable than those of today. In consequence, **8** were poor. Large numbers of people died in the **9** that occurred in several countries. In addition, **10** reduced many people's immunity to diseases. One illness, St Anthony's Fire, was caused by a **11** that could grow in bread.

Listening

2 This passage is similar to those in Part 4 of the Listening Module.

Complete the summary below.

Write **NO MORE THAN THREE WORDS AND/OR A NUMBER** for each answer.

The Polar Front Jet Stream

The Polar Front Jet Stream is a wind at a height of up to **1** kilometres above the earth's surface. It moves at approximately **2** km per hour during the winter. The direction of movement is caused by the earth's **3** The jet stream is formed where cold polar air meets warm **4** air.

It was first identified by **5** in the 1940s. Planes benefit in terms of both **6** but **7** is difficult.

Forecasters use jet streams to predict where depressions will form, and whether the British Isles will have potentially destructive **8** or only **9**

Global warming may move the jet stream to the **10** in the summer, creating **11** conditions in the British Isles.

3 This passage is also similar to those in Part 4 of the Listening Module.

Complete the summary below using words from the box.

disease	drought	dust	floods	hunger	
ice	lava	migration	night	riots	snow
storms	sunlight	temperatures			

The eruption of Mount Tambora in 1815 filled the air with **1** The amount of **2** was reduced. The effects on the weather of 1816 included **3** in places where it was a rare occurrence, and **4** that severely damaged crops. Many Europeans suffered from **5**, and there were serious **6** in many towns. In the USA there was considerable **7** from affected areas to the more fertile Midwest.

Mount Tambora today

Speaking Part 1

1 With a partner, take it in turns to ask and answer the following questions. Remember to give a full answer – use *because* and *for example*.

- What type of accommodation are you living in at the moment?
- What's it like?
- What would your ideal room be like?
- What qualities would you look for in a flatmate?

Useful language

Accommodation

a hall of residence / a college room
 a rented flat/apartment
 a hostel
 a family house / a home stay
 a shared house

I like/love living with my/a family.
 I don't mind staying in a hostel
 What I would most like is ...
 I'd like (to share with) someone who ...
 I dislike/hate/can't stand sharing with anyone.
 I can't afford to pay more.
 I want to move soon.
 On the other hand ...

Listening

2 You are going to hear a student asking about accommodation at a university. Read through the questions and try to decide what kind of information you need to listen for.

Complete the notes below.

Write **NO MORE THAN THREE WORDS AND/OR A NUMBER** for each answer.

Ridgeway House	\$230 or \$270 a week: including 1
	Time taken to campus on foot: 2
	Not open: in 3
International House	Cost of private room: 4 \$.....
	Situated on ground floor: 5
Address:	6 Place.
Computer lab:	Possible to take part in 7 all year round.
Main rule:	in 8 of the building.
Main rule:	9 in the building.
Application fee:	10 \$.....

Would you like to live in this college accommodation? Why, or why not?

Pronunciation *Polite intonation*

- 3  It is important to create a good impression by sounding polite during the Speaking Module. Listen to the beginning of the conversation from exercise 2 again and then repeat these words or phrases. Try to use the same intonation.

- | | |
|------------------------|----------------|
| 1 Can I help you? | 4 Do sit down. |
| 2 Yes, please. | 5 Thank you. |
| 3 I don't, I'm afraid. | 6 Certainly. |

Remember: phrases like *I'm afraid*, or *I'm sorry* soften a negative response.

- 4  Listen to eight short exchanges and decide if the second person sounds friendly or unfriendly. Write F (friendly) or U (unfriendly).

- | | | |
|---|---|---|
| 1 | 4 | 7 |
| 2 | 5 | 8 |
| 3 | 6 | |

Vocabulary

Phrasal verbs and collocations with *house* and *home*

- 5 Rewrite the sentences using phrases from the box and making any other necessary changes. Use an English–English dictionary to help you.

to pull down a building /	
to pull a building down	a spacious house
to put someone up	a dilapidated house
to rent out a flat/house	a terraced house
to extend a house	a bungalow
to leave home	a detached house
to move house	a semi-detached house

- My house is connected to another house.
- Josh lived in eight different houses when he was a child.
- Don't worry about finding a hotel – I can give you a bed for the night.
- After they had children, they decided to add more rooms onto their house.
- Tania's mother was very upset when Tania moved out of the family home.
- The council are demolishing the old cinema.
- Dr Thomas is very happy to allow students to have the flat for a reasonable amount.
- I live in a house which only has one floor.
- My aunt's house has a lot of space but it isn't in a very good state.
- I have lived in houses which were part of a row and in houses standing alone.

Writing extra

General Training Task 1

- 6 Complete the letter using words from the box below. There are some extra words which you won't need.

agree also attention because conclusion
hear hearing however is know limit
make meet next past receive run
since stop when where would

Dear Professor Simpson,

I have been living in International House now for the **1** six months and feel very much at home as it is very comfortable and reasonably priced. **2**, I would like to draw your **3** to the following problems.

First of all, the computer room in the basement has been closed for the last two weeks **4** of a shortage of technical staff. **5** it not be possible to pay computer-science students to **6** the hall's computer room on a rota basis?

Secondly, noise levels from student parties have increased recently. I think it would be a good idea to **7** parties to Friday or Saturday nights and from 8.00 to 12.30 in term time. I am sure you will **8** that it is very hard to study **9** someone is having an all-night party in the middle of the week!

I look forward to **10** from you in the near future.

Yours sincerely,

- 7 Answer the following Task 1 question.

Write the following letter.

You are due to move into a rented apartment next month but you will not be able to because you have some problems.

Write a letter to the landlord. In your letter

- explain your situation
- describe your problems
- tell him/her when you think you can move in.

You should write at least 150 words.

Norman Foster – architect

Norman Foster was born in Manchester, England in 1935. His father was a shop manager in a poor area of Manchester but his parents managed to send him to a private school. However, there wasn't enough money to send him to university so his parents persuaded

5 him to get a job and earn some money after leaving school. Foster worked for two years in an office, before doing compulsory military service in the air force. He was beginning to develop an interest in architecture, so when he left the air force he went to Manchester University to study architecture. Designing buildings came naturally

10 to him. He decided to continue his studies at Yale University in the USA and became friends with another architect called Richard Rodgers. After they had finished studying, they decided to start Foster Associates. Since then, the firm has received more than 190 awards and won over 50 national and international competitions.

15 The latest is the Stirling Prize for 30 St Mary Axe in London.

30 St Mary Axe, or the Swiss Re headquarters, is London's first environmentally friendly skyscraper. It is situated in the city of London, and it is an easily recognisable building. The shape of the tower allows the maximum amount of natural light to come into the

20 building and this helps to reduce lighting bills. When it was first built, people weren't sure if they liked it or not and called it the Gherkin, but now it is very popular. It can be compared to the Chrysler building in New York, the wonderful art-deco skyscraper built in Manhattan in the 1920s. But it is much better than the

25 Chrysler, which would be quite ordinary without its spire. The Gherkin curves and glitters and reflects all over. Everyone agrees that it is an architectural masterpiece and its presence in London makes the people of the city feel very proud.

Grammar

-ing forms and infinitives 1

- 1 What do you think of this building? Do you know where it is and what it is used for?
- 2 Read the article above about the architect and the building.

-ing forms

- 3 The *-ing* form of a verb can be used in several ways. In which of these sentences from the article is the *-ing* form being used as a noun?
 - 1 Designing buildings came naturally to him.
 - 2 He was beginning to develop an interest in architecture.
 - 3 This helps to reduce lighting bills.

Infinitives

- 4 An infinitive is a form like *(to) do* or *(to) go*.

Find example(s) from the text of the following:

- 1 an *-ing* form used after a verb, e.g. *enjoy doing*
.....
- 2 an *-ing* form used after a preposition, e.g. *after doing, good at doing*
.....
- 3 a verb/expression followed by *to* + infinitive, e.g. *I would like to do*
.....
- 4 an infinitive of purpose, e.g. *I went to town to do some shopping.*
.....
- 5 an infinitive after *too* or *enough*, e.g. *too hot to do*
.....
- 6 a verb which follows the pattern: verb + *someone/something* + *to* + infinitive, e.g. *I encouraged my friend to apply for university.*
.....
- 7 an infinitive without *to*, e.g. *My flatmates made me do the shopping.*
.....

5 Complete the sentences using a verb from the box in the correct form.

buy	finish	have	live	look	make
pay	reduce	share	visit	work	

EXAMPLE: Michelle has decided *to buy* Lizzie a lamp for her new flat.

- It's not worth me for a house to buy – they are all too expensive.
- Paul insisted on the builders the job on time.
- I'm quite good at accommodation with other students during term-time.
- Tania can't afford too much for a room in the hostel.
- Can you imagine in an apartment on the top floor of a skyscraper?
- Foster has succeeded in modern architecture popular in Britain.
- I adore old buildings.
- I used in an office just near the Eiffel Tower in Paris.
- The hostel warden made us all noise levels in the evenings.
- My sister has always wanted a houseboat on the River Thames.

6 The *Cambridge Learner Corpus* shows that the most common mistake IELTS candidates make is with *to*. Correct these sentences.

- The architect made the builder to use triangular-shaped glass.
- You had better to do your essay before to go out.
- I gave up to live with my parents years ago.
- Have you finished to do the cleaning?
- He suggested to rent the apartment next year.
- I object to pay such a high rent.
- I look forward hear from you in the near future.
- The college wouldn't let me to move out of the hostel.
- I'm interested to go to see the house tomorrow.
- The estate agent advertised in the paper to getting more people seeing the house.

7 With a partner, talk about why you think people do the following things.

EXAMPLE: study IELTS – *I think many people study IELTS to go to university.*

- get married
- smoke cigarettes
- go to clubs
- buy fast cars like Ferraris
- join Internet chat rooms
- have cosmetic surgery
- recycle plastic and glass

8 With a partner, ask and answer these questions. Make sure you use an *-ing* form and ask *Why?* or *Why not?* when your partner answers.

- Have you ever given up anything?
- Do you dislike doing housework?
- Are there some things you put off doing?
- Do/Would you mind living away from home?
- When will you finish studying?
- Is there anything that you are particularly bad at doing?
- What are you looking forward to doing this weekend?
- Is there a hobby you'd like to take up?

Speaking Part 2

An exhibit in the Turbine Hall of Tate Modern art gallery

9 Listen to a student talking about the following topic.

Describe a building you like or dislike.

You should say:

where it is

what type of building it is

when you first saw it

and explain why you particularly like/dislike it.

Did the speaker cover all the points above?

Did she use a range of vocabulary?

Was what she said relevant?

What words did she use to avoid saying *big* repeatedly?

Now *you* answer the question above. You have one minute to make some notes and then you must talk for one to two minutes.

Writing folder 5

Academic Writing Task 1: Handling data 2 – bar and pie charts and tables

In Task 1 of the Academic Writing Module you may be given one or more charts or tables and asked to explain what they show. You should spend 20 minutes on this task and you should write at least 150 words.

Advice

- Remember you do not get extra marks for writing more than 150 words, but you will lose marks if you write less.
- 'Other' is sometimes mentioned as a category on charts. Don't ignore it. Decide what it is referring to – in the chart below it refers to other private dwellings/housing – and then include the information if you think it is relevant.

1 Correct statements 1–7 about the charts, if necessary. Some statements are correct.

Bar chart

Private dwellings in Australia 1991–2001

- 1 In 1991, there were twice as many detached houses as semi-detached.
- 2 The percentage of flats increased slightly in the ten year period from 1991–2001.
- 3 The number of flats in 2001 was nearly double the number of semi-detached houses.
- 4 There was a fall in other types of housing from 1991 to 2001.

Pie chart

% of Canadian households 2002

- 5 In 2002, the majority of Canadians lived in flats.
- 6 In 2002, a higher percentage of Canadians lived in semi-detached houses than in detached ones.
- 7 In 2002, more Canadians lived in detached houses than in flats.

2 With a partner, using the language given opposite, discuss what the table shows you and then write sentences summarising the information.

EXAMPLE: *It can be seen from the table that many more UK households with children had a PC than those without children.*

Home entertainment equipment – households in the UK (2000)

	with children	without children
DVD/Video	87%	78%
Video games	52%	14%
PC	41%	17%
Satellite TV	28%	18%
Video camera	23%	14%

Useful language

According to ...
 It can be seen / It would appear from the chart/table/data/statistics that ...
 It/There is/are twice as ... as ...
 is nearly the same as ... } that of ...
 is a little more than ... } the amount/number/percentage of ...
 is double
 The majority of ...
 A minority of ...

3 Look at the chart and then complete the summary of the information in the chart using words or phrases from the box below.

Entertainment equipment in children's bedrooms, by age of children (UK 2002)

Overall, it would appear that the 1 children, that is children aged 2, were more likely to have entertainment equipment in their rooms than 3 children. However, more 4-9 year olds did have 4 in their bedrooms than the other two age groups.

The 5 item of equipment for all age groups was the 6, with over 70 per cent of all 10-15 year olds and 7 of 4-9 year olds being allowed to watch in their own rooms. A 8 was the second most popular item, with 9 of the older age group possessing this item of equipment.

Although just over 20 per cent of 10-15 year olds had 10 in their bedroom, a much smaller percentage of that age group were able to access the Internet. Very 11 younger children were allowed to use the Internet.

It is clear from the data above that, generally, the older 12 are, the more electronic equipment they are likely to have in their bedroom.

satellite TV	most popular	oldest
a computer	few	younger
40 per cent	children	games console
50 per cent	television	10-15

4 Make a chart giving information about the amount of home entertainment equipment the students in your class possess and then write 150 words describing your findings.

robins

gulls

spider

worker bees

- 1 What similarities and differences are there between the lives of animals and of human beings?

Reading

- 2 Match each definition (1–7) with a noun or verb from the box (a–i). There may be more than one answer.
- 1 a group of people living together, or a person living alone
 - 2 a couple and their children
 - 3 parents, children, grandparents, uncles, aunts, etc., whether or not they live together
 - 4 something done alone
 - 5 something done in a group
 - 6 to care for young animals or children until they are able to care for themselves
 - 7 the way in which someone is treated and educated when they are young, especially by their parents

- a to bring up
 b a communal activity
 c an extended family
 d a household
 e a nuclear family
 f to raise
 g to rear
 h a solitary activity
 i upbringing

- 3 Most species of animals have a preferred way of living. This book extract introduces different patterns. Note that 'animal' is used to include birds, fish, insects and invertebrates. Skim the first section, and decide what the main topic of each paragraph (A–E) is. The passage is similar to those in the Academic Reading Module.

🕒 about 250 words

Social organisation among animals

Varieties of social organisation

- A** The palalo – a worm which lives on rocks in the sea – is one of very few animals which never have contact with other members of the same species. Others, such as spiders, are normally solitary, meeting only to mate (that is, to reproduce).
- B** Some species form social links only for the period while they are rearing their young. Among birds, European robins raise their chicks in a pair, away from other members of their species, while herring gulls form larger groups (*colonies*) consisting of many pairs living close together, each pair raising their chicks independently.
- C** Many species of fish and birds form large groups, called *schools* and *flocks*, respectively, and swim or fly together. Hens attack each other, and eventually establish a hierarchy based on their individual strength. Those at the top of the 'pecking order' get to eat before the others.
- D** Finally, some animals spend most or all of their lives in social groups in which individuals co-operate. Lions, for instance, usually live in a relatively permanent group, called a *pride*, where some activities, such as hunting, are social, and others, like sleeping, are solitary.
- E** Bees, wasps and ants live in stable, co-operative groups in which every activity is communal and organised. Worker bees (which are all female) have several jobs in succession, depending on their age. They begin with cleaning duties, and later become soldiers to defend the hive against intruders. Finally they fly out of the hive to collect food. There is a highly complex social organisation.

4 Now answer these multiple-choice questions about the extract you have just read.

Test spot

Remember to read each question carefully, find the relevant part of the text, consider *all* the options, and choose only one answer to each question. ... TF 6

Choose the correct letter, **A**, **B** or **C**.

- Which of these animals spends most, but not all, of its life alone?
A palalo
B herring gull
C spider
- European robins and herring gulls are different with regard to
A how many birds help to bring up each chick.
B the social organisation in which pairs bring up their young.
C how long they spend together.
- What point is made about hens?
A The best fighters eat different kinds of food from weaker hens.
B They live in larger groups than most other species of birds.
C Their social structure gives certain individuals advantages over others.
- What is said about the life of lions?
A They live in a group and do some activities together.
B They live separately and come together for some activities.
C They live in a group and do all activities together.
- What point is made about worker bees?
A They carry out different tasks as they get older.
B They live in a social structure unlike that of any other animals.
C They could not survive alone.

5 What do you think are the advantages and disadvantages for animals of living in groups?

Consider

- bringing up the young
- finding food
- protection against other animals
- conflict

6 Now read the next section of the extract.

🕒 about 250 words

Advantages of social co-operation

frogs

Social co-operation can provide a number of benefits. Groups of male frogs sing to attract females, and large groups generally attract more females per male than smaller groups, making it easier for the males to find a mate.

- The young can be reared more safely in social groups. Birds in a colony tend to lay their eggs at around the same time, so all the chicks emerge from the egg almost simultaneously. As an individual predator (an animal that kills and eats other animals) can only consume a finite number of eggs or chicks, each individual is less likely to be eaten. Groups of adult elephants surround all their young, giving each one much greater protection than its parents alone could provide.

- Groups are also more effective in bringing up the young. In some species of apes and monkeys, female 'aunties' help to look after the young which are not their own, while learning how to raise their own young in the future. Lion cubs drink the milk not only of their mother but also of other lionesses in the group, and the range of antibodies that different females provide increases their resistance to disease.

- A group that spreads out in search of food is likely to be more successful than an animal searching alone. When one has found food, others may simply join it, but some species have developed a highly complex form of communication. When a honeybee finds some food it returns to its hive and performs a complex dance to indicate the location of the food to others.

7 Which **FIVE** of these advantages of social co-operation are mentioned in the above passage?

- A** Females can choose a mate more easily.
- B** More eggs can be laid.
- C** Eggs are more likely to survive.
- D** There are more adults available to protect the young.
- E** Individuals can develop skills for later use.
- F** The young are likely to be healthier.
- G** Individuals can eat food which others have found.
- H** The group is more likely to live close to a source of food.

Listening

- 1 Do you know any stories which seem to be about animals but are really about people?
- 2 You are going to hear part of a lecture about animals in literature. This is similar to Section 4 of the Listening Module.

Complete the sentences below. Write **NO MORE THAN ONE WORD** for each answer.

- 1 Animals often appear in myths about the of the world.
- 2 Writers of 'wild animal stories' wanted to show animals in a way.
- 3 Some stories are intended to increase for animals.
- 4 Fables normally deal with questions.
- 5 Animals in fables generally use human
- 6 Orwell's fable is about issues.
- 7 Most fables are meant for
- 8 In Kipling's story, the camel's laziness increases the of the other animals.

Grammar Articles

a/an and the

3 Look at these sentences.

When ¹a bee finds some food, it returns to its hive and performs ²a complex series of movements. ³The dance indicates where ⁴the food is located.

Complete rules **a** and **b** by adding *a/an* or *the* to each space. Then give the number of the relevant examples (1–4) above.

- a Use when a singular, countable noun is used for the first time.
(numbers from above)
- b Use when the noun refers, directly or indirectly, to something that has already been mentioned.
(numbers from above)

4 Put *a/an* or *the* in each space.

Binti Jua is 1 gorilla living in 2 zoo in Chicago, USA. One day she rescued 3 three-year-old boy who had climbed over some railings and had fallen close to her. Although zoo officials responded immediately, Binti reached 4 unconscious child first and carried him to 5 area where 6 officials could attend to him. 7 little boy recovered after spending four days in hospital.

No article

5 Look at rules **c** and **d**, which explain where no article is used.

No article is used

- c with uncountable nouns:
Co-operation can be useful for many species of animals.
- d with plural countable nouns used with a general meaning:
Lions, for instance, may live in a relatively permanent group called a pride.

6 Decide which rule (a–d) explains each use of *a/an*, *the* or ‘no article’ in 1–10 below.

Tess is ¹a dog, and every week she goes with her owner to ²a hospital in her home town, wearing ³a red ribbon in her collar. ⁴The patients enjoy playing with Tess, and even ⁵the nurses spend some time with her. They say she spreads ⁶happiness among ⁷the patients, and helps them to get better. ⁸Research has shown that ⁹animals can help ¹⁰people in this way.

G page 141

Vocabulary Compound nouns

Many words, especially nouns, are formed by joining two independent words, for example, *honeybee*. Sometimes the meaning can be guessed from the meanings of the two parts. Usually the second part of the compound tells you more about the meaning of the word than the first, e.g. a *honeybee* is a type of bee and a *dogfish* is a type of fish – not a dog!

Sometimes compound nouns are separate words, e.g. *honey bear*, sometimes they are written as one word.

7 All the words in the box can form a compound beginning or ending with *work*, e.g. *workbook*. Decide what the other compounds are, and try to work out what they mean. Check in an English–English dictionary if you aren’t sure.

book	force	home	load
place	sheet	shop	

8 Complete each sentence with the most suitable of the compound nouns from exercise 7.

EXAMPLE: A workbook is a publication containing a number of exercises to supplement a coursebook.

- In Kipling’s story the man’s consisted of a horse, a dog and an ox.
- The animals’ was on the edge of the desert.
- The horse, dog and ox had a heavier because of the camel’s laziness.
- A is a piece of paper with questions or exercises for students.
- A training activity in which a number of people take part is sometimes called a
- is useful because it gives students the chance to practise what they have learnt.

Pronunciation Diphthongs

9 Knowing about the sounds of English will help you to speak clearly. It is also useful to learn the different ways in which the same written letters can be pronounced.

Complete the tables below with words from the box to show the main ways of spelling the most common diphthongs. Write each one under the right heading, and give the spelling (in **bold** type) for the diphthong. There are some examples of diphthongs in Unit 8 (page 55).

although	approach	came	enjoy
find	flies	fly	goes
great	here	now	join
out	own	pair	right
say	share	so	spoke
there	they	wait	wearing
while	year		

1 /eɪ/ day	
spelling	example
a_e	<i>came</i>
	<i>great</i>
ey	

2 /aɪ/ my	
spelling	example
igh	
	<i>find</i>

3 /aʊ/ how	
spelling	example
ou	

4 /ɪə/ ear	
spelling	example
	<i>year</i>

5 /ɔɪ/ boy	
spelling	example
	<i>join</i>

6 /əʊ/ no	
spelling	example
	<i>although</i>
	<i>spoke</i>

7 /eə/ air	
spelling	example
ere	
ea(r)	

Now you’ll hear two words containing each diphthong, the one at the top of the column and the first example (e.g. *day* and *came*). Repeat each word.

Test folder 6

Multiple choice

(Academic Reading, General Training Reading and Listening Modules)

If you have to choose one answer, there will be three options (in the Listening Module, and occasionally in Reading) or four options (only in Reading).

If you have to choose *more than one* answer, there will be more options. In this case, the order of your answers isn't important: for example, if the answers are A, C, D, and you write D, A, C, they will still be counted as correct.

Each question normally focuses on one part of the passage. However, in the Reading Modules you may be asked one multiple-choice question about the whole passage.

The questions follow the order of information in the passage.

The options normally do *not* follow the order of information in the passage.

The questions and options are normally paraphrases of the passage.

Listening

1  This passage is similar to those in Section 4 of the Listening Module.

Which **FIVE** of these activities are said to be characteristic of sharks?

- A travelling long distances
- B diving deep
- C feeding by day
- D travelling alone
- E attacking other members of their own species
- F treating other species of sharks as equals
- G threatening human beings
- H defending their home

Advice

All modules

- Read the instructions carefully. Note how many answers are required for each question.
- Read the first question. Look or listen for the relevant part of the passage. Read or listen carefully, considering *all* the options.
- Consider the options *in relation to the question*. In some cases an option may be true, but is wrong in relation to the question.
- Always choose only the required number of options for each question.
- Make sure you answer every question – you won't lose marks for wrong answers.

Reading

- 2 This passage is similar to those in the Academic Reading Module, but only about 600 words long. The task is typical of both Reading Modules.

How similar are animals and human beings?

Over the centuries, a number of animals have been charged with a crime, tried in a court of law, found guilty and punished – even executed. The last time was as recently as 1906. Animals were thought to be like human beings – able to decide their actions and morally responsible for the outcomes.

Then ideas about animals changed, and they were thought to lack awareness of their own internal states and relationships to others. They were therefore considered incapable of true suffering and of criminal behaviour.

But new research suggests that animals have far more complex cognitive and social skills than we thought. The focus in recent decades has been on wildlife, but it now seems that something similar is also true of farm animals: pigs, sheep, cows, chickens.

First for some findings. In 2004, researchers in Cambridge, UK, reported that when individual sheep were isolated from the flock of sheep that they belonged to, they experienced stress. This was shown by increases in heart rate, stress hormones and bleating – a sheep's call. But showing them pictures of familiar sheep faces reduced all three measurements. The same effect was not produced when they were shown pictures of goat faces or inverted triangles.

Donald Broom, professor of animal welfare at the University of Cambridge, says that cows often form long-lasting, co-operative partnerships. They also show a physiological response on learning something new. He and colleague Kristin Hagen put young cows in a situation where they had to press a panel to open a gate and gain access to food.

Choose the correct letter, **A**, **B** or **C**.

Example:

The belief mentioned in the first paragraph is that animals

A can choose how to behave.

B behave worse than people.

C copy the behaviour of people.

Answer: A (able to decide their actions)

Those that learned the task were more likely to experience a sudden increase in heart rate and to run around than those that did not. This was called 'the eureka response', and resembles the human reaction to making a discovery.

Other research has shown that if offered a choice of two places to feed, pigs will avoid the one where they had previously been shut in for several hours after eating, and go for the one that they were released from quickly. None of these findings proves that animals feel pain or joy in the same way that humans do, but according to Broom, the evidence suggests that animals may be aware of what has happened in the past, and capable of acting on it in the future.

That awareness is the basis of collaboration among human beings – for instance, knowing not to attack a familiar face. In animal communities too, it now seems, animals with big teeth, or weighing several tonnes, will move carefully so as not to damage others. In the past, this was explained as their fear that if they accidentally hurt another animal, it will attack them. According to Broom, however, this is not true in every case. He claims that a great deal of this behaviour has a more general aim of ensuring that the society will function.

American animal rights lawyer Steven Wise has gone a step further. He argues that people have basic civil liberties because they possess a sense of self, plus the ability to want something and to have the intention of gaining what they want. The great apes, dolphins, African grey parrots and other animals also appear to have this ability. Now, he says, it seems to apply to some farm animals too. He claims that these animals therefore deserve basic rights such as freedom from being raised as food for human beings.

Wherever developments in our understanding of animals takes us, however, it seems unlikely that we will again try them for criminal behaviour.

1 The belief mentioned in the second paragraph is that animals

A behave better than people.

B are not aware of other animals.

C do not experience mental pain as people do.

2 What point is made in the third paragraph?

A Further research is needed into comparing the skills of wild and farm animals.

B Skills are being found among farm animals as well as wild animals.

C Farm animals are proving to be more interesting than wild animals.

3 What is suggested by the research into sheep?

A They suffer stress if they are placed with animals of different species.

B They cannot distinguish between goats and abstract symbols.

C They can recognise other sheep in photographs.

4 The experiment with cows was designed to find out

A how they reacted to learning something new.

B how fast they learned to solve a problem.

C how they worked out a method of getting food.

5 Research into pigs has shown that they

A forget previous experiences when they want food.

B remember which types of food they like.

C can base their behaviour on earlier experiences.

6 Professor Broom believes that animals try not to harm others

A when the other animal is more powerful.

B to avoid being attacked by another animal.

C even if they will not benefit themselves.

7 Steven Wise argues that

A the legal basis for human civil liberties also applies to animals.

B animals should be given the same rights as people.

C owning animals should be made illegal.

8 What do you think is the writer's main purpose in this passage?

A to argue that animals should have the same rights as human beings

B to present current research into animals to a non-specialist audience

C to show differences between animals and human beings

Sport: just for fun?

bungee jumping

football

zorbing

table tennis

Speaking Part 1

- Do you enjoy playing or watching any sports? Why, or why not?
Which sports are popular in your country, either to play or to watch?
In your opinion, why are they popular?

Vocabulary Sport

- Complete each sentence with a word from the box. Some nouns may need to be made plural.

- The world's biggest sports is the Olympics.
- There is always great excitement when a world is broken.
- A sport is one which people go to watch.
- sports are ones that are dangerous and very exciting.
- A number of individual take part in a race. The person who comes first is the winner, and the one who comes second is the
- In most sports, each individual or wins by getting the highest
- A result when there is no winner is called a 'draw' or '.....'.
- Some tennis tournaments are open to both professionals and

One of the words hasn't been used. Write a definition of it.

- Complete this table with words related to the ones given.

verb	noun (person)	noun (activity)	adjective
		athletics	
		competition	
to score		, scoring	
		, winning	winning

amateur	competitor
event	extreme
referee	runner-up
spectator	score
	team tie

- Informally, *do* is often used with all sorts of sports and activities, but which of the verbs *do*, *play* and *go* is most often used with each of these sports?

- basketball
- skiing
- football
- the long jump
- wrestling
- bungee jumping
- aerobics
- white-water rafting
- snowboarding
- golf

5 Which column or columns in the table below do you think each of these sports fits into?

basketball	baseball	boxing	bungee jumping
cross-country running	discus	the high jump	horseracing
ice hockey	parachuting	rugby	skiing
soccer	sumo wrestling	triathlon	white-water rafting

team sports	winter sports	spectator sports	extreme sports	athletics	contact sports
basketball					

Can you think of one or two other sports to add to each column?

Listening

6 You are going to hear a woman telephone a company that organises extreme sports activities. She wants information about a possible birthday present for her father. This is similar to a Section 1 task in the Listening Module.

Before you listen, read this table, and think about what words might fit each space.

Complete the table below.

Write **NO MORE THAN ONE WORD AND/OR A NUMBER** for each answer.

Possible birthday presents for Dad					
sport	what it is	notes	availability	relevant restrictions	cost
Bungee jumping	Being raised in a 0 cage then jumping	'Special' also includes 1 jump	2 days throughout the year	Will need to produce document from a 3	Special: 4 £
Zorbing	Rolling down hill inside a double 5	Hydrozorb: with water, person isn't 6	7 from April to October	Min height: 160 cm Max weight: 8 kg	Hydrozorbing: 9 £

Speaking Part 3

7 In small groups, discuss these questions. There are some words and phrases to help you. Encourage each other to develop your answers, using expressions like the ones opposite.

- How important is it to try to win when you're playing a sport? (*playing for pleasure, getting exercise, developing teamwork*)
- Do sports like football need expensive stadiums or equipment – isn't it enough to have a group of people, a piece of land and a ball? (*professional players, amateurs, spectators, developing skills*)
- Why have some sports become fashionable, and is this a good thing? (*television, newspapers, celebrity sportspeople*)
- Should sports in which people can get hurt be banned? (*everyday risks, protective clothing, first aid*)

Useful language

Encouraging others

Why do you think that?
Has that been your experience?
Go on.
But have you considered ...?
But surely ...

Some possible responses

Not personally, but I've heard from other people ...
Another reason is that ...
I'd never thought of that. Maybe ...
You've got a point, but don't forget ...

1 In small groups, talk about why people do sports.

Reading

2 Now read this article, which is similar to the Academic Reading and Part 3 of General Training Reading, but shorter than an exam passage. As you read it, list the reasons that are mentioned for playing sports.

🕒 about 400 words

History of sport

The development of sport throughout history can teach us a great deal about social changes, and about the nature of sport itself. Sport seems to involve basic human skills being developed and exercised for their own sake, as well as for their usefulness. This suggests that sport is probably as old as the existence of people, and that it was a useful way of people increasing their mastery of the environment.

Of course, as we go further back in history, the lack of evidence makes this claim more difficult to support. However, there are many examples in France, Africa and Australia of pre-historic cave art – some of it over 30,000 years old. The existence of art is evidence of there being leisure time available. It is therefore possible that there was some activity at these times resembling sport.

When the British explorer Captain Cook first visited the Hawaiian Islands, in 1778, he reported that he saw the native people surfing. Likewise Native Americans played games and sports before the coming of Europeans, such as ball games, running, and other athletic activities. The ancient Mayan and Aztec civilisations played ball games on courts of a type that is still used today. It is reasonable to assume from these and other historical sources that sport dates back to the beginnings of mankind itself.

There is evidence that Chinese people engaged in activities which meet our definition of sport as early as 6,000 years ago. These activities seem to have developed as a form of entertainment, as well as serving a practical function in making people fit for work. In Ancient Egypt, too, sports such as swimming and fishing were well developed and regulated several thousand years ago. A wide range of sports were played in Ancient Greece, among them wrestling, running, discus throwing, and chariot racing. This suggests that the military culture of Greece was an influence on the development of its sports. It was the importance of sports that led to the creation of the Olympic Games.

In the last two or three centuries, running and jumping, which were originally done for food and survival, have become activities done for pleasure or competition. The Industrial Revolution and mass production brought increased leisure in the 19th and particularly the 20th centuries. This led to a major growth in spectator sports, and made it possible for far more people to play and watch. Recently, there has been a move towards adventure and extreme sports as a form of escapism from the routines of life, examples being white-water rafting, canyoning and bungee jumping.

3 Look at the following periods and places and the statements below.

Match each period or place (1–5) with the correct statement (A–E) according to the passage.

- 1 Ancient Greece
 - 2 19th and 20th century
 - 3 pre-historic times
 - 4 Ancient China
 - 5 the Americas
- A People invented sports that would create a sense of community.
 - B People played sports that developed their fighting skills.
 - C People did activities that suggest they may also have had opportunities for sport.
 - D People were already playing sports when Europeans arrived.
 - E People became more involved in sport because of economic changes.
 - F People played sports which spread into other parts of the world.
 - G People played sports for pleasure and to become strong and healthy.

Grammar

Should, had better, ought to

4 Look at these sentences, based on the listening passage.

*Dad, you'd better not go zorbing if you feel ill.
You should book a few weeks in advance.
You ought to book at least six weeks ahead.
I'd better give my father details of both the bungee jumping and zorbing.*

- 1 Which function could all four sentences have: informing, ordering, advising or suggesting?
 - 2 Which of the following is mostly used in informal contexts: *ought to*, *should* or *had better*?
- #### 5 Look at this statement, and the five answers giving advice.
- I've been playing tennis for the last three hours, and I'm exhausted.*
- a You'd better not play any longer.
 - b You shouldn't play any longer.
 - c You oughtn't to play any longer.
 - d You shouldn't play for so long.
 - e You oughtn't to play for so long.
- 1 Which sentences give specific advice about the present situation?
 - 2 Which sentences give general advice for the future?
 - 3 Which is normally used only to give specific advice about the present situation: *ought to*, *should* or *had better*?

Notes: *Should* is used much more than *ought to*. *Had better* is usually shortened to *'d better*, especially in speech, and very often follows a pronoun.

6 Write a sentence or two giving advice in each case below, using *ought to*, *should* or *'d better*, or their negatives, *oughtn't to*, *shouldn't*, *'d better not*.

EXAMPLE: I spend all my spare time playing football, and I never see my friends.
You shouldn't spend so much time on sport. You ought to call your friends.

- 1 I want to do an activity that's really exciting.
- 2 I'm going surfing, but I don't know what to take with me.
- 3 I play a lot of football, but I'm finding it more difficult to run around.
- 4 I enjoy swimming, and now I want to do something different, but still in the water.
- 5 My friends want me to do a parachute jump with them, but I'm a bit afraid.

Should (and, less often, *ought to*) are used when the speaker thinks that something will probably happen. This is often something good or neutral, rather than bad. *Shouldn't* means that something (often something bad) *probably won't* happen; for example: *The team has been training very hard, so they should win their next game.*
Admission to the match is by ticket only, so it shouldn't be too crowded.

7 Rewrite these sentences using *should* or *shouldn't*. One of them can't be changed.

- 1 It would be good to go skiing this week, because the weather will probably stay fine.
- 2 The two runners are both so good that the result is likely to be a tie.
- 3 I've got a slight injury to my arm, but it's unlikely to stop me playing football next week.
- 4 I've often gone riding before, so I'll probably manage to stay on the horse.
- 5 I've never ridden a horse before, so I'll probably fall off.
- 6 The team has just missed a goal, but it probably won't make much difference to the final score.

G ... page 141

8 In small groups, discuss how to improve at sports or other activities. Consider practice, training, mental preparation, encouragement from other people, watching champions, prizes ...

Writing folder 6

Task 2: Connecting ideas 1

1 You can improve your written work by using a variety of connecting words. Decide whether the following words are closest in meaning to *and*, *but* or *so*, and write them in the correct column.

though	however
unfortunately	although
consequently	also
in addition (to)	what is more
therefore	as a result (of)
in fact	this means/meant (that)
despite (the fact that)	

and	but	so

Although the words in each column have a similar meaning to others in the same column, they can't be used in exactly the same way grammatically. Some are used to link ideas within a sentence and some to link ideas between sentences.

For example:

I love football **and** I go to all my team's matches.

I love football. **What's more**, I go to all my team's matches.

I enjoy watching ice hockey **but** I wouldn't want to play it, as it is dangerous.

I enjoy watching ice hockey. **However**, I wouldn't want to play it, as it is dangerous.

2 Decide which of the words in the table would fit in the following sentences. More than one answer is *sometimes possible*.

AND

- 1 a She has been a wonderful coach for the Scottish team., she has done a tremendous amount to help young players.
- b Ice hockey has always been a popular spectator sport., recently there has been an increase in the number of people playing the game.

BUT

- 2 a they had scored three goals by half time, they didn't win the match.
- b The team had scored three goals by half time, they didn't win the match.
- c The team had scored three goals by half time., they didn't win the match.
- d the fact that the team had scored three goals by half time, they didn't win the match.
- e the team scoring three goals by half time, they didn't win the match.

SO

- 3 a Manchester United beat Liverpool and won the cup.
- b beating Liverpool, Manchester United won the cup.
- c Manchester United beat Liverpool. they won the cup.

3 Look at the example Task 2 question below (General Training or Academic) and then read the answer opposite. Don't worry about the missing words for now.

Write about the following topic.

People today spend far more time watching sport than actually doing any themselves. What are the factors influencing this change?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

I would argue that sport has never been as popular as it is today. In fact, it does not matter where people live, sport still has a great influence on their lives - whether they play or just watch.

1 , there is growing concern that people are beginning to prefer to be spectators rather than players. 2 , they are becoming overweight and unfit. This is undoubtedly the result of the way people live today in some parts of the world. By this I mean that they are always in a rush, suffer from too much stress 3 have to work long hours. 4 , they get home too late to do anything except make a meal, watch TV and go to bed.

5 , many small towns do not have suitable sports facilities, or if they do have a sports centre, it is often too expensive to go there often.

Where I live, taking part in sport is still extremely popular, especially among young people. 6 there is no large sports centre in my town, the young people still play football and basketball. There are, 7 , some sports that it is only possible for us to watch on TV, like tennis and skiing.

8 , it seems to me that it is not what you play that is important - it is that you actually do play something.

I would like to conclude by saying that there may be some justification for claiming that fewer people are playing sport. It all depends where you live in the world. Playing sport as well as watching it is very much alive in my part of the world, and, 9 , I believe it will continue to grow in popularity.

4 In the essay some of the linking words and phrases are missing. Decide which of A, B or C would fit best in each space 1-9.

- | | | |
|-----------------|-----------------|-------------------|
| 1 A However | B Despite | C Therefore |
| 2 A In addition | B However | C Consequently |
| 3 A therefore | B and | C but |
| 4 A As a result | B Despite | C Although |
| 5 A So | B Unfortunately | C In fact |
| 6 A Although | B Consequently | C In fact |
| 7 A also | B though | C so |
| 8 A As a result | B However | C This means that |
| 9 A so | B despite | C what's more |

5 Complete the following sentences with a suitable phrase.

- 1 Although footballers can earn a lot of money, ...
- 2 Despite the fact that extreme sports are very popular, they ...
- 3 The Olympic Games bring nations together every four years. What's more, they ...
- 4 Skiing is increasing in popularity, despite the fact that ...
- 5 The college is holding trials for their athletics team this week. In addition, they ...
- 6 The team won the local cup. Unfortunately, they ...
- 7 The team managed to overcome the opposition and win the town cup. What is more, they ...
- 8 The team won the local cup. As a result, they ...
- 9 Although ..., the college is better known for its rugby team.
- 10 A good diet is vital to sportspeople, so they ...

Units 9–12 Revision

Topic review

1 How far do you agree with these statements? Give reasons for your answers.

- 1 My favourite place to live is somewhere with a hot climate.
- 2 When playing a game, the most important thing is to try to win.
- 3 People shouldn't have animals or birds living in their homes.
- 4 I try to reduce my contribution to global warming.
- 5 There are no advantages to living alone.
- 6 We can understand human behaviour better by studying the behaviour of animals.
- 7 Sport is more exciting to watch than to play.
- 8 People who can't afford to buy or rent a home should be given one free.
- 9 I try to use environmentally friendly products when I have a choice.
- 10 People should leave home when they are about 20 years old.

Grammar

Articles

2 Put *a/an, the* or *nothing* in each space.

Our earliest homes

If you were to ask a number of 1 people about the homes of our prehistoric ancestors, most would probably say that they lived in 2 caves. However, there is plenty of 3 evidence that early human beings also lived in areas where no caves existed. In fact, some of the earliest homes seem to be 4 round huts. In the Olduvai Gorge in Tanzania, there is 5 circle of 6 stones. This could be the foundation of 7 shelter that may date back nearly two million years.

8 earliest shelters may have consisted of a circle of 9 branches broken or cut from trees. 10 branches would have been leant against each other for support in the centre of 11 circle, creating a structure similar to a tent. They were probably covered with 12 animal skins or leaves. The first structures were probably very unstable, but in time, larger, stronger and more permanent structures are likely to have been created, which did not simply provide shelter, but became the centre of 13 family life, and a place where 14 possessions could be kept.

-ing forms and infinitives

- 3 Complete each sentence with the correct form of the verb in brackets.
- We'd better another look at both houses before we decide which one to buy. (have)
 - I hope into a more conveniently located flat when I start my new job. (move)
 - Most sportsmen and women practise daily in peak condition. (keep)
 - If you've finished your assignment, we can have a game of tennis. (write)
 - I'm looking forward to the differences between domestic and wild animals. (study)
 - The climate is too complex for us sure of how our actions affect it. (be)
 - The tennis coach planned a practice schedule to help the players their skills. (improve)
 - Most people understand the importance of friends close by. (have)
 - It is hard that some animals have complex social organisations. (believe)
 - Any change to our climate will mean our way of life quite significantly. (adapt)

Countable and uncountable nouns

- 4 Complete each sentence with *much* or *many* and a noun from the box, making it plural if necessary. Use each noun only once.

accommodation	animal	country
news	person	pollution
time	evidence	university
		work

EXAMPLE: How *much evidence* did they find of global warming?

- How have we got before the game starts?
- In there are laws to protect endangered species of animals.
- You can take courses in different aspects of sport at nowadays.
- I haven't found in this town that students can afford.
- How have you carried out into the behaviour of lions?
- As well as human beings, will be affected by climate change.
- Do electric cars produce ?
- I've got so to do that I won't be able to go home for another few hours.
- enjoy sports which are not competitive.
- I haven't heard about recent developments in extreme sports.

Vocabulary

- 5 Complete each sentence with a suitable word from Units 9–12. Some letters are given, and each dash represents one letter.

- Unless we increase the amount of waste re we do, we will soon be overwhelmed with our rubbish.
 - Sometimes efforts to protect en species succeed in saving them from becoming extinct.
 - When people have children, they may choose to ex their house rather than buy a larger one.
 - In many countries, the most common type of household consists of an ex family.
 - I recently took part in a w s where we discussed ways of reducing our impact on the climate.
 - Samuelson thought he had scored a goal, but the r ruled it off-side.
 - There were so many sp trying to get into the stadium without tickets that the police had to be called.
 - There is growing interest in ex sports, so new ones are being invented all the time.
 - Many elderly people choose to live in a bun because all the rooms are on the ground floor.
- 6 Complete this paragraph using phrases from the box. Use each phrase once only.

causes of	dependency on	effects of
effect on	increase in	loss of
melting of	threat to	

Scientists expect the 1 global warming to be dramatic. Higher temperatures are likely to cause the 2 the Greenland ice cap, and the resulting rise in sea levels will have a devastating 3 low-lying communities. An 4 extreme weather events, such as hurricanes, is also probable. Global warming is a serious 5 plant and animal life, as well as ourselves, and could lead to the 6 some species. The 7 global warming are not fully understood, but our 8 fossil fuels has certainly contributed to it.

1 Are these statements true for you? With a partner, answer *Yes* or *No* to each of them.

- 1 When I have to make a choice, I try to imagine what all the other possibilities are.
- 2 I spend hours shopping for clothes, trying to get something that looks perfect.
- 3 When watching TV or listening to the radio, I constantly click on to other channels so I don't miss anything.
- 4 I find writing very difficult in my own language because it's hard to get the wording just right.
- 5 I never settle for second best.

More than three *Yes* answers = You are probably a *maximiser*. *Maximisers* tend to be perfectionists.

More than three *No* answers = You are probably a *satisficer*. *Satisficers* are happy to make a quick decision and not worry about it afterwards.

Read the passage opposite to find out more.

Reading

2 Take about two minutes to skim the article to get a general idea of what it is about.

🕒 about 600 words

A

Barry Schwartz did not expect to feel inspired on a clothes-shopping trip. 'I avoid buying jeans; I wear one pair until it falls apart,' says Schwartz, an American psychology professor. 'The last time I had bought a pair there had been just one style. But recently I was asked if I wanted this fit or that fit, or this colour or that. I intended to be out shopping for five minutes but it took an hour, and I began to feel more and more dissatisfied.'

10 This trip made him think: did more choice always mean greater satisfaction? 'I'd always believed that choice was good, and more choice was better. My experience got me thinking: how many others felt like me?'

B

16 The result was a widely discussed study that challenged the idea that more is always better. Drawing on the psychology of economics, which looks at how people choose what to buy, Schwartz designed a questionnaire to show the differences between what he termed 'maximisers' and 'satisficers'. Broadly speaking, maximisers are keen to make the best possible choices, and often spend time researching to ensure that their purchases cannot be bettered. Satisficers are the easy-going people, delighted with items that are simply acceptable.

C

30 Schwartz puts forward the view, which contrasts with what politicians and salesmen would have people believe, that the unstoppable growth in choice is in danger of ruining lives. 'I'm not saying no choice is good. But the average person makes at least 200 decisions every day, and I don't think there's room for any more.' His study may help to explain the peculiar paradox of the wealthy West – psychologists and economists are puzzled by the fact that people have not become happier as they have become richer. In fact, the ability to demand whatever is wanted whenever it is wanted has instead led to rising expectations.

D

40 The search for perfection can be found in every area of life from buying soap powder to selecting a career. Certain decisions may automatically close off other choices, and some people are then upset by the thought of what else might have been. Schwartz says, 45 'If you make a decision and it's disappointing, don't worry about it, it may actually have been a good decision, just not as good as you had hoped.'

E

One fact that governments need to think about is that people seem more inclined to buy something if there are fewer, not more, choices. If that's true for jeans, then it is probably true for cars, schools and pension funds. 'If there are few options, the world doesn't expect you to make the perfect decision. But when there are thousands it's hard not to think there's a perfect one out there, and that you'll find it if you look hard enough.'

F

If you think that Internet shopping will help, think again: 'You want to buy something and you look at three websites. How long will it take to look at one more? Two minutes? It's only a click. Before you know it you've spent three hours trying to decide which £10 item to buy. It's crazy. You've used another evening that you could have spent with your friends.'

G

Schwartz, who describes himself as a natural satisficer, says that trying to stop our tendency to be maximisers will make us happier. 'The most important recommendation I can give is to lower personal expectations,' he says. 'But no one wants to hear this because they all believe that perfection awaits the wise decision maker. Life isn't necessarily like that.'

3 Questions 1–7

The reading passage has seven paragraphs labelled A–G. Which paragraph contains the following information (1–7)?

NB You may use any letter more than once.

Example:

Look at question 1. The type of information and the topic of the information which you have to find has been underlined.

The answer is **A**. See the underlined words, where the writer talks about his shopping trip to buy a pair of jeans. Note that in this type of task the questions are not in the same order as the relevant information in the passage.

- 1 an account of a personal experience
- 2 why some advice may be rejected
- 3 a finding that confuses experts
- 4 the emotional effect of the result of making a choice
- 5 information about how Schwartz's research was undertaken
- 6 how a lack of choice affects decision making
- 7 a definition of two types of personality

Questions 8 and 9

Choose the correct letter, **A, B, C** or **D**.

- 8 Which phrase best describes Barry Schwartz's reaction to buying jeans?
 - A annoyance at having spent more money than he intended to
 - B delight at being able to find exactly what he was looking for
 - C acceptance of the amount of time he needed to spend shopping
 - D irritation at the end of his shopping trip
- 9 A suitable title for this article would be
 - A When to make that decision
 - B Too much choice
 - C Decision making for the indecisive
 - D A psychologist's choice

Vocabulary Collocations with adverbs

4 Adverbs are frequently used in academic writing; for example, a widely discussed study.

Complete each sentence with an adverb from the box.

anxiously	firmly	hardly	highly
hugely	justly	totally	widely

- 1 The psychologist was thought of by his students.
- 2 The government believes that choice has an important role to play in people's lives.
- 3 The shopping trip was successful – I bought three pairs of jeans.
- 4 Piet was waiting to hear if he had got a place at university.
- 5 They were wrong in their assumptions.
- 6 These trainers are available in the USA.
- 7 The class were proud of the questionnaires they had written.
- 8 I recognised Tim when he came into the room – he had changed so much.

Grammar Conditionals

1  You are going to hear four short extracts, where people talk about choices.

Which speaker (A–D) is talking about ...

- 1 something that always happens?
- 2 something that will probably happen?
- 3 something that is unlikely to happen?
- 4 something that could have happened in the past, but didn't?

2  Listen again. Which *if* sentence does each person use?

- A If
- B If
- C If
- D If

Note: *If* can begin a sentence, or it can begin the second part of the sentence.

There are other words that can be used instead of *if*.

- *as long as* is used to make conditions
You can do the course **as long as** you have the required grades. = You can do the course if you have the required grades.
- *unless = if ... not*
I'll go shopping with you tomorrow, **unless** it's raining. = I'll go shopping with you tomorrow if it isn't raining.

3 Match sentences 1–10 with their endings a–j.

- 1 I would have bought a faster car,
 - 2 If Marisa were unhappy,
 - 3 If I sold my bike,
 - 4 If there is a fire,
 - 5 We can take the train,
 - 6 Unless you take more exercise,
 - 7 If you inherited some money,
 - 8 If you had studied law,
 - 9 I'll get a new coat,
 - 10 I'll ring you straight away,
- a if the flight costs too much.
 - b you should ring the emergency services.
 - c you won't feel better.
 - d I wouldn't get much for it.
 - e would you give any away?
 - f as long as I can find a bargain.
 - g you wouldn't have been any happier.
 - h if I have any problems.
 - i if I had had a choice.
 - j she'd say so.

4 With a partner, discuss how you could finish these sentences.

- 1 Unless you wear something smart, you ...
- 2 I would have bought a new CD ...
- 3 If I were you, ...
- 4 If I had had the chance, ...
- 5 As long as you let me choose the film, I ...
- 6 If I had to choose between studying at home and studying abroad, I ...
- 7 I won't go shopping unless ...
- 8 I'll buy ... if ...

5 The following sentences show common errors that IELTS candidates have made with conditionals. Correct the errors.

- 1 It be best if the children were in bed when we go out tonight.
- 2 You will not go wrong if you chose her for your secretary.
- 3 If I ever will have money, I will be spend it wisely.
- 4 What would happen if the cheque would go missing?
- 5 If you would choose to live in the town centre, you'd need to pay more.
- 6 Unless we will hurry, we will be late.
- 7 I would appreciate it if you would have written back to me.
- 8 I would be grateful if you reply as soon as possible.

Listening

- 6 Look at the photographs above. Where would you prefer to do your shopping, at A or B?
- 7 You are going to hear a tutorial with a number of people speaking, which is similar to Part 3 of the Listening Module. Listen once and say how many people are speaking. Does the number of people make a difference to your understanding?
- 8 Read through each set of questions very carefully before you listen to the relevant part of the recording.

Questions 1–3

Choose the correct letter, A, B or C.

- At the start of the tutorial, the tutor wants to know how the students would feel about having
 - no choice.
 - too much choice.
 - a few choices only.
- The tutor says that the economy works because
 - people copy what others buy.
 - some people have more than others.
 - not everyone is the same.
- What point is the tutor making about American TV?
 - There are too many channels.
 - People rarely watch all the available channels.
 - Most Americans watch too much.

Questions 4–10

Complete the notes below.

Write **NO MORE THAN THREE WORDS** for each answer.

Tutorial Notes

If you are buying **4** , then choice is a good thing.

Mobile phone contracts are an example of what is called **5** '.....'.

You might buy a loaf of bread on the basis of **6** and

When you buy a house, the **7** is the most important factor.

Three strategies:

- to buy the same as **8**
- to buy the latest thing – being known as a **9**
- to buy something unique – such as **10**

Speaking Part 3

- 9 Discuss these questions with a partner. Make sure you give reasons for your answers.
- Do you believe the theory that too much choice is bad for you?
 - What choices did you have to make today?
 - Have you ever had to make a really difficult choice?
 - If you have to choose between two things, how do you personally make that decision? Do you toss a coin, decide on the evidence ...?

Useful language

Clarification

What I mean is that ...
 Let me put this another way ...
 What I'm trying to say is ...
 My point is that ...

Test folder 7

Locating information

(Academic Reading and General Training Reading Modules only)

You might be asked which paragraph or section of a passage contains certain information.

The answers only come from those paragraphs or sections that are labelled alphabetically.

The information in the questions doesn't come in the same order as in the passage.

The questions generally say what *type* of information you must find, such as an explanation, an example, a recommendation, how, why, etc. They are not paraphrases of the information itself.

Advice

- Skim the whole passage before you start working on any of the tasks. Read the instructions carefully.
- Read the questions and think about what they mean. Underline the key words in the questions, both the *type* of information (explanation, how, etc.) and the *topic* itself.
- Read the first labelled paragraph carefully. Read all the questions, and write the paragraph letter by any questions that match information in the paragraph. Remember to check both the *type* of information and the *topic*.
- Continue with each of the labelled paragraphs in turn. Where you have more than one possible answer, re-read those paragraphs and choose the one that fits the question best.
- Your answers should be A, B, C, etc: don't write line numbers or anything else.
- Unless the instructions tell you that you can use any letter more than once, make sure all your answers are different.

- 1 This passage is similar to those in the Academic Reading Module, but only about 550 words. The task is typical of both Reading Modules. The idea of different 'thinking hats' comes from the idiom 'put your thinking cap on', which means 'think hard'.

Six Thinking Hats – Looking at a decision from all points of view

A Faced with a number of choices, we may find it hard to make a decision, or may always approach problems in the same way. Emotional people, for example, may not consider decisions calmly and rationally. Many successful people think from a very rational, positive viewpoint, and this is one reason for their success. Often, though, they fail to look at a problem from an emotional, intuitive, creative or negative viewpoint. By always using a positive approach, they may underestimate possible difficulties – such as resistance to their plans – and be under-prepared for dealing with future problems.

B 'Six Thinking Hats' is a valuable technique for increasing the effectiveness of decision-making. Created by Edward de Bono, it makes you consider the decision from a number of perspectives, forcing you to add different ways of thinking to your usual approach. This gives you a fuller view of a situation. As a result, your decisions and plans will be ambitious, creative and sensitive to the needs of others. They will be carried out effectively, and you will be prepared for the unexpected. You can use Six Thinking Hats with other people or on your own. With others, it has the benefit of blocking the confrontations that happen when people with different thinking styles discuss the same problem.

C Each 'Thinking Hat' is a different style of thinking. With the White Thinking Hat you focus on the data available. Look at the information you have, and see what you can learn from it. Look for gaps in your knowledge, and either try to fill them or take account of them. This is where you analyse past trends, and try to work out from historical data what might happen in the future. 'Wearing' the Red Hat, you look at problems using intuition, instantaneous reactions, and emotion. Also try to think how other people will react emotionally. Try to understand the responses of people who do not fully know your reasoning.

D Using Black Hat thinking, look at all the bad points of the decision. Look at it cautiously and defensively. Try to see why it might not work. This is important because it highlights the weak points in a plan. It allows you to eliminate them, alter them, or prepare contingency plans to deal with problems that might arise. Black Hat thinking helps to make your plans

'tougher' and better able to survive difficulties. It can also help you to spot fatal flaws and risks before you start on a course of action.

E The Yellow Hat encourages you to think positively. It is the optimistic viewpoint that helps you to see all the benefits of the decision and the value in it. Yellow Hat thinking helps you to keep going when everything looks gloomy and difficult. The Green Hat stands for creativity. This is where you can develop creative solutions to a problem. It is an unstructured way of thinking, in which there is little criticism of ideas. A whole range of creativity tools can help you here.

F The Blue Hat stands for process control. This is the hat worn by people chairing meetings. When running into difficulties because ideas are running dry, they may direct activity into Green Hat thinking. When contingency plans are needed, they will ask for Black Hat thinking, and so on.

The passage has six paragraphs labelled **A–F**. Which paragraph contains the following information?
NB You may use any letter more than once.

Example:

Read paragraph **A**. The last sentence contains the information in question 2, so the answer to 2 is **A**.

- 1 a method of thinking which discourages objections to suggestions
- 2 a potential disadvantage of considering a problem from only one angle **A**
- 3 possible benefits of identifying negative aspects of a plan
- 4 how the Six Thinking Hats technique can help to prevent conflict in a meeting
- 5 a method of thinking where one person in a group changes the style of thinking that is required
- 6 a description of decisions made using the technique
- 7 how to use what you already know
- 8 a way of making you feel more cheerful

Do roles limit our choice of how we behave?

A We all have many roles and often switch between them, as we interact with different people in different situations. In the course of a single day, one person may need to act as manager, husband, father, son, friend, and so on.

B Associated with each role is a distinct pattern of behaviour which is considered typical of a person in that particular position, and this becomes part of the role. Fathers are expected to behave in certain ways, and managers in others, which perhaps include making decisions quickly, 'looking the part' by dressing differently from those below them in the company hierarchy, and speaking in a certain style. Clearly expectations are a product of a particular time and place: expectations connected with the role of manager or adult daughter may be different from what is expected in other cultures, or in the same culture a century ago. These expectations affect how people behave in roles, how they feel they ought to behave, and how they believe other people should respond to their actions.

C Roles are normally taken in relation to an appropriate other person, in an appropriate context.

Doctors are expected to take our pulse, maintain a degree of professional distance and wear white coats when we encounter them in hospitals, but they are not expected to do this all the time – when we meet them at parties or in the street, for instance.

D Expectations about the behaviour associated with particular roles influence our actions. Although we have some degree of choice in our conduct, the expectations and patterns of behaviour connected with our roles encourage us to conform with the norm. Managers, for instance, may feel under pressure to behave in an authoritarian manner, even if this conflicts with their personality and general approach to interaction with other people. Choosing to behave in a way that conflicts with other people's expectations can create a wide range of problems.

E On the other hand, expectations simplify social contact, as they make it unnecessary to analyse every individual situation we find ourselves in. Instead, once we know the relevant role of the other person, we assume that they will behave in certain ways, and that we, too, need to behave in certain ways.

- 2 This is similar to passages in the Academic Reading Module but is only about 375 words. The task is typical of both Reading Modules.

The passage above has five paragraphs labelled **A–E**.

Which paragraph contains the following information?

NB You may use any letter more than once.

- 1 examples of situations in which particular role behaviour is considered unsuitable
- 2 how clothing might be chosen to differentiate between people at different levels within an organisation
- 3 a suggestion that people may be uncomfortable with the way they are expected to behave
- 4 an example of an individual taking a number of roles
- 5 how a person's role affects other people's response to them
- 6 a claim that the behaviour expected as part of a particular role is not always the same

The importance of colour

1 What do you think about the colours used for the iPod Mini, car and ketchup above?

Listening

Test spot

It is important to listen for what is relevant to the questions. You don't need to understand everything.

2 You are going to hear a man talking about how the colour of a consumer item affects how popular it is with the public. Read each set of questions and try to guess what the answers might be before you listen.

Questions 1-4

Which colour is the most popular for items 1-4?

- A black
- B blue
- C green
- D grey
- E red
- F silver
- G white

Write the letter A-G next to each item.

- 1 business suits
- 2 offices
- 3 national flags
- 4 the iPod Mini

Questions 5-8

Write the name of the colour in the right place on the key to the chart below.

Global colour trend data – Cars 2004

Questions 9 and 10

Complete the lines on the graph.

You won't have to draw in the IELTS Listening Module, but this exercise will help you to listen for detailed information.

Percentage of vehicles sold 1987-2001

Writing extra

- 3 The verbs in the box are used to describe changes. Put them in the right column of the table below. ... WF 2

to be consistent	to make progress
to be steady	to pick up
to decline	to plummet
to fall	to remain constant
to grow	to remain unchanged
to improve	to rise
to level off	to weaken

to go down	to remain stable	to go up

- 4 Look at the graph you completed for Questions 9 and 10 in exercise 2. Work with a partner and use the vocabulary above to describe the graph. Then, write a paragraph for the blue and green vehicle data.

Pronunciation *Linking words*

English links words together smoothly so a final consonant of a word can sound like the first consonant of the next word, particularly if the next word starts with a vowel. This means that it can be hard to tell the difference between, for example, *I scream* and *ice cream*.

- 5 First listen to the examples. Then listen to the rest of the recording and notice how the words are generally linked together. Then, read it through to your partner.

EXAMPLES: black_orange, red_apple, green_egg

Although blue can be quite a popular colour generally, it is the least attractive colour when it comes to food because of the way we have learnt to look at blue-, black- or purple-coloured foods. Psychologically, these foods resemble food spoilt by bacteria or food which is poisonous. However, one food giant is aiming to boost ketchup sales by introducing blue ketchup. The flavour remains unchanged and the price is a little higher than for the red ketchup, but it is popular with children.

Speaking Part 3

- 6 What colour do you normally wear? Look at the chart below and see what personality type you are. Use an English-English dictionary to check you understand the adjectives describing personality.

- 7 With a partner, discuss the following questions. Make sure you give reasons and expand your answers.

- 1 Do you think you can tell what someone's personality type is by the colour they normally wear?
- 2 In your country, do any colours have a particular significance? What colour do people wear at weddings or funerals, for instance?
- 3 What do you think is the role of colour in our lives?
- 4 How important is colour in advertising?

Useful language

I haven't thought about it before, but it seems to me ...

Listening

- 1 Listen to a girl talking about what happened at college today. What colours are mentioned? What is said about the colours?
- 2 Listen again and answer these questions.
 - 1 What subject is the student studying?
 - 2 Is she usually late for seminars?
 - 3 Why was she late this morning?
 - 4 What did Dr Stanley do when she entered the room?
 - 5 What did Dr Stanley go on to talk about?
 - 6 Why did Dr Stanley stop?
 - 7 What did the girl do to try to keep awake?

Grammar -ing forms and infinitives 2

- 3 Look at the pairs of sentences below. They are taken from the recording. Why does one sentence use an *-ing* form and one an infinitive with *to*?
 - 1 a I didn't remember to switch my alarm clock on.
b I remember getting into bed but that's about all.
 - 2 a Dr Stanley stopped talking and just looked at me.
b He then stopped to show us a video.
- 4 Discuss with your partner the difference in meaning, if any, in the following pairs of sentences.
 - 1 a I tried to keep awake, but it was no good.
b I tried opening the window to get some air in the room.
 - 2 a He went on talking while I found a seat.
b He went on to say that many people suffer from colour blindness.
 - 3 a They began painting when I came into the room.
b They began to paint when I came into the room.
 - 4 a I like studying zoology.
b I like to get up early in the morning.

G ... page 142

- 5 Complete these sentences using the verb in brackets and your own ideas.

EXAMPLE: When I was on my way to college, I stopped ... (look)
When I was on my way to college, I stopped to look in a shop window.

- 1 When I couldn't wake up in time for school, I tried ... (ask)
 - 2 When I realised I had forgotten my wallet, I tried ... (borrow)
 - 3 When I was young, I remember ... (go)
 - 4 I asked them to keep the noise level down, but they went on ... (play)
 - 5 At the weekends, I like ... (go shopping)
 - 6 Next time, you must remember ... (take)
- 6 With a partner, discuss these questions. Use the right form after the verb.

EXAMPLE: (answer to 1) *Seeing my brother come home covered in sticky brown mud.*

- 1 What is your first colour memory?
- 2 What sort of things do you forget to do?
- 3 What would you do if had an argument with your best friend? (Use *try*.)
- 4 What do you like to do first thing in the morning?

Vocabulary Confused words

- 7 The following sentences contain words that IELTS students often confuse. Circle the correct alternative, then write another sentence showing how the other word is used. Use an English-English dictionary to help you if necessary.

EXAMPLE: If you're a banker, it's a good idea to wear sensible / sensitive dark suits to work.
Steve is very sensitive about being colour-blind.

- 1 I *borrowed* / *lent* Tony the book about personality and colour.
- 2 *Remind* / *Remember* me of the colour you've decided to have.
- 3 You can't take the paint back to the shop without a *recipe* / *receipt*.
- 4 The seller *raised* / *rose* the price of the painting by twenty per cent.
- 5 Many famous artists have painted the *countryside* / *nature* around my town.
- 6 You need to *check* / *control* whether you can get shoes the same colour as your dress.
- 7 What *affect* / *effect* will painting the common room bright red have?
- 8 It is not *economic* / *economical* to use cheap paint.

- 9 *In the end / At the end* of the fashion show, she decided to wear only red.
- 10 *Standards / Levels* of living have risen in Europe since 1950.
- 11 The *journey / travel* to the Blue Mosque took four days.
- 12 The *discovery / invention* that some colours appeal more than others was significant.

Comment adverbs

Comment adverbs are very common in both academic writing and speaking. They allow the writer/speaker to indicate how likely they think something is and what their attitude or opinion is, or what viewpoint they are speaking from. Look at these two examples.

Interestingly, he went on to say ...
[I think this is interesting]

Psychologically, these foods resemble food spoilt by bacteria. [from the psychological point of view, i.e. in our minds]

- 8 Replace the underlined part of each sentence with one of the comment adverbs from the box. More than one choice may be possible.

disappointingly	generously	honestly
interestingly	logically	obviously
personally	statistically	surprisingly
wisely		

- 1 Although there would appear to be a lot of blue cars on the road, from the point of view of percentages, silver is more popular.
- 2 In my opinion, I can't see any reason for not eating blue food.

- 3 Matt gave a lot of money to help redecorate the children's playroom.
- 4 If $A = B$, then it follows that $B = A$.
- 5 I was very interested to find out that red is a lucky colour in China.
- 6 You are, it goes without saying, wrong in thinking all animals can see in colour.
- 7 It's a pity but very few people went to the exhibition on the history of colour.
- 8 To be frank, I think driving a red car would make you more likely to have accidents than driving a black one.
- 9 You may not know this but 8% of men are colour blind.
- 10 Tania, in what was a very good decision, decided to apply to study biology rather than art.

- 9 In small groups, choose a colour and talk about it, using as many comment adverbs as you can. Use the adverbs opposite and the extra ones below.

clearly	kindly	stupidly
undoubtedly	luckily	wrongly
probably	unbelievably	

EXAMPLE: My father generously painted my bedroom purple a couple of years ago, as a surprise for me. Clearly, it was kindly meant, but personally, I don't believe anyone can get a good night's sleep in a purple room. Unbelievably, my mother then went on to buy me black bed covers. Luckily, I went to college soon after and my sister got my room.

Writing folder 7

Task 2: Making a general statement, giving examples and using comment adverbs

Making a general statement

It is often necessary in academic writing to make general comments as you may not know exact figures or information. You should try to avoid definite statements using *all*, *always* or *never*.

- 1 Compare the sentences below. Which one is more general and formal?
A Advertising agencies use colour to sell a product.
B It is widely recognised that the majority of advertising agencies use colour to sell a product.
- 2 Using the language in the box below, make the following statements more general.
 - 1 Blue is a cold colour and shouldn't be used to paint living rooms.
 - 2 The colour of the packaging influences customers' choice of products.
 - 3 Green is the colour of environmental awareness.
 - 4 Driving a red car means that you like speeding.
 - 5 More women than men wear bright colours.
 - 6 Red is the best colour for a national flag.

Useful language

There is a tendency for ...
It appears/seems that ...
It would appear/seem that ...
It is (often) said that ...
It has been suggested/claimed that ...
It is generally agreed/believed/assumed/recognised that ...
It is widely accepted/believed/assumed that ...
... tends to be ...
... is recognised/believed/thought to be ...
In a majority / a large number of cases, ...
Broadly/Generally speaking, ...
On the whole, ...

Giving examples

The instructions for Task 2 in both the Academic and General Training Writing Modules state:

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

- 3 Finish this paragraph using the words in italics and phrases from the Useful language box below.

Colour blindness does not seem to affect a person's day-to-day life. People who are colour blind tend to adapt, and some people go through life without even knowing they are colour blind. The only problems that people with defective colour vision face are in some career choices.

pilot, police officer, fire fighter, train driver, red and green lights

Useful language

A pilot, for instance / for example, needs to ...
For instance / For example, a pilot needs to ...
An illustration of X is ...
The following are examples of X: ... and ...
such as

Don't use abbreviations such as *e.g.*

4 Discuss the following statements with a partner and give examples from your own knowledge or experience.

- 1 When you consider animals, the male is usually more colourful than the female.
- 2 Colour helps companies to sell their goods.

Choose one of the statements above and write a paragraph, giving examples.

Comment adverbs

5 Complete the following paragraph using one of the adverbs, A, B or C in each space.

1 I believe that both men and women should pay more attention to the way they dress, especially when it comes to the colours they wear. I shall first of all discuss the choices men have when it comes to clothes. 2 men feel they need to wear something conventional to work like a dark suit, but 3, there is still room for individuality in their choice of shirt and tie. 4, men should have the same choices as women when it comes to dress and not feel that they are forced to wear something they do not like or feel comfortable in. 5, many men do not feel they can challenge the system and introduce more colour into their clothes.

- | | | |
|---------------------|----------------|-----------------|
| 1 A Unfortunately | B Personally | C Apparently |
| 2 A Understandably | B Frankly | C Totally |
| 3 A statistically | B unbelievably | C clearly |
| 4 A Honestly | B Ideally | C Interestingly |
| 5 A Disappointingly | B Wisely | C Personally |

6 Answer the following Task 2 question. Remember to generalise, exemplify and use comment adverbs.

You should spend about 40 minutes on this task.

Write about the following topic:

The world would be a poorer place without colour.

To what extent do you agree with this statement?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

Remember ...

- to make a plan
- to make sure you have an introduction, two or three paragraphs giving reasons and examples, and a conclusion
- to check for errors – spelling, grammar, punctuation
- to check you have written enough.

Speaking Parts 1 and 3

- 1 In small groups, discuss these questions.
- Do you like meeting new people?
 - Do you like meeting people from other countries?
 - How do you make guests feel welcome?
 - What usually happens when people in your country invite guests to their home?

Reading

- 2 You are going to read a passage by a British woman who spent most of 2001 staying with a family in a foreign country in order to study everyday life there. In small groups, think about the problems that she may have had and also the things that she may have enjoyed. Then read the passage quickly to check if any of your ideas are mentioned.

🕒 about 700 words

Different forms of hospitality

As a British woman social anthropologist, I once spent a year in Moldova, in eastern Europe, studying everyday life in the country. I stayed with a Moldovan family, to see from the inside how people managed their lives. I had a wonderful time, and made many new friends. What I observed is of course based on my own experience, at a particular place and time.

I often found it surprisingly difficult to see life there through the eyes of a Moldovan. This was because the people I met were extremely hospitable and I was treated as an honoured guest at all times. As my hosts, they wanted me to enjoy myself, and not to get involved in shopping, cooking, or other domestic chores. Most mornings I was encouraged to go out to explore the city, or carry out my research, and I returned later to find that my elderly landlady and her sister had travelled across the city on buses to the central market to bring back heavy loads of potatoes, a whole lamb, or other large quantities of produce.

I was often invited to people's homes, and was always offered food on entering. Most of the adults I met enjoyed inviting friends, family, neighbours, colleagues and even

strangers into their homes, where they treated them to food, drink, and a lively, hospitable atmosphere. Hosts hurried to serve guests as well and as quickly as possible. When a household was expecting guests, large amounts of food were prepared in advance, usually by the women. Wine had already been made, generally by the men, who were also responsible for pouring it. Unexpected visitors were still offered as much food and drink as the household could provide in the circumstances.

At the time of my visit, it was not always easy to buy food. Grocery stores tended to be rather expensive and difficult to find, and so people usually shopped in markets instead. Because few of the people I knew owned cars, most had to make frequent trips to the market on foot or crowded buses. People regularly travelled to several locations to purchase food and other necessities. City inhabitants were also involved in complex food exchanges with their home villages.

There were many similarities to my experience of Russia during visits in the 1990s. Here too, I found that people often put enormous effort into providing very generous meals for guests. In fact, my Russian hosts seemed to

3 Questions 1–8

Complete the summary below using words from the box.

A year in Moldova

The writer spent a year in Moldova as a member of a local 0 *household* , and studied the 1 of daily life. As a 2 , she was not expected to help with domestic 3 She found that making and serving 4 was seen as men's work, while women were responsible for other aspects of providing 5 Buying 6 generally required long journeys to 7 by 8

bus	car	customs	duties	groceries	guest	homes
host	household	markets	meals	people	problems	
resident	shops	villages	wine			

feel that they could only succeed in their role as host if their guests tried all the courses of the meal, and consumed far more than they would normally.

My impression was that there was a clear, generally accepted understanding of how hosts should behave. They were expected to provide large amounts of food, and to ensure that guests ate a great deal. All the chores – the shopping, preparation, washing up – were the responsibility of the hosts, and a guest's offer to help was usually politely refused. Guests were unlikely to be allowed into the kitchen.

In England the roles of host and guest tend to present a different picture, in ways that some might welcome and others regret. The two roles are less strictly defined as the English move towards more casual notions of hospitality than in the past. Perhaps to make guests feel at home, they may be invited into the kitchen to talk, and an offer to help with the cooking may well be accepted. Although traditionally cooking was women's work, nowadays far more men either help with or take charge of the food preparation.

In general, guests are expected to eat as much, or as little, as they like – so many people are on a diet that this is accepted as an adequate reason for not eating much. Hosts usually don't feel that their food, cooking skills or hospitality are being criticised if a guest refuses second helpings. And after the meal, a guest who offers to help with the washing up may be disappointed to find that their offer is accepted! Unexpected visitors will probably be offered a cup of tea or coffee, and perhaps a biscuit, but an offer of food is not regarded as essential.

Question 9

What does the writer say about hospitality in Russia?

- A People see it as their duty to invite guests, even if they do not enjoy being a host.
- B Certain food is kept for special occasions when guests are present.
- C Foreign visitors are likely to be treated differently from Russian guests.
- D Hospitality is seen as an occasion for guests to eat more than usual.

Questions 10–13

Which **FOUR** of the following activities by guests in England are mentioned by the writer?

- A bringing food or drink
- B helping to prepare food
- C eating a small amount
- D praising the host's cooking
- E refusing food
- F helping to wash up
- G inviting hosts to their home

Speaking Part 2

4 Look at this task.

Describe an occasion when you were a guest in someone else's home.

You should say:

why you went to that person's home

what you did while you were there

how that person behaved towards you

and explain how you felt about being a guest.

In small groups, think of as many ideas as possible, for example:

- *why you went to that person's home:*
I visited my grandparents, as I do every week.
I went home with a friend, whose parents invited me to join them for lunch.
- *what you did while you were there:*
I helped my host to cook dinner.
We chatted, then went out for a walk.

1 In small groups, discuss how people in your country feel about these aspects of social interaction.

- Eye contact
- Shaking hands
- Punctuality
- Personal space

Listening

2 You are going to hear part of a seminar for business students about customs in Japan, Arab countries and the USA. Read the questions before you listen. Even if you think you know the answer, listen to check what the speakers say.

According to the speakers, where is each type of behaviour (1–8) usual?

- A Arab countries
B Japan
C USA

Write the correct letter, **A**, **B** or **C**, by each question.

Example:

0 saying 'no' **C**

Bill says, 'In the US ... many people pride themselves on saying what they mean. If they want to say 'no', they come straight out with it.'

- 1 looking away
- 2 strong handshake
- 3 keeping visitors waiting
- 4 arriving late
- 5 social conversation in business meeting
- 6 personal space of around 30 cm
- 7 nodding the head to greet someone
- 8 keeping distance from strangers

3 Listen to part of the recording again.

Complete the sentences below.

Write **NO MORE THAN THREE WORDS** for each answer.

- 1 According to Helen, people feel more with the customs that they are familiar with.
- 2 According to Bill, Americans usually give negative information quite explicitly and
- 3 If you look at an American who is speaking to you, they will consider you
- 4 In Japan, people show by looking away from the speaker.
- 5 In the USA, shaking hands firmly is interpreted as showing
- 6 In Arab countries, time is regarded as a
- 7 If you keep an American waiting for half an hour or more, they may think they are not to you.

Grammar Talking about possibilities

May and might

Look at this question and the answer.

Question: *Could you speculate on how customs in your country will change in the next twenty years?*

Answer: *We might start having our main meal in the evening instead of at lunchtime.*

Candidates are often asked to speculate about the future in the Speaking Module. You can use *may* or *might* to refer to present or future possibilities. *May* is usually slightly more sure than *might*.

4 Rewrite the following answers to the question above, using *may/might* (not).

- 1 Customs will possibly become more similar to those in other countries.
- 2 Maybe shaking hands won't be so common in future.
- 3 It's possible that people will copy the customs they see in foreign TV programmes.

May have done and *might have done* refer to possibilities in the past. This question is one that could be asked in the Speaking Module. Rewrite the answers (4–6) using *may/might* (not) *have*.

How different do you think customs were fifty years ago?

- 4 Perhaps people didn't eat much foreign food.
- 5 Maybe people were more hospitable.
- 6 One possibility is that people didn't spend much time enjoying themselves.

Must and can't

The American comedy film *If it's Tuesday, this must be Belgium*, is about a group of Americans who tour Europe, visiting nine countries in eighteen days. Here *must* expresses a deduction, or logical conclusion, not a fact: the speaker doesn't *know* that they are in Belgium, but they can work it out from their tour schedule.

5 Match each explanation (1–4) with the right example (a–d).

A deduction (logical conclusion), or strong belief that

- 1 something in the present is true
 - 2 something in the present is impossible
 - 3 something in the past is true
 - 4 something in the past is impossible
- a That *can't be* Daniel – he's away on a business trip at the moment.
 - b You get so many invitations to people's homes, you *must have* a lot of friends.
 - c You *can't have seen* my aunt in Montreal – she didn't live there when you visited Canada.
 - d This meal is delicious! It *must have taken* you a long time to cook it.

G ✎ page 142

6 In small groups, decide what you might say to the person in each of these situations. Start each sentence with *You must* or *You can't*.

EXAMPLE: Somebody has tried to connect up their new computer, but it doesn't work.
You can't have read the instructions.

- 1 Your friend tells you he hasn't slept for two nights.
- 2 Somebody tells you that Kazumi Ohno is a doctor, but Kazumi had already told you he is a dentist.
- 3 You've arranged to meet a friend's mother, Sally Green, for the first time. A woman is waiting in the right place at the right time.
- 4 You send an email to your friend Nur, but it is returned with the message that the address does not exist. You tell another friend about this. (Begin *Nur must ...*)
- 5 You left a message for your friend Hasan asking him to call you urgently, but you haven't heard from him. Another friend asks you if you have heard from Hasan. (Begin *No – he can't ...*)

Vocabulary

Collocations with *big*, *large* and *great*

Look at these phrases from the reading and listening passages:

- large amounts of food*
- a great deal of information*
- a big difference*

Some nouns can collocate with more than one of the adjectives, often *big* and one of the other two.

7 Write *big*, *large* and *great* at the top of the appropriate column, A, B or C. Which one is not normally used with physical objects?

A:	B:	C:
a ... amount	a ... advantage	a ... advantage
to a ... extent	a ... surprise	a ... impact
a ... proportion	a ... impact	(a) ... difficulty
a ... measure (e.g. of agreement)	(a) ... difficulty	a ... problem
a ... number	a ... problem	a ... difference
a ... quantity	a ... difference	a ... city
a ... sum (e.g. of money)	a ... deal (of ...)	a ... family
a ... family	... importance	a ... house
a ... house	a ... honour	
	(a) ... success	
	to take ... care of	
	a ... distance	

8 Choose the most suitable nouns from the table in exercise 7 to complete this passage. Use a different noun for each space. As the style is fairly formal, *big* isn't used here.

It's a great 1 to be here to talk to you today about my research in China. In fact, I was very surprised to receive the invitation, as my work in social anthropology is to a large 2 unknown. I've had a large 3 of articles published, but mostly in academic journals.

Choosing to carry out my research in China was a difficult decision. It meant I would have to spend a large 4 of time, and a large 5 of money, learning the language. Luckily I have the great 6 that I'm half Chinese, and speak some Cantonese. It also meant spending a year at a great 7 from my family. However, I'm very glad I chose to go there, and my year in China was a great 8 in terms of my research.

Test folder 8

Classification

(Academic Reading, General Training Reading and Listening Modules)

You may be asked to classify several pieces of information from the passage, choosing among the same options (normally three) in each case. The options are all of the same type, for example, three time periods, three countries, three opinions, and so on. They could also be, for example, *before 1950 / after 1950 / both or satisfied / dissatisfied / neither*.

In the Listening Module the questions follow the order of information in the passage. In the Reading Modules they do not.

Advice

Reading Modules

- Skim the whole passage before you start working on any of the tasks.
- Read the instructions carefully and think about the meaning of the three options. Check what letters you should use for your answers: they may be A, B and C, or three other letters.
- Read the first question, and underline the key words. Find the relevant part of the passage. Read it carefully and consider all three options before choosing the correct one.
- Read the next question and find the relevant part of the passage. Remember that it might be *anywhere* in the passage.
- Always give an answer – you won't lose any marks if it's wrong.

Listening Module

- Use the time you are given to read the instructions carefully and think about the meaning of the three options. Check what letters you should use for your answers: they may be A, B and C, or three other letters.
- Listen for each answer in turn. Consider all three options before choosing your answer.
- Always give an answer – you won't lose any marks if it's wrong.

Listening

1  You will hear a short conversation similar to Section 1 of the Listening Module.

What is the relationship of the following people to the man?

- Write **C** if the person is the man's colleague
F if the person is the man's friend
R if the person is the man's relative

Write the correct letter, **C, F or R**, after each person.

Example: Douglas Answer: F (*We met a few years ago ... We've stayed in touch*)

- 1 Rachel
- 2 Suzanne
- 3 Jack
- 4 Melanie

2  This task is similar to Section 3 of the Listening Module.

What does the student decide about including each topic in her current assignment?

Write the correct letter, **A, B or C**, after each topic.

- A** She will include it.
B She will not include it.
C She may or may not include it.
- 1 families
 - 2 social groups
 - 3 work teams
 - 4 acquaintances
 - 5 friends

Reading

Read this passage, then answer the questions below.

How English family life has evolved since the eighteenth century

The majority of English families of the pre-industrial age – roughly until the mid-eighteenth century – lived in a rural location. Many of them owned, or had the use of, a small piece of land, and virtually all family members were engaged in agricultural work in one form or another, usually growing food for their own consumption and sometimes also producing food or other goods for sale.

The labour was controlled by the husband, the undisputed master of the household, even though his wife and children, too, had an economic value as their contributions to the family income were likely to make the difference between starvation and survival.

Children worked from an early age, girls helping their mothers, and boys their fathers. School was an occasional or irrelevant factor in their lives. Instead, children learned by doing what their parents showed them. Knowledge – of caring for animals, growing vegetables, sewing – was handed down from parent to child.

Most people also engaged in handicraft production in the home, the family being paid by a company to work with cloth, wood or leather. In general, this work could be put aside and taken up again when there was a break from household chores or agricultural work.

The process of industrialisation in the second half of the eighteenth century and during the nineteenth transformed life for the majority of the population. The

use of steam to power machinery required large buildings, and this resulted in the construction of numerous factories in many towns and cities. These in turn encouraged migration from the countryside in search of work. If electricity had preceded steam, domestic industry might have survived more fully.

The new economic forces had a series of effects on the family. One of the vital economic ties holding it together was removed when it ceased to be a business partnership. Men, women and children were employed as individuals for a wage, often by different employers. When home and workplace were physically separated, husbands, wives and children were also physically separated for a good part of their time, especially as working hours were generally very long. Despite this, men were still regarded as the head of the household.

Few children now worked with their parents at home, and so could not learn by watching them at work. They had generally become greater economic assets than before, often taking jobs which were open to children rather than to adults, such as sweeping chimneys. Gradually the already bad economic situation of families worsened, as children's working hours were limited and their employment prohibited. Worst of all, from the family's economic perspective, education became compulsory before it became free.

3 You might find a task like this in either of the Reading Modules. Remember to choose your answers according to the passage.

Classify the following situations as being said to occur

- A in the pre-industrial period
- B in the industrial period
- C in both periods

Example: Workers were attracted to urban centres. **B**

(The relevant part of the passage is underlined.)

- 1 People carried out work for a company in their own home.
- 2 Most incomes were low.
- 3 Children worked with their parents.
- 4 Husbands and wives worked apart.
- 5 School attendance was irregular.
- 6 Children contributed to the family income.
- 7 Restrictions were placed on children's work.
- 8 People were likely to live in the countryside.
- 9 Families were dominated by men.

1 In small groups, describe and discuss these signs.

- Do you know what they mean? If not, try to work them out.
- Do you need to understand a particular language to understand them?
- How easily can they be understood by someone seeing them for the first time?
- Can you think of ways in which they could be interpreted wrongly?

Useful language

The sign consists of ... / The sign shows ...
 It means ...
 The meaning is obvious, as ...
 The meaning isn't very clear, because ...
 It looks like ...

Reading

- 2 Read this extract from a book. As you read it, decide which writing system the signs above would fit into best.

🕒 about 600 words

A variety of writing systems

Writing is something we do every day, and we rarely give it a second thought. Yet linguists disagree about how to define the activity, and how best to describe some of the world's writing systems.

Writing appears to have developed independently at different times in several parts of the world, among them Mexico and Central America, China, and Mesopotamia (present-day Iraq). One of the earliest writing systems evolved to record ancient Egyptian around 5,000 years ago. The signs are called hieroglyphs, and are of three types. Some represent ideas or objects from the real world, such as *beetle* (a type of insect) and *swallow* (a type of bird), others indicate sounds, and the third group are used to distinguish between two words that are otherwise identical: *carve* and *retreat* are represented by the same hieroglyph, but a knife symbol is added to show when the former meaning is intended, and a pair of legs to indicate the latter. Some hieroglyphs are pictures, such as a drawing of a beetle or swallow; some were originally pictures and became more abstract; and yet others are symbols. Because of its complexity, the Egyptian system was much more suitable for communication than earlier systems, which could express only a limited range of meanings. Hieroglyphs remained in use in Egypt for about 3,000 years – for some of the time used alongside alternative writing systems – before being replaced by an alphabetical system.

Chinese has been written for nearly 4,000 years. Like many Egyptian hieroglyphs, the signs were originally pictures, and gradually became more

abstract. The writing system consists of characters representing words, sections of words, or ideas. Chinese characters are used throughout the country, as well as in the unrelated languages of Japanese, Korean and, until the twentieth century, Vietnamese. They can be compared with mathematical symbols, such as = or +, which have the same *meaning* in all languages but represent different *words*. There are thousands of Chinese characters to learn, and they take a considerable time to draw and to type: a traditional Chinese typewriter can contain over a thousand keys, and even a skilled typist is only expected to type about eleven words per minute.

A totally new development in writing appeared in the Middle East about 3,700 years ago, when Egyptian hieroglyphs were well established. This was the North Semitic alphabet, which evolved in Palestine and Syria. The Phoenicians, a trading nation living on the coast of modern Lebanon, adapted it to form their own alphabet. This in turn spread into northern Africa to become the writing system of the Arabs, and northwest to Greece. The Greek letters were further modified to become the Cyrillic alphabets of Russia and part of the Balkans. The Romans adapted the letters into the alphabet still used for many languages, including all those of western Europe and the written languages of North and South America, which are, of course, European in origin.

Alphabets are the most adaptable of all writing systems. A small number of symbols representing significant sounds in a language, not pictures or ideas, can be combined in different ways to represent all the words of the language. While most alphabets contain between 20 and 30 letters, the smallest, used in the Solomon Islands, contains only 11. Khmer, the official language of Cambodia, has the largest alphabet, with 74 letters. Alphabetical systems are very flexible, and can easily be used in computers, and so the Latin alphabet is used in both China and Japan alongside the traditional writing systems.

Although alphabets are based on sound, there is rarely great consistency between spelling and pronunciation. Finnish and Macedonian are among the most regular. English, however, is far more irregular, in part because the writing system has not kept pace with changes in pronunciation over the centuries.

3 Remember to answer these questions according to the passage, even if the information given there is incomplete.

Questions 1–6

Classify the following statements as referring to

- A Egyptian hieroglyphs
- B Chinese characters
- C both
- D neither

Example: Producing the signs is a slow process.

Answer: B

they take a considerable time to draw and to type (lines 43–44). Although this is also likely to be true of hieroglyphs, it is not mentioned in the passage.

- 1 Pictures developed into abstract symbols.
- 2 This system has been used by more than one language.
- 3 Some of the signs represent sounds.
- 4 Signs may refer to all or part of a word.
- 5 The system was introduced from another country.
- 6 In this system, some words require two signs to make the meaning clear.

Questions 7–13

Do the following statements agree with the information given in the reading passage?

Write

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

- 7 Alphabets developed later than Egyptian hieroglyphs.
- 8 The first alphabet was created by the Phoenicians.
- 9 The Arab and Greek alphabets developed from the same writing system.
- 10 The Greek and Russian languages have the same origin.
- 11 The more words there are in a language, the more letters there are in its alphabet.
- 12 In most languages, spelling closely represents pronunciation.
- 13 English pronunciation has changed more than spelling.

- 1 A lot of newspapers and magazines publish book reviews. Do you ever read them?
Why do you think so many are published?
What information and opinions do you think should be included in a book review?

Listening

- 2 You are going to hear a conversation between a college tutor and a student about writing a book review. Answer the questions as you listen.

Complete the form below.

Write **NO MORE THAN THREE WORDS** for each answer.

Outline of book review

Introduction

- Title 1
- Author *Robert Winston*
- Category 2
- Subject area *brain*
- Intended readers 3

Overview

- Author's purpose *to inform, and advise on maximising use of the brain*
- Main topics
 - history of 4
 - what enables brain to 5
 - brain's contribution to development of 6
 - how to increase intelligence

Analysis and evaluation

- Qualifications to write about subject *Professor at University of London, and carries out 7*
research
- Strengths *readable, particularly through use of 8*
contains a useful 9
- Weaknesses *none*

Conclusion

- Overall response *a very interesting book that aims high and achieves its 10*

Speaking Part 2

- 3 With a partner, talk for one to two minutes about this topic.

Describe a book that has influenced you.

You should say:

- what the book was about
- why you read it
- how the writer made it interesting
- and explain why this book influenced you.

Useful language

Grammar Non-finite clauses

The present participle (e.g. *doing*) and past participle (e.g. *done*) can be used in many ways in English.

Clauses which use participles instead of a finite verb (one that shows the tense and subject, such as *does*, *did*, etc.) are called **non-finite clauses**. These tend to be used in more formal and academic writing.

Here are examples of two of the most common uses of non-finite clauses (in *italics*), along with paraphrases using a finite clause.

A People *using mobile phones in the library* should be asked to leave. = People who use ...

B An article *published recently* throws new light on the origin of alphabets. = An article which was published recently ...

4 Complete the rules by choosing the correct alternative.

- 1 The present participle, ending in *-ing*, generally has an *active* / a *passive* meaning.
- 2 The past participle, ending in *-ed*, generally has an *active* / a *passive* meaning.

5 Complete each sentence with the present or past participle of the verb in brackets.

- 1 I have some queries (concern) the use of laptops in the library.
- 2 With reference to your letter (date) 18 February, I am pleased to give you the information you require.
- 3 These measures, (introduce) to simplify English spelling, have not been effective.
- 4 (attend) by a record number of delegates, the conference was a great success.
- 5 (attend) a conference in Rome, Mary found that someone else was carrying out very similar research to her own.

Here are some more uses of non-finite clauses.

- C Jane spent the day in the library *working on an assignment*.
= When Jane spent the day in the library she was working on an assignment.
- D You should check your spelling carefully *when writing an essay*.
= ... when you are writing an essay.
- E *Not knowing where to begin*, Jane asked her tutor for help.
= Because she didn't know where to begin, ...

F *Having grown up in Korea*, Will could speak Korean fluently.

= Because Will had grown up in Korea, ...

G *After writing an essay*, you should look for ways to improve it.

= After you have written an essay, ...

H *Having written an essay*, you should look for ways to improve it.

= After you have written an essay, ...

I *Asked for advice on studying effectively*, Karl didn't know what to say.

= When he was asked ...

G page 142

6 Replace the finite clauses in italics with non-finite clauses.

EXAMPLE: *Because it is pictorial*, the Egyptian hieroglyph for a beetle is easy to understand.
Being pictorial, ...

- 1 The difficulties *which face learners of a foreign language* are not always fully understood.
- 2 *Because she had lived in Japan for many years*, Carol could speak the language quite well.
- 3 You should look on the Internet for the information *which is required for your essay*.
- 4 *After it had been very variable for hundreds of years*, English spelling became standardised in the seventeenth and eighteenth centuries.
- 5 Many people read for pleasure *while they are travelling by plane or train*.

Pronunciation Final consonants

7 With a partner, read the sentences aloud, then listen to the recording to check your pronunciation and repeat what you hear. Finally, read one sentence in each pair aloud, and see if your partner can hear which one you're saying.

- 1 a There's the sea.
b There's the seat.
- 2 a It's a car.
b It's a card.
- 3 a Is this the right day?
b Is this the right date?
- 4 a It's the wrong tie.
b It's the wrong time.
- 5 a How much did you say?
b How much did you save?

Writing folder 8

Task 2: Being relevant and avoiding repetition

Being relevant

- 1 Read this example Task 2 question (suitable for both Academic and General Training). Underline the key words in the question.

Write about the following topic:

With the increase in use of the Internet, books will soon become unnecessary.

To what extent do you agree or disagree with this statement?

Give reasons for your answer and include any relevant from your own knowledge or experience.

You should write at least 250 words.

Now look at this answer to the question above. How well does the candidate answer the question? Circle the key points that answer the question and cross out any information that is irrelevant.

It has been suggested that in the future the Internet will totally take over the role that has always been taken by books. Personally, I believe that this will, in fact, happen sooner than people think.

It is often said that books are useful, but if we are talking about communicating news to the public, then in this case books are not so useful. I don't often read books, even though I know they might help me. I find them boring, because most novels are really silly love stories.

Personally, I think the Internet is very useful and I use it all the time, both at college and at home. I have had a computer for ten years and the one I have at the moment is an Apple Mac. It is particularly useful for finding information quickly and for keeping in touch with friends via email. I also use it to talk to people in chat rooms. People in chat rooms are really interesting and I have met many friends there. They give me a chance to practise my English, which I find really interesting. All the information I need I can find on the Internet. Some people say that it is hard to read from a screen, but I don't have this problem.

So in conclusion, I think the Internet is a good thing.

226 words

- 2 Think about how you would answer the question in exercise 1. With a partner talk about the questions below, particularly those referring to the second and third paragraphs – try to use the expressions in the Useful language box.

First paragraph

First reaction to the statement – for, against, unsure?

Second paragraph

How much has use of the Internet increased? Who uses the Internet? Where in the world is it used?

What are its strengths?

What are its weaknesses?

Examples from your knowledge and experience

Third paragraph

What are books used for?

Advantages of using books?

Disadvantages of using books?

Examples from your knowledge and experience

Conclusion

Restate opinion while accepting some aspects of opposite opinion.

Useful language

Giving reasons

Use of the Internet is spreading fast **because of** the decreasing cost of computers.

Thanks to computers becoming more affordable, use of the Internet is spreading fast.

One result of the decrease in the cost of computers is the rapid spread of the Internet.

Because computers are rapidly coming down in price, the use of the Internet is growing.

While I agree that, ... nevertheless / on the other hand I feel / I (still) feel ...

Although it is true that ..., I don't think that ...

Finally I must restate my opinion that ...

Avoiding repetition

- 3 Look at the answer in exercise 1 again. Underline any adjectives that are repeated. Which of the adjectives below would be suitable replacements?

absorbing	beneficial	effective
efficient	fascinating	friendly
helpful	informative	predictable
sociable	tedious	uninspiring
valuable	worthwhile	

- 4 Circle any linking words that are repeated. What other linking words could you use?
- 5 In the answer in exercise 1 the candidate has avoided repetition by using pronouns. This is generally a good thing to do. List the pronouns used and say what they refer to.
- 6 Write your own answer to the Task 2 question in exercise 1, using your own ideas and making sure they are relevant and clear, and that you give examples to support your views. Try to vary the words you use and look back at Writing folders 3 and 6 for useful phrases. You should take 40 minutes to answer this question.

Units 13–16 Revision

Topic review

- 1 How far do you agree with these statements? Give reasons for your answers.
 - 1 Some people always seem to make the right choice, and others always make the wrong one.
 - 2 Choices in a family should be made by the parents and not by young children.
 - 3 People don't want to eat food that is an unusual colour.
 - 4 We sometimes buy a product because of its colour rather than because we need it.
 - 5 Our colour preferences are strongly influenced by fashion.
 - 6 It is harder to know what someone from another culture is thinking than someone from our own.
 - 7 It is important when visiting a foreign country to know how to be polite in that culture.
 - 8 We should learn in school about the customs of other countries.
 - 9 It is more useful to be able to write emails and text messages well than to write letters.
 - 10 Books and magazines are likely to disappear and be replaced by electronic texts.

Grammar

-ing forms and infinitives

- 2 Complete this passage with the *-ing* form or infinitive of the verbs in brackets.

Too much choice

As societies become wealthier, the number of choices people need to make seems 1 (grow) I once spent two years in a country where buying milk meant 2 (get) to the store at six in the morning and 3 (be) thankful if there was any milk – or indeed, anything else – on the shelves. When I returned to my own, more affluent, country, I soon stopped 4 (worry) about whether there would be anything to buy. There were now five or six types of milk 5 (choose) from, and it was more a question of not wasting time choosing, and just remembering 6 (buy) full-cream for my cat and semi-skimmed for myself.

I'd like 7 (say) that I appreciated the choice of food and clothing – not to mention telephone, gas and electricity companies – but 8 (be) honest, I generally spent too long trying 9 (make) up my mind. I soon regretted 10 (complain) about the lack of choice during my two years abroad.

Conditionals

- 3 Put the verb in brackets in the right tense.

- 1 I haven't got much money, so I won't buy any clothes unless I see something that really (catch) my eye.
- 2 If I'd learnt more about the local culture before I went to live abroad, I (be) more sensitive to differences from my own country while I was there.
- 3 A lot of books don't appear unless the writers (pay) for publication themselves.
- 4 I (not mind) Kevin wanting to buy a new car so long as he doesn't expect me to lend him any money for it.
- 5 I'd work in a library if I (be) sure of earning enough to live on.
- 6 You're welcome to come to the cinema with me as long as you (be) ready to leave in ten minutes.
- 7 I enjoy shopping as long as I (not have) to queue.
- 8 If everyone had a car, the roads (be) even more congested than they are now.
- 9 Giovanna would have studied Ancient Egyptian if there (be) a course at a nearby university.
- 10 If the person you are talking to (keep) moving away from you, it is best not to try to move closer to them.

Non-finite clauses

- 4 Complete this passage with the *-ing* or *-ed* form of the verbs in brackets.

A valuable red dye

Cochineal is a traditional red dye 1 (use) by the Mixtec Indians of southern Mexico before the arrival of the Spanish. 2 (Obtain) from an insect that spends its life 3 (suck) on certain plants, cochineal was used to dye clothing various shades of red, while indigo was used for blues. Coloured clothing was important in Mixtec society, 4 (indicate) the social status of the wearer.

The Mixtecs farmed cochineal with great skill, 5 (light) fires on cold nights to prevent the insects from freezing and even 6 (build) temporary shelters to protect them from heavy rain.

When the Spanish arrived in Mexico in the sixteenth century, they were impressed by the bright crimson dye, which was superior to anything found in Europe. 7 (Realise) that there would be a ready market across the Atlantic, they began to ship textiles 8 (dye) with cochineal to Europe. Cochineal dye became so fashionable that before long it was a major import from Central America, second only to gold in importance.

Vocabulary

- 5 Complete the description of the chart below. In each case, choose one of the three alternatives.

This chart shows the annual breakdown of book loans from British libraries into the categories adult fiction, adult non-fiction and children's books. The period covered is from 1992 to 2001.

Adult fiction accounted for over half of loans every year, starting from nearly 60% in 1992. However, this figure tended to 1 *improve / be consistent / slide* over the period as a whole. It 2 *picked up / fell slightly / remained constant* in 1997, then 3 *plummeted / levelled off / picked up* before 4 *declining / growing / rising* again. Adult fiction ended the period at fractionally over 50% of loans.

Around 20% of loans were in the adult non-fiction category. This percentage 5 *picked up / was fairly steady / declined* between 1992 and 1999. In the following year, the proportion 6 *rose / slid / declined* fairly sharply to about 24%. The category 7 *fell / was consistent / picked up* in 2001.

At the beginning of the period, children's books accounted for a marginally higher share of loans than adult non-fiction. Their share 8 *was unchanged / made steady progress / deteriorated* in the following few years, mostly at the expense of adult fiction. The trend continued until 1996, when about 28% of loans were of children's books. This category saw little change until 2000, when the percentage 9 *declined / rose / expanded* to 25%, but it again recovered, reaching about 27% in 2001.

Book loans from British libraries, by category

Speaking Part 1

1 Ask and answer these questions with a partner. Try to use some of the phrases from the Useful language box.

- What time in the morning would you get up if you could choose?
- What are you like in the morning – chatty, friendly, grumpy or totally silent?
- Tell me about your typical routine in the week and at weekends.
- Do you ever go shopping late at night? Why, or why not?
- Do you think your country is becoming more of a 24/7 society*?

* a society where shops and other facilities are open all day and night

Useful language

It depends on what I've been doing the night before.

It's difficult to say because I ...

As far as getting enough sleep is concerned, I ...

On the one hand I think that it's good that shops are open

24/7. But, you could argue that ...

I get up early but, in spite of this, I ...

Reading

2 Read through the passage quickly and answer these questions.

- 1 Why do we have a body clock?
- 2 What are a 'lark' and an 'owl'? Which are you?

🕒 about 650 words

WHO NEEDS SLEEP?

It's 2 a.m. The time when you should be in bed, sound asleep. But pull back the curtains and you might be surprised by the number of lights on in your street. Night-time is no longer just for sleep. It has become the new daytime, offering us the chance to catch up on everything we didn't manage to cram in during what used to be our waking hours.

Now, instead of sleeping, we can check our bank balances by phone, buy groceries, surf the net for cheap flights or go to the gym. Such flexibility, however, has a price. Our bodies are run by circadian rhythms, a prehistoric internal clock that regulates when we feel sleepy or awake and affects our body temperature and level of alertness. It makes our brains and bodies active during the day and allows them to recuperate through the night. So robust is this clock that even two weeks on a nightshift without a break will not destroy its intrinsic rhythm, and when scientists keep human volunteers in isolation, without cues of what time it is in the day, they still show daily cycles of temperature changes, sleep and wakefulness, and hormone release. Continually working against our body's natural rhythm is likely to cause ourselves both physical and psychological damage and, research shows, may actually increase our risk of health problems such as stomach ulcers.

Consultant Tom Mackey believes that our normal circadian rhythms are increasingly being completely distorted. 'More and more of us are being pressured into doing things at odd hours. This is going to have an impact on quality and length of sleep. If people don't go to bed at a reasonable time, say around 11 p.m., and have between six and eight hours of sleep, they will be unable to concentrate and liable to swings in mood. You need sleep for rest and repair. If you bombard your mind with information for too long, then everything gets disorganised – you become unable to manage daytime activities.'

The circadian rhythms that run the sleep/wake cycle are as old as evolution itself. Our prehistoric ancestors would have needed their biological clock to get them out hunting during the day and probably in bed around nightfall to avoid predators. Our night vision is not as good as that of nocturnal animals – our natural rhythm was to sleep as the sun went down. The invention of the electric light obviously changed that. Like most biological systems, circadian rhythms are not made to measure. Our internal clock runs a bit longer than 24 hours, hence its Latin name, circadian, which means 'about a day'.

3 Questions 1–5

Do the following statements agree with the information given in the reading passage?

Write

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

- 1 There is a greater demand at night for some services than for others.
- 2 People who are kept in isolation show some reaction to day and night.
- 3 Damage caused by working against the body's natural rhythms is limited to our bodies.
- 4 In prehistoric times, people's biological clocks probably controlled their lives.
- 5 Larks are more likely to be ill than owls.

Questions 6–8

Complete each sentence with the correct ending A–G from the box below.

- 6 Our internal body clock
- 7 A lark
- 8 Jet lag

- A** can be altered over time.
B is alert on waking.
C causes the body temperature to rise at night.
D programmes us to be awake in daylight hours.
E can result in tiredness.
F experiences high body temperatures.
G is more problematic at night.

That humans tend to vary in their circadian rhythms has been known for centuries. Some people are born to be larks (to get up and go to bed early) while others are owls (late risers and late to bed). Larks are 'morning people' –
45 communicative from the time their eyes open – while owls are grouchy and groggy and find life impossible until midday. Research suggests that owls may pay a price for this in terms of health problems, because they tend to go to sleep at less regular times. While the temperature of the body should fall
50 at night (and does, whether or not we are asleep, reaching its lowest temperature at around 4 a.m.) it falls more in larks than in owls, giving larks a better quality of sleep.

Much of the damage that can be done by disrupting the biological clock has been seen in nightshift workers. The
55 fatigue and disorientation following nightshifts is similar to that of jet lag. As with jet lag, the body adjusts over time, but the wake-and-sleep cycle never seems to be totally reversed. As more of us push back our circadian clocks, going to bed later and later, the effects on our bodies will be similar to
60 those of nightshift workers, and that can't be good.

Vocabulary Collocations with *time*

- 4 Complete each sentence using an expression from the box in the appropriate form. Sometimes more than one answer is possible.

find (the) time
give someone time
kill time
pass the time
run out of time
spend the day/week
spend (the) time
take (the/your/his/her) time
waste an hour / a day
waste time / waste someone's time

- 1 We weren't able to finish the work on our nightshift because we had time.
 - 2 Now I work at night I don't so much time stuck in traffic.
 - 3 My alarm goes at six o'clock in the morning to me time to get ready for work.
 - 4 your time. I can wait for you – there's no hurry.
 - 5 How much of your time is worrying about not sleeping?
 - 6 While I was waiting to see the doctor I the time reading a magazine.
 - 7 I don't know how you the time to run two businesses.
 - 8 Paola her time eating her lunch because she didn't want to rush.
 - 9 Tom was early for the meeting so he time by having a coffee.
 - 10 I always time in exams and never finish the paper.
- 5 With a partner, talk about the following.

- 1 What do you do to pass the time when you're waiting for a bus or train, or on a long journey?
- 2 What do you think are activities which waste time?
- 3 Do you give yourself enough time to do your homework?
- 4 Do you spend any time reading a newspaper?
- 5 Do you run out of time when you do a test?
- 6 If you didn't need to work, how would you spend your time?

1 Would you like to do nightshift work? Discuss this with a partner and list the advantages and disadvantages. This will help you to orientate yourself when you listen to the recording in exercise 2.

Listening

2 Listen to someone on the radio talking about nightshift working and answer the questions. The recording is in two parts: questions 1–5 and questions 6–8.

Questions 1 and 2

Choose the correct letter **A**, **B** or **C**.

- The speaker says that compared to daytime workers, nightshift workers
 - take longer to fall asleep.
 - sleep more deeply.
 - need more sleep.
- People generally find it difficult to
 - stay awake in the first part of the night.
 - stay alert in the afternoon.
 - stay asleep all day.

Questions 3–5

List **THREE** things which the presenter says will help nightshift workers fall asleep.

Write **NO MORE THAN THREE WORDS** for each answer.

-
-
-

Questions 6–8

Write **NO MORE THAN THREE WORDS AND/OR A NUMBER** for each answer.

- How long should a nap last to be useful?
.....
- What should workers definitely not do if they are feeling tired?
.....
- At what time are nightshift workers the least alert?
.....

Grammar

Modal verbs: obligation, lack of obligation and prohibition

- 3 You often need to use modal verbs in the Writing and Speaking Modules when you are asked to comment on a statement.

Look at these sentences, some of which are from the recording. Match sentences 1–6 with explanations a–f.

- 1 You mustn't operate machinery if you are feeling sleepy.
- 2 All workers must wear their identity badges at all times.
- 3 You must come to dinner sometime after work.
- 4 Nightshift workers don't have to travel to work in the rush hour.
- 5 You must try to have a regular sleep schedule, even at weekends.
- 6 Workers at our factory have to wear a special uniform.

- a something that isn't necessary
- b something that is strongly recommended, coming from the speaker
- c something that is prohibited
- d something that is a rule, imposed from outside and out of the speaker's control
- e something that is a rule – possibly a notice in a public place
- f something that is a casual invitation

- 4 With a partner, talk about the difference between sentences 1 and 2, and the difference between sentences 3 and 4.

- 1 We have to keep our work confidential.
- 2 We must try to get more sleep.
- 3 You don't have to wear a uniform now you're a manager.
- 4 You mustn't wear your uniform outside the factory.

G ... ❖ page 142

- 5 Rewrite each sentence using a modal verb. Sometimes you are given the first word of the sentence in brackets.

EXAMPLE: Years ago, children were forced to work in mines.

Years ago, children had to work in mines.

- 1 Smoking is forbidden in the factory. (*You ...*)
- 2 It's not necessary to leave home early to beat the rush hour now. (*You ...*)
- 3 The regulations state that the nightshift begins at 9.30. (*We ...*)
- 4 The notice says that it is vital that all workers wear a hard hat on the site.
- 5 'You aren't allowed to make personal calls,' said the manager to the staff.
- 6 I can stay in bed all day tomorrow.
- 7 When I work nights, I am forced to do my shopping on the Internet.
- 8 It isn't necessary for me to go to the bank in the daytime as I can ring them at any time now.

Writing extra

- 6 Do this IELTS Writing Task 2. Try to use some of the modal verbs you have learnt in this unit.

Write about the following topic:

In the last ten years, people have been finding they have to move away from a twelve-hour day to a twenty-four hour day. This can only have a negative effect on society, with people becoming less productive and being unable to enjoy a social life.

To what extent do you agree with this view?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

It is important to give your opinion, but also to consider both sides of the argument. Use the information from both the reading and listening passages to help you get ideas for your essay. Remember you need to have an introduction, two or three paragraphs giving reasons and examples, and a conclusion.

Useful language

Balancing your view

There is no doubt that ...

One of the main arguments in favour of / against ... is ...

On the one hand ... On the other hand ...

Another example of ...

Test folder 9

Speaking

Advice

- The Speaking Module gives you the opportunity to show how well you can speak English. Show what you know. Make sure you use as wide a range of grammar and vocabulary as you can.
- It is in three parts, so don't worry if you feel you have done badly in one – you can make up for it in the other parts.
- Your English is being assessed, not your intelligence or imagination. So don't worry if you think your answers aren't very clever, or if you say something that isn't true.
- Try to behave in a friendly, relaxed way, as that will help you to do your best. Don't expect the examiner to comment on what you say: this isn't like a normal conversation.
- If you don't understand what the examiner asks you, ask him or her to repeat it, or say that you don't understand.
- Don't leave long silences, as they don't show how good your English is.

Part 1

The examiner will ask you some questions about yourself, your opinions and everyday topics.

Make sure your answers are of a reasonable length. Saying just a word or phrase doesn't show how good your English is, and a very long answer won't allow enough time to go through the whole Module.

- 1 Listen to these five questions and answers. Decide which comment from the box applies to each answer.

- 1
2
3
4
5

- A The answer is too short.
B The answer is appropriate, but the candidate leaves a long pause.
C The answer is too long.
D The answer is hard to understand.
E The answer is the right length and appropriate.
F The answer does not deal with the question.

- 2 Think of a suitable answer to each of these questions. Make sure you use a suitable tense. Practise asking and answering with a partner.

- 1 What part of your country do you come from?
- 2 Is that a good area for finding work?
- 3 Have you ever worked or studied at night?
- 4 Why do some people have to work at night?
- 5 How would you feel about working at night?

Part 2

You are given a topic to speak about for one to two minutes. The topic is based on your own experience. Quickly think of something that is relevant to the topic. If you can't remember anything suitable, invent something.

You have one minute to prepare. Write down three or four key words, to remind you of what you want to say. Don't write whole phrases or sentences: if you simply read out what you have written, you will get a low band score.

The first three points are usually quite factual. Speak about them in turn, fairly briefly. Allow yourself enough time to talk about the last line. This often asks for an explanation, so it gives you the opportunity to use a wider range of language.

Make sure you keep to the topic. Don't worry if the examiner stops you before you have finished. This won't affect your band score.

- 3  Look at this card. Then listen to a candidate giving a talk. Do you think it was a good talk? Why, or why not?

Describe an occasion when you did something for the first time.

You should say:

what you did

why you did it

why you hadn't done it before

and explain how you felt about doing it.

Notice that the examiner asks one or two questions after the talk. These should be answered very briefly.

- 4 Now read this topic card, and spend one to two minutes planning a talk. Make notes if you want to. Then, with a partner, speak for one to two minutes.

Describe a special occasion when you had an unforgettable time.

You should say:

what the occasion was

what you did

how you felt at the time

and explain what made it unforgettable.

When you have finished speaking, think of short answers to these questions.

- Do you prefer special occasions to be planned or to be a surprise?
- How often do you think people should celebrate special occasions?

Part 3

The examiner will ask you questions related to the topic of Part 2. The questions will use verbs like the ones in exercise 5 below.

Your answers should be at least one or two sentences long. Expand them, for example by considering both sides of an argument.

Speculate about possibilities; for example, *If shops weren't open late in the evening, it would be easier for shop workers to spend time with their families and friends.*

If you can't immediately think of an answer, say something to give yourself time to think; for example, *I haven't thought about that before.*

- 5  Look at these questions and make sure you understand them. Then listen to the answers and assess them.

- 1 Could you **describe** how society can benefit from people working at night?
- 2 Can you **compare** going to the cinema or other entertainments at night with going to the same entertainments by day?
- 3 What would you **recommend** people to do if they have to work at night?

Now answer these questions.

- 4 Can you **identify** ways in which attitudes towards working at night have changed?
- 5 Could you **outline** the effect on family life of people working at night?
- 6 How would you **evaluate** the importance of public transport operating all night?
- 7 Could you **speculate** on whether we will move even more towards a 24/7 society?
- 8 Can you **suggest** ways in which people could be encouraged to work at night?

The tourist boom

Listening

2 You are going to hear a lecturer giving a talk about tourism. Read through the summary below carefully before you listen.

Questions 1–5

Complete the summary below.

Write **NO MORE THAN TWO WORDS** for each answer.

Both social factors and the development of 1 have been important in the growth of tourism. It would appear that how much 2 a country possesses is the main factor in whether its people will travel widely. Most tourists today are from the 3 world, but their populations are levelling off. Soon there will be an increase in the number of older tourists, who will be less likely to want to go 4 and will probably prefer alternatives such as trips to 5

Questions 6–10

Complete the tables below.

Write **NO MORE THAN TWO WORDS** for each answer.

Speaking Part 1

1 With a partner, ask and answer the following questions.

- What are the advantages of a two-week holiday away from home?
- How many weeks' holiday do workers usually get in your country?
- What makes a good tourist?

	Technological breakthrough
Modern tourism	Jet plane
First package tour	6
New booking method	7

Destination	Attraction
Ireland in the past	countryside
Ireland today	8
Crystal City, USA	broccoli (a vegetable)
Gilroy, USA	9
Stratford, Canada	10

Pronunciation

Pronouns as objects of phrasal verbs

- 3 Listen again to this extract from the recording in exercise 2.

Festivals are another way to bring them in.

When the object of a phrasal verb is a pronoun, it is normally unstressed.

Listen to these phrases and repeat each one.

- 1 give it up
- 2 cut them down
- 3 bring her round
- 4 work it out
- 5 pick him up
- 6 let me through
- 7 fill them in
- 8 ask us out

Now practise saying them with a partner.

- 4 Think of a sentence for each of the phrases in exercise 3 and tell your partner.

EXAMPLE: *I hate smoking. I'm going to give it up.*

Vocabulary Collocations related to travel

- 5 Cross out the word on the left which *doesn't* collocate with the noun on the right

EXAMPLE: a ski, travel, seaside	brochure
1 a long-haul, luxury, Caribbean	cruise
2 a ski, holiday, sightseeing	resort
3 a day, business, tour, skiing	trip
4 the high/low, skiing, student	season
5 a beach, travel, package, sightseeing	holiday
6 a/an short-haul, exotic, popular, far	destination

Now write six sentences to show you know how to use the vocabulary above.

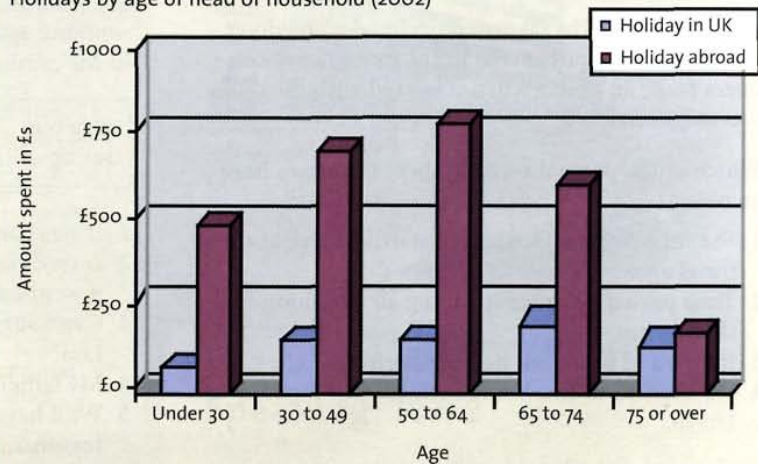

EXAMPLE: I went to get a travel brochure so I could find out about skiing holidays in Switzerland.

Writing extra

Academic Task 1

- 6 The diagram below shows how much British households spent on holidays in the UK and abroad in 2002. Summarise the information by selecting and reporting the main features, and make comparisons where relevant. Write about 150 words.

Holidays by age of head of household (2002)

Useful language

Comparing and contrasting

Although all age groups spent money on holidays abroad, the 50 to 64 age group spent the most.

The 75 and over age group spent less than £250 of their annual budget on holidays abroad, **whereas/while** the 50 to 64 age group spent just over £750.

The 75 and over age group spent less than £250 of their annual budget on holidays abroad. **In contrast**, the 50 to 64 age group spent just over £750.

The 75 and over age group spent less than £250 of their annual budget on holidays abroad, **compared to** the 50 to 64 age group, who spent just over £750.

Grammar Phrasal verbs

A phrasal verb is a verb + a particle. Although phrasal verbs are more commonly used in spoken English, the *Cambridge Academic Corpus* shows us that many of the ones in this unit are used in academic English too.

These examples of phrasal verbs are from the recording in 18.1:

*the demand for holidays will **take off** there as it **keeps down** their costs*
*the Irish Tourist Board **came up with** the idea of promoting*

- 1 A phrasal verb can have a number of meanings. Match the phrasal verbs in the box above with the meanings below.

- 1 to suggest or think of a plan
- 2 to become popular or successful
- 3 to prevent something increasing

Some phrasal verbs take an object and some don't. Which of the phrasal verbs in the examples above *doesn't* take an object when it is used with the meaning it has here?

- 2 Which of the phrasal verbs in these sentences have an object?
- 1 She made up her face before starting work at the travel agency.
 - 2 Tessa passed out after spending all afternoon in the hot sun.
 - 3 It's hard to make out her handwriting.
 - 4 We checked in two hours early for our flight to Dubai.

Phrasal verbs without an object

When a phrasal verb has no object, the verb and particle cannot be separated:

EXAMPLE: We say: *Trish turned up too late for her flight to Tenerife.*
✓

We can't say: *Trish turned for her flight up too late to Tenerife.* ✗

Phrasal verbs with an object

When the particle is an adverb, the particle can go *before* or *after* a noun object but can only go *after* pronoun objects.

EXAMPLE: *The airlines would like to **cut down** the amount of airport tax they pay.*
*The airlines would like to **cut** the amount of airport tax they pay **down**.*
*The airlines would like to **cut it down**.*

- 3 Rewrite each sentence below twice using a phrasal verb from the box. First, separate the particle from the verb using the noun, and then write the sentence again, changing the noun to a pronoun, as in the examples above.

give out	make out	put forward
set up	take on	take over

- 1 It was hard to see the cruise ship through the fog.
- 2 A rival bought the student travel company when it went bankrupt.
- 3 Can I suggest Maria as a suitable replacement for Lisa?
- 4 My father started the holiday company in 1967.
- 5 We'll have to employ extra staff when it's high season.
- 6 Josh was asked to distribute free tickets to the guests.

Three-part phrasal verbs

Some phrasal verbs have three parts, consisting of the verb + adverb + preposition.

No separation is possible.

EXAMPLE: *Hotels can no longer **get away with** poor service nowadays.*

*Hotels can no longer **get away with** it.*

4 Underline each phrasal verb in sentences 1–6 and match it with its meaning a–g opposite.

EXAMPLE: **0 f**

- 0** The local council are looking forward to receiving a grant to help increase tourism in their area.
- 1** Leila came up against some very difficult customers when she worked at the airport.
- 2** The whole ship's company went down with food poisoning during the trip.
- 3** The courier tried to make up for some of the problems the tourists had had by offering them a free meal.
- 4** It's time we woke up to the environmental damage caused by the increase in air travel.
- 5** Today we find it hard to put up with long queues and delays at airports.
- 6** Our company needs to face up to the fall in demand for package holidays.

- a** to compensate for something bad
- b** to accept
- c** become aware of
- d** to fall ill
- e** to have problems with
- f** to be pleased about something that is going to happen
- g** to tolerate

G page 143

Writing extra

- 5** Complete this letter to a local newspaper, using words from the box. There are some extra words which you will not need.

Dear Sir/Madam,

I am writing to object to the plan,

1 was reported in your newspaper on 9th June, to build a high-rise hotel next to the town beach. I believe that the plan is **2** to go ahead next summer. I have lived here **3** 2002 and feel that more consultation is needed **4** the work is started.

As you know, this town has a population of only 7,000, mainly made up of people **5** have retired here to enjoy the peace and quiet. We **6** have two small hotels and a number of guest houses and these have fulfilled our visitors' needs **7** many years.

There are many old buildings in this town and its character would be totally destroyed **8** a ten-storey glass and steel hotel was built right in the middle of the sea front.

To sum up, I object strongly to this plan and I hope you will publish this letter in your paper.

Yours faithfully,

additionally already and because
before due for if providing
since still unless which who

Plans for Ocean Hotel

Speaking Part 2

- 6** Spend one minute preparing the talk below. You can make brief notes if you like. Then give your talk to your partner. The talk should last one to two minutes. It's a good idea to try to record yourself so you can hear your own mistakes and improve your talk.

Describe a memorable trip.

You should say:

- where you went**
- who you went with**
- what you did there**

and explain what made it memorable.

Writing folder 9

Task 2: Connecting ideas 2 – cause and result

In Task 2 of both the Academic and General Training Writing Modules you will often need to write about the cause and the result of an action. → Unit 3

Look below at the way the sentences are linked together. The words in green are more common in formal spoken or written English. The examples in A are used to link two separate sentences. The ones in B and C join two ideas within one sentence.

A A large number of tourists visit Florence each year, causing a great deal of wear and tear to the buildings. **So / As a result / As a consequence**, the mayor is thinking of charging tourists to visit the city.

B The mayor of Florence is thinking of charging tourists to visit the city because of / **as a result of / on account of / as a consequence** of the amount of wear and tear being caused to buildings.

OR

Because of the amount of wear and tear being caused to buildings, the mayor of Florence is thinking of charging tourists to visit the city.

C An increase in building work in tourist areas **causes / results in / leads to / produces** a loss of agricultural land.

- 1 With a partner, talk about possible causes of the following.
 - 1 Water shortage in an island with a new hotel and golf course.
 - 2 Local people having more money to spend in an area with a new airport.
 - 3 Skiing centres closing early in the season.
 - 4 Hotel guests being ill.
 - 5 A museum guide being tipped well.
 - 6 An art gallery only opening in the morning.
- 2 Using the words in brackets, link the ideas in one or two sentences. Make any other appropriate changes.

EXAMPLE: Tourism competes with wildlife for habitat and natural resources. There is a loss of biodiversity. (*result in + noun*)
Tourism competes with wildlife for habitat and natural resources and this results in a loss of biodiversity.

- 1 There has been a rise in hotel construction over the past decade. There has been increased traffic congestion and water pollution. (*lead to + noun*)
- 2 There has been an increase in housing development. There has been a reduction in agricultural land. (*result in + noun*)
- 3 There has been rapid urbanisation in some Mediterranean islands. Local culture has suffered. (*because of + noun*)
- 4 There has been growth in air transport connected to tourism. There is an increase in acid rain, global warming and local pollution. (*result in + noun*)
- 5 The development of marinas. Changes in sea currents and coastal erosion. (*cause + noun*)
- 6 There has been a large increase in tourists attracted to the area. The local people can find jobs more easily. (*As a result of + noun*)
- 7 The hotel can't get enough staff. It can only open for a short season. (*As a consequence*)
- 8 The visitors have complained about poor service. The management have decided to give the staff extra training. (*As a result*)

3 Using complex sentences accurately will gain you more marks in the Writing Module. In the following report, choose A, B or C.

Tourism in the Arctic

Tourism in the Arctic is growing in popularity. High-latitude coastal areas are attractive to tourists 1 the wildlife that can be found there. 2 , there are problems associated with tourism in this area. 3 , there is inadequate infrastructure in the Arctic. 4 , there is little provision for large numbers of tourists and damage can occur to the environment 5

6 , infrastructure development is not projected, since the few tour operators offering trips to the Arctic are not interested in large investments.

7 special observers are supposed to travel on all cruise ships visiting the area, tourism still tends to be uncontrolled. Excursions by helicopter are particularly harmful to nest sites and the pursuit of polar bears by motorboats 8 in very stressed animals.

9 , we need to do all we can to ensure that future tourism in the region is better regulated than it is at present.

You can help by, 10 , checking that your tour operator follows the code of practice laid down for trips to the Arctic.

- | | | |
|--------------------|----------------|-------------|
| 1 A so that | B because of | C since |
| 2 A However | B Because | C Even |
| 3 A So | B But | C Firstly |
| 4 A In other words | B Therefore | C Rather |
| 5 A as a result | B consequently | C therefore |
| 6 A Because | B What is more | C So |
| 7 A By comparison | B Additionally | C Although |
| 8 A results | B causes | C leads |
| 9 A In conclusion | B At the end | C At last |
| 10 A what is more | B for example | C so |

4 Answer the following Task 2 question.

You should spend 40 minutes on this task.

Write about the following topic:

Some countries have come to rely on tourism as their major source of income. However, many people believe that the problems caused by tourism are more serious than those it has solved.

To what extent do you agree or disagree with this opinion?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

Speaking Parts 2 and 3

- 1 What forms of transport do you prefer? How do you decide what transport to use for a particular journey?
- 2 Choose two different forms of transport, and compare their advantages and disadvantages. Remember to develop your comments. Consider convenience, safety, price and effect on the environment.
EXAMPLE: *Although planes are much faster than helicopters, they need a much larger space to land in.*
- 3 Many city centres and major roads are congested. How can the problem be solved? Consider the advantages and disadvantages of these suggestions:
 - banning non-essential traffic
 - making driving very expensive
 - improving public transport
 - encouraging people to live near their work.

Vocabulary

4 Most of the words in the box occur in the listening passage. Use a dictionary to make sure you understand and know how to pronounce them. Then match each explanation 1–3 with the appropriate words. You should use all the words in the box.

- 1 an accident involving vehicles
.....
- 2 the state of floating in the air
.....
- 3 the act of preventing something from happening
.....

collision crash disruption
disturbance elevation interruption
levitation suspension

Listening

5 You will hear three students giving a presentation about monorails. Have you seen or travelled on a monorail? What do you know about them?

6 Before you listen to the first part of the recording, look at the sentences, and think about what kind of information you need to listen for. Then answer the questions as you listen.

Questions 1–4
Complete the sentences.
Write **NO MORE THAN TWO WORDS AND/OR A NUMBER** for each answer.

What is a monorail?
Tracks are usually 1
Most monorails are used for transporting 2
The oldest monorail still in use opened in the year 3
Shanghai monorail trains normally reach a speed of 4 kilometres an hour.

Now read and think about these notes as you did above. Then answer the questions as you listen.

Questions 5–9

Complete the notes.

Write **NO MORE THAN TWO WORDS** for each answer.

Safety:

- very rarely derailed
- no risk of **5**

Environment:

- produce relatively little **6**
- stations can be in **7** and other busy places

Economics:

- only installation takes place on site
- low operating costs
- very **8** compared with other forms of transport

Disadvantage:

- they use a **9**

Before listening to the third part of the recording, look at the diagram opposite, and for each number, write the appropriate word from the box. Use a dictionary if necessary. This will help you here, but note that in the test it normally isn't possible to label the diagram without listening to the recording.

- | | | | |
|---------|---------|----------------|--------|
| balcony | beam | operating unit | pillar |
| vehicle | walkway | | |

- 10
- 11
- 12
- 13
- 14

Now listen to the third part of the recording, and check your answers. You will hear them in the order of the questions. In some cases, the word in the recording is different from the one in the box, but has a similar meaning. This is often the case in the Listening Module. Beside your answers above, write the words that you hear.

Pronunciation Rhythm

7 Look at these sentences, where the stressed syllables are underlined.

I've bought a ticket.
I've put it in my wallet.

In the natural rhythm of English, the stressed syllables of key words come at roughly equal intervals. Other less important words, such as articles, pronouns, prepositions etc., are usually spoken more quickly and are 'weak'.

Read these sentences aloud, and try and say the stressed syllables at regular intervals.

- 1 I've bought a ticket.
- 2 I've put it in my wallet.
- 3 I'm waiting for the train.
- 4 I've been waiting for the train for half an hour.
- 5 I seem to spend my life waiting for the train.

Now listen to the sentences on the recording and repeat them.

Speaking Part 3

- 1 What impact have modern forms of transport had on our lives? Do you think there were any benefits when people could only travel on foot or by using animals? Consider, for example, where we live, work and spend our free time and holidays.

Reading

- 2 Read this passage quickly. As you read it, think of how to summarise it in one short sentence.

🕒 about 750 words

One way that transport has affected our lives

For many centuries, there was little need for time to be accurately measured. The transition from day to night, the movement of the moon and the changing of the seasons were enough to measure large units of time, and for most people, the passing of the sun through the sky was adequate to indicate sunrise, midday and sunset.

Those who needed to order their daily time more accurately, such as monks or scientists, used a combination of measuring devices, such as sand timers or candles, or, if the sun was shining, the shadow of a sundial. All these devices were unreliable. Until late into the 18th century, very few people could afford watches and clocks, which were themselves inaccurate.

The Earth rotates once every 24 hours, and so places to the east start their day sooner than places to the west. When it is night in one place, it is day in another. Across Britain there is a difference in time of approximately half an hour from the eastern to the western extremities.

When travel and communications were slow, these local time differences were of little importance, and most towns and cities in Britain used local time. By the 18th century, coaches – which were drawn by horses – were taking mail and passengers across Britain, and the guards on these coaches carried timepieces so that they could regulate the arrival and departure times. These timepieces were adjusted to gain about 15 minutes in every 24 hours when travelling from west to

east, to compensate for the local time differences. And they were adjusted to lose 15 minutes in 24 hours when returning.

In the early part of the 19th century, communications started to be significantly improved, construction of the railways began, and telegraph by wires became common. Accurate time was becoming more and more essential for many aspects of life, and local time became a great inconvenience. A baby born in London early on Saturday morning might officially be a day younger than a baby born a few minutes later in Dublin – where it was still Friday evening. This could have quite serious legal implications for inheritances.

By the 1840s, there were at least three organisations which suffered inconveniences because of the use of local time – the railways, the telegraph companies and the Post Office – and it was the first of these that started the process of standardising time in Britain.

Trains travelling east to west appeared to be travelling more quickly than on the return journey from west to east, which caused many problems with timetabling. In November 1840, the Great Western Railway ordered that London time should be used in all its timetables and at all its stations, and by 1847 most of the railway companies had followed suit. It was usually referred to as 'railway time'. However, with a few companies keeping to local time, there could be all sorts of problems of missed

trains and connections. In some places, there were even two minute hands on the public clocks, one showing local, and the other one London time.

By 1855 the great majority of public clocks in Britain were set to London time, which is in fact the time at the Greenwich Observatory, just outside London: hence the name Greenwich Mean Time, or GMT. The last major opposition to standardisation came from the legal profession, which operated by local time for many years.

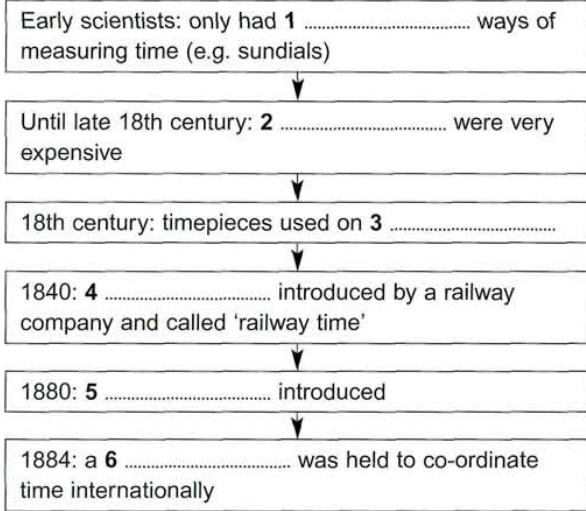

In 1845 the Liverpool and Manchester Railway company petitioned Parliament to ask that the same time be used for all ordinary and commercial purposes. This attempt was unsuccessful, and it was not until 1880 that Parliament introduced a standard time across the whole of Britain and there was no more confusion caused by local time. Britain was in fact the first country to standardise the time throughout a region, although the clock on the tower of Christ Church Cathedral, in Oxford, still shows local time, five minutes behind the rest of the country.

Co-operation on setting the time around the world dates from the International Meridian Conference in 1884.

3 Questions 1–6

Complete the flow chart below.

Use **NO MORE THAN THREE WORDS** from the passage for each answer.

Questions 7–12

Complete each sentence with the correct ending **A–I** from the box below.

Write the correct letter **A–I** by questions 1–6.

- 7 The distance across Britain from east to west
- 8 The slow speed of travel
- 9 The direction of travel
- 10 An event that took place before another one
- 11 The railway companies
- 12 The legal profession

- A** relied on unreliable devices to measure the time.
B led the demand for standard time.
C made accurate time-keeping unnecessary.
D could legally occur on the following day.
E varied, depending on the time of year.
F meant that local time varied by up to half an hour.
G resisted the adoption of standard time.
H affected the rate at which time appeared to pass.
I made London time compulsory.

Grammar Unreal present and future

4 Listen to the short talk about the attitudes of a particular car driver, and answer these questions.

- 1 Does Mr Smith have plenty of money?
- 2 Does he think the traffic problem is being solved?
- 3 Does he think trains are too crowded?
- 4 Does he need to earn a living?

5 Listen again, and complete the sentences.

- 1 If he plenty of money, he'd buy the car of his dreams.
- 2 It's high time the problem solved.
- 3 He would rather the money out of general taxation.
- 4 He sometimes travels by train, but he wishes they so crowded and at so many stations.
- 5 He often says to himself, 'If only I to earn a living.'

6 Now look at the verbs you have written in exercise 5, and complete this rule.

When the following structures introduce a statement about an unreal situation, the verb after them should be in a tense.

(I) wish ... (I)'d / would rather ...
 It's (about/high) time ... If (only) ...

wish + would

Compare sentences A and B:

A *I wish the government would build some new roads.*

This means that

- I am complaining about the present situation.
- I want something to happen, but it seems unlikely.

B *I hope the government will build some new roads.*

Here I am not complaining, and I think that the government may construct some new roads.

G page 143

7 Make up sentences for each of these situations, beginning *I wish ...*

EXAMPLE: You think people use their cars too much and should walk more often.

I wish people would use their cars less and walk more.

- 1 A friend of yours never phones you when she says she will.
.....
- 2 Your friend keeps promising to return a book that you lent him a year ago, but he never does.
.....
- 8 Can you think of situations where you might say something beginning *I wish ...* ?

Test folder 10

Labelling diagrams and maps

(Academic Reading, General Training Reading and Listening Modules)

In the Reading Modules, you may be asked to label a diagram with words from the passage.

In the Listening Module, you may be asked to label a diagram or map.

In the Reading Modules, you will be told the maximum number of words for each answer. The questions may not follow the same order as the information in the passage.

In the Listening Module the questions follow the order in which you will hear the relevant information on the recording. You may need to choose words from a box (as in 19.1 exercise 6, numbers 10–14), or choose parts of a drawing or map labelled alphabetically (as in exercise 1 below).

If you have to choose words from a box, there will be more words in the box than you need.

Words must be spelt correctly to gain marks.

Advice

Listening Module

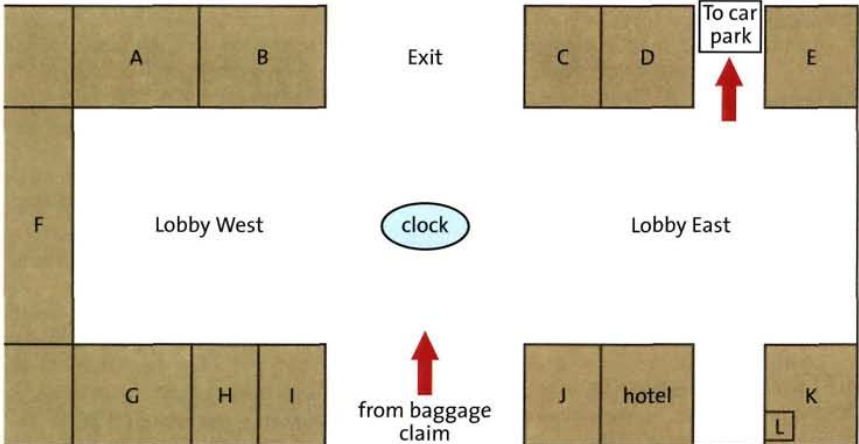

- Read the instructions carefully. Study the drawing, and the heading, if it has one. Try to work out what the drawing shows. If parts of the drawing have question numbers, find the first question number and notice where the numbers continue.
- Look carefully at the drawing, noting the words that are given. Think about words that might be used; for example, for a map you might hear words for giving directions – *left, right, on the corner, before, after*, and so on.
- Listen for information relevant to the first question. Think about the *meanings* of the words in the questions and box, if there is one. The words may be exactly what you hear, or you may hear different words that mean the same.
- When you hear the relevant information, listen carefully for the answer. If you miss an answer, go on to the next question or you may miss that too.

Listening

1  This is similar to Section 1 of the Listening Module.

Label the plan below.

Write the correct letter **A–L** next to questions 1–6.

1 luggage lockers

2 the Coffee House

3 cash machines

4 art gallery

5 classical CDs

6 quiet lounge

Advice

Reading Modules

- Skim the whole passage before you start working on any of the tasks.
- Read the instructions carefully. Study the drawing, and the heading, if it has one. Try to work out what the drawing shows.
- Find the part of the passage that is relevant to the drawing – the heading will help you. Read this part carefully, and look for the first answer. Write your answer, making sure you spell it correctly and write no more than the maximum number of words.
- Look for the other answers in turn.
- Check your answers. Make sure that they make sense: for example, if you are giving the names of parts of a machine, they should all be nouns or noun phrases.

Reading

- 2 Read this passage. It is similar to those in the Academic Reading Module, but shorter, at about 250 words. The task is typical of both Reading Modules.

New tunnels under city centre

A new eight-kilometre road is under construction linking the port area with the motorway system. This is expected to carry 20,000 trucks and cars a day, significantly reducing congestion in the city centre. As part of the project, two four-kilometre road tunnels are being bored below the central area of the city, one for northbound traffic, the other for southbound. The two tunnels are approximately 20m below the surface and are nearly 12m wide, providing for two lanes of traffic in each direction. In the upper part of the tunnel two ventilation ducts remove vehicle exhaust fumes and maintain the

quality of air inside the tunnel. The lighting is at the top of the tunnel, virtually at its highest point. There will also be electronic signs at frequent intervals, indicating traffic conditions ahead, and clearly visible to drivers. The wall is made up of four main elements, including a waterproofing membrane and, on the inside of the tunnel, a concrete lining.

Each tunnel is roughly circular, with the lower part somewhat flattened. The road surface lies on the base slab, which is of concrete reinforced with steel. Mains drainage, just below the road surface on one side, removes any excess liquid, particularly water. In the event of fire, the fire main, which is made of steel, pipes water to numerous fire hydrant stations at regular intervals along the length of the tunnel. The fire main is at the side of the tunnel, at the level of the road surface. Other systems in the tunnel will include emergency phones.

Label the diagram below.

Choose **NO MORE THAN TWO WORDS** from the passage for each answer.

Example:

- 0 ventilation ducts
1
2 on the tunnel side of the wall
3
4
5

Speaking Part 3

1 Discuss the following questions.

- Can you suggest reasons why people move to another country?
- Can you comment on the benefits for a country of receiving people who have moved from abroad?
- Can you speculate on possible future movements of people between different countries?

Reading

2 What do these words mean? Choose the best answers from the box.

- 1 migration
- 2 emigration
- 3 immigration
- 4 assimilation
- 5 settlement

- a becoming similar to a country's native inhabitants
 b moving from one country to another
 c moving away from one's home country
 d making a permanent home in a country
 e moving into another country

3 Now read this passage. As in the Academic Reading Module, there are 13 questions. Try to read the passage and answer the questions in 20 minutes. You may find it helpful to write a few key words beside each paragraph. Think about question 1 as you read.

Question 1

Which of these statements best sums up the passage?

- A The reasons for migration have changed significantly.
 B Migration is caused by a combination of many factors.
 D Governments have the most influence on migration.
 C Migration is best explained in terms of personal choices.

🕒 about 725 words

IMMIGRATION: AN INTRODUCTION

A Migration takes many forms. People migrate as manual workers, highly qualified specialists, entrepreneurs, refugees or as family members of previous migrants. Whether the initial intention is temporary or permanent movement, many migrants become settlers. Migration has been part of human history from the earliest times, but it has grown in volume and significance, and may be one of the most important factors in global change.

B No single cause can explain why people choose to leave their country and settle in another. It is hardly ever a simple individual action, in which a person decides to move in search of a better life, leaves the home country and quickly becomes assimilated in the new country. Much more often, the process of migration and settlement stretches over a long period, affecting the rest of the migrant's life and also later generations. It is a collective action, caused by social change and affecting the whole society of both countries.

C While some theories about migration emphasise individual choice, and others focus on the influence of governments and business, it is more realistic to understand migration in terms of a complex interaction among all these elements. Large-scale institutional factors, such as international relations, political economy and government policies, play a part in any decision to emigrate, as do the informal social networks, practices and beliefs of the migrants themselves.

D Migration generally arises from the existence of previous links between home and new countries, based on colonisation, political influence, trade, investment or cultural ties. For instance, migration from some North and West African countries to France is linked to earlier French colonisation, leaving French as a major language of the countries concerned.

E Typically, migration is started by an external factor, such as a shortage of labour in the new country. Often the initial movement is by young people, usually men. Once a path has been established, relatives and friends follow, and are assisted by those already there. Social networks based on family or a common place of origin help to provide housing, work, assistance in coping with bureaucratic procedures and support in personal difficulties. These social networks make the process of migration safer and more manageable for the migrants and their families.

F Migrant groups develop their own social and economic infrastructure: places of worship, associations, shops, cafés, lawyers, doctors, and other services. This is linked to families being reunited: the longer the original migrants stay, the more likely they are to bring their partners and children in, or to start new families. People begin to see their life as being based in the new country. This is particularly true of migrants' children: once they go to school in the new country, learn the language and make friends, it becomes more and more difficult for the parents to return to their homelands.

G While the links between immigrant community and area of origin may sometimes be weakened, they are more likely to continue over generations. Family and cultural links remain, new business links may be developed.

H Although each migration has its specific historical patterns, certain generalisations can be made on the way migrations evolve. For example, most start with young, economically active people going abroad temporarily. They want to save enough in a higher-wage economy to improve conditions at home, to buy land, build a house, set up a business, or pay for education. After a period in the new country, some of these migrants return home, but others stay on.

I This may be because they find living and working conditions in the new country better than in their homeland. But it may also be because of relative failure: migrants may find it hard to save as much as they require, and stay on in the hope of succeeding eventually. As time passes, many of them are joined by their families, or find partners in the new country. With the birth of children, settlement takes on a more permanent character, whatever the original intentions.

J This can be summed up in a four-stage model. First, young workers move in order to work abroad temporarily, and send money home. Secondly, the stay is lengthened, and social networks are developed, providing mutual help. Thirdly, the original migrants' families join them, there is an increasing orientation towards the new country, and ethnic communities emerge with their own associations, shops, professions, and so on. And finally settlement becomes permanent.

Questions 2–8

The passage has ten paragraphs labelled A–J.

Which paragraph contains the following information?

Example: an outline of a pattern of migration

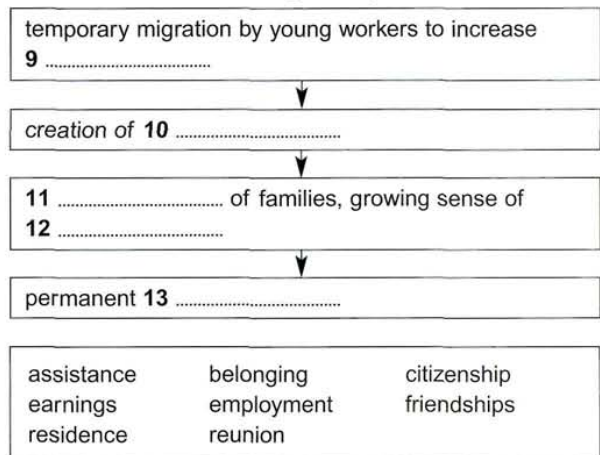

Answer: J (This can be summed up in a four-stage model...)

- 2 likely effects of being brought up in the new country
- 3 a reference to alternative, less likely, explanations of migration
- 4 how not achieving an objective may lengthen a stay abroad
- 5 some ways in which existing immigrants may help newcomers
- 6 'large-scale' reasons why migrants have moved from certain areas to a particular country
- 7 a description of a pattern of migration that rarely occurs
- 8 some reasons for sending money home

Questions 9–13

Complete the flow chart below using words from the box.

Model of migration process

Listening

- 1 Can you answer these questions about Canada?
 - 1 What is the capital?
 - 2 What is the biggest city?
 - 3 What are the two official languages?
 - 4 What are the three oceans to the west, north and east of Canada?
 - 5 Is the leaf on the Canadian flag from an oak, a maple or a redwood tree?
- 2 You are going to hear about two immigrants to Canada.

 The first section is about Azim Lila, whose family moved from Tanzania to Canada when he was nine.

Questions 1–5

Complete the notes using words from the box.

Remember that the words in the notes may not be the ones you hear on the recording.

capital challenges coast cultures
education family jobs talents

Azim Lila

- place where brought up: 1 of Tanzania
- brought up to believe in value of 2
- moving to Canada presented various 3
- 4 helped to finance his studies
- believes life in Canada helps people develop their 5

 The second section is about a Russian woman, Tatyana Litvinova.

Questions 6–12

Answer the questions below.
Write **NO MORE THAN TWO WORDS** for each answer.

- 6 What is Tatyana's field?
- 7 What did she want money for?
- 8 Who did she miss most after moving to Canada?
- 9 What was she unable to help her children with at first?
- 10 What did she listen to, in order to improve her English?
- 11 What does she think is beautiful in Canada?
- 12 What does she particularly admire about Canadians?

- 3 Should immigrants want to become part of the community of the country they move to? Or should they still feel they belong to the country they came from?

Vocabulary Phrasal verbs

- 4 Read through this passage, and choose a different phrasal verb from the box for each space, putting it in the right form.

deal with hold on to live up to
look forward to put up with
turn out work at

Immigration and identity

The interviewees in this study, all immigrants to New Zealand, were attracted by the country's freedom and prosperity.

For most of them, the country had fully 1 their expectations. For some, going there 2 to be the best move they had ever made.

However, many immigrants find that their new situation shakes their sense of cultural and personal identity. They might need to 3 difficult questions of how they define themselves, and how much of the new country's culture they are willing to accept into their lives.

The people we interviewed fall into three main groups. One group define themselves by their own, personal identities. They may maintain their original heritage, but at the same time they are open to New Zealand culture, and 4 their eventual assimilation into the community.

Another group maintain a strong sense of identity with their homeland, and tend to mix with others from that country living in New Zealand. They make the most of those aspects of the local culture that they can relate to, and 5 the rest.

The third group do all in their power to 6 their original cultural identity, and 7 recreating their own ethnic community inside New Zealand. They avoid contact with people from other cultures. Despite some tensions, all three groups have become important elements in the complexity and depth of New Zealand culture.

Grammar

Position of adverbs

- 5 When certain words are placed with the verb in a sentence – rather than at the beginning or end of the sentence – there are rules about their precise position. These words include *all*, *both*, adverbs of frequency like *always*, *often*, *hardly ever*, and some other adverbs, such as *also*, *almost*, *probably*, *soon* and *no longer*.

Look at these three examples, then match the situations 1–3 with the rules a–c.

Azim's parents were **both** from Tanzania.

When Azim went to university he **soon** found a job.

Azim's family had **never** been rich.

- 1 When there is only one verb, and it is *to be*, the adverb ...
- 2 When there is only one verb, and it is **not to be**, the adverb ...
- 3 When there is at least one auxiliary or modal verb, the adverb ...

- a goes after the first one.
- b goes in front of the verb.
- c follows the verb.

G page 143

- 6 Put a slash (/) in each sentence to indicate where the adverb in brackets should go, according to the rules above.
- 1 Tatyana Litvinova is working at the University of Alberta. (currently)
 - 2 Before emigrating to Canada, Tatyana had been separated from her sister. (never)
 - 3 Years after moving to Canada, she loves Russia. (still)
 - 4 However, she is happy with her life in Canada. (still)
 - 5 Some people have left their home before deciding to emigrate. (hardly ever)
 - 6 Because of my new job, I changed my mind about emigrating. (almost)
 - 7 Since moving inland, I go to the beach every day. (no longer)

- 7 The following sentences show errors made by IELTS candidates who have put the adverb in the wrong place. Write each sentence with the adverb in the right place. One sentence is correct.

- 1 We **also** can see from the chart that the number of immigrants rose sharply.
- 2 An immigrant who has **already** work experience will find it easier to get a job.
- 3 People who are living in a foreign country **still** can find happiness in their lives.
- 4 We must **always** look on the bright side.
- 5 **Particularly** I like meeting people.
- 6 Immigrants **sometimes** will miss people and things from their old home.
- 7 It will be **still** very cold next month.
- 8 The number of immigrants to Canada has been **also** affected by economic conditions in other parts of the world.

Quiz

- 8 And finally ... here is a quiz about some other English-speaking countries.

- 1 What are the three countries shown in the maps?
- 2 Is a didgeridoo a musical instrument, a poisonous snake or a type of plant?
- 3 What is the capital of Australia?
- 4 Which of these animals is native to Australia: a mongoose, a panda or a koala?
- 5 What are the names of New Zealand's two main islands?
- 6 Which bird is the symbol of New Zealand: the kakapo, the kiwi or the kookaburra?
- 7 Which of these are the most numerous in New Zealand: sheep, people or kangaroos?
- 8 After English, which language is spoken by the largest number of people living in the USA?
- 9 As well as being a plant, is 'bluegrass' an animal, a vehicle or a type of music?
- 10 What is the maximum time that a US president can hold office?

Writing folder 10

Preparing for the IELTS General Training and Academic Writing Modules

Advice

- Underline key words or phrases in the question.
- Take time to plan your answer.
- Quickly write down some ideas and then try to organise them into paragraphs.
- Leave a clear line between paragraphs.
- Write neatly.
- Cross words out in a neat way and not too often.
- Make sure your answer is the right length – that is at least 250 words but not more than about 290 words for Task 2 and at least 150 words for Task 1.
- Check your spelling and grammar carefully – that is, proofread your work!
- Make sure you answer all parts of the question.
- Check you have used appropriate language, especially in a formal letter or essay.

Proofreading

- 1 The following are sentences taken from essays written by IELTS candidates on the subject of immigration. Correct the common grammatical errors that they contain. All the sentences contain errors.
 - 1 I am agree that people should be allowed to travel to find work.
 - 2 If people have many experience, I think they can become citizens quite easy.
 - 3 Young people what are new to a country have to learn many things about it.
 - 4 There are many place, for example in factories, in where they can work.
 - 5 In some countries people they can be stay there as long as they want to.
 - 6 The families are not as close as they used to because widespread emigration.
 - 7 It is known that every problems comes from poor communication.
 - 8 You need many money for taxes, for clothes, for food, for everything in new country.

Using appropriate language

- 2 When writing a Task 2 essay in both the General Training and Academic Writing Modules it is important to use a formal style. Read this Task 2 question and answer, and circle the more academic of the words in italics.

There are more advantages to studying abroad than disadvantages.

To what extent do you agree with this statement?

Nowadays, there is a **1** *growing / big* tendency among some families to send their **2** *kids / children* abroad for a better education. **3** *First of all / In the first place*, some countries **4** *such as / e.g.* the USA, Canada, Britain, **5** *etc. / and so on* have very advanced **6** *schools / educational systems*. **7** *Kids / Children* studying there will **8** *receive / get* a very good education. **9** *Next / Secondly*, living abroad will also **10** *enrich / make better* their knowledge, broaden their minds and widen their horizons. It will help them in the understanding of other countries, both of the culture and the people.

11 *Admittedly / True*, studying abroad requires **12** *a considerable amount / a lot of* money. The tuition **13** *money / fees*, the living expenses and the **14** *flat / accommodation* all cost **15** *a great deal / a lot*. **16** *In addition, / And* a child living abroad alone may **17** *get lonely / suffer from loneliness*.

18 *However, / But* the advantages of sending a teenager abroad **19** *to get educated / for educational purposes* far outweigh the disadvantages. They can **20** *study / learn* advanced technology and science, they can learn to speak a language **21** *well / fluently* and their minds will be enriched. The **22** *problem / trouble* is, when is **23** *an appropriate / the right* age to send them abroad? **24** *If you have enough money / Money permitting*, I think the time after high school is the **25** *most suitable / best*. **26** *At this time / Then*, they can live **27** *by themselves / independently*, and therefore learn something new **28** *better / more effectively*.

Further practice

Task 1

You should spend about 20 minutes on this task.

The diagrams below give information about immigration to the United States.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Total number of immigrants to the USA in each decade: 1850s to 1930s

Immigration into the USA by country of origin 1882

Immigration into the USA by country of origin 1907

Task 2

You should spend about 40 minutes on this task.

Write about the following topic:

A larger proportion of people live and work in other countries today than at any time in the past. It is very probable that in the future there will be no borders and people will be able to move freely between countries.

To what extent do you agree with this opinion?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

Units 17–20 Revision

Topic review

1 How far do you agree with these statements? Give reasons for your answers.

- 1 Occasionally, it's a good idea to spend a day without a watch or clock.
- 2 Entertainments should be planned for daytime or early evening, not late at night.
- 3 Wasting time can be good for us.
- 4 Society should be organised so that only emergency workers need to work at night.
- 5 Working in the tourist industry has plenty of advantages.
- 6 Children are unlikely to benefit from travelling to other countries.
- 7 We should live close to our work rather than at a distance.
- 8 Air travel is harmful for the environment, so people should be discouraged from flying.
- 9 People should be able to live in any country they choose.
- 10 Cities with communities from many countries are likely to be exciting places to live in.

Vocabulary Phrasal verbs

2 Complete these sentences with a phrasal verb consisting of a verb from the first column and a particle from the second. You will need to use one of the verbs twice. In number 6 the particle follows the object. All of these phrasal verbs are used in 18.2 and 20.2.

deal	down
keep	forward
put	on
set	over
take	up
	with

Since the factory where I work was 1 by one of its competitors, shift work has been introduced. The staff are unhappy about this, and want the company to 2 the problems faced by shift workers. They have 3 some suggestions for improving conditions. One is that the company should 4 a working party to find out what is known about the effects of working at night.

They also want the company to 5 additional staff and reduce working hours. The senior managers' aim, however, is to 6 the number of employees and improve productivity.

3 Complete the three-part phrasal verbs in these sentences. All of them are used in 18.2 and 20.2.

- 1 I was very disappointed when I broke my leg and had to cancel my holiday, because I'd been looking it for months.
- 2 People sometimes plan a long holiday, then come the problem that they can't get enough time off work.
- 3 Nowadays we so often see famous places on television that they may not live our expectations if we visit them.
- 4 Holiday companies are coming ideas for attracting new customers, such as targeting activity holidays at the elderly.
- 5 I didn't much like the tour guide, but as we were in the middle of the rain forest I had to put him.
- 6 Increasing competition means that package tour operators can't easily get selling holidays that are poor value for money.
- 7 Holiday companies must face growing concern about the impact of travel on the environment.
- 8 The experience that can be gained on an adventure holiday makes any lack of comfortable facilities.

Grammar

Phrasal verbs

- 4 Some of the phrasal verbs in **bold** need a pronoun. If they do, write the phrasal verb with the appropriate pronoun in the right position. Some sentences are correct.

EXAMPLES: The travel company was very successful, but lost its separate identity after a bigger rival **took over**.
took it over

In some holiday locations, insects can be irritating but you just have to **put up with**.
put up with them

- 1 I didn't have time to book my flight, so a friend offered to **deal with**.
- 2 The Tour Leader **came across** as being very intelligent.
- 3 Here's a very old boat ticket to Canada. I **came across** in a suitcase in the attic.
- 4 I've got some leaflets for the passengers. Could you help me to **give out**?
- 5 Understanding another country's culture takes time – you have to **work at**.
- 6 The cost of living has risen so much recently that more and more people are struggling to **get by**.
- 7 This poster has faded so much that I can hardly **make out**.
- 8 When there was an outbreak of flu, many people who were living in crowded conditions **went down with**.

Position of adverbs

- 5 Put a slash (/) to show where the adverb in brackets should go in the sections of the sentences in *italics*.

- 1 It is encouraging to know that *monorails are involved in accidents*. (hardly ever)
- 2 *I travel by public transport* if I can. (nearly always)
- 3 People who work at night *are able to sleep well during the day*. (rarely)
- 4 *The passengers were asleep* when the plane flew over Niagara Falls. (all)
- 5 *It has been said* that travel broadens the mind. (often)
- 6 *We can hope* that we aren't stuck in this traffic jam for much longer. (only)
- 7 I'm afraid *the special offer on tickets is available*. (no longer)
- 8 It took so long to say goodbye that *I missed the plane*. (almost)

Obligation, lack of obligation and prohibition

- 6 Complete this leaflet by choosing *must*, *mustn't*, or a form of *have to* or *don't have to* for each space.

Stamford Ecotours:

Information for potential Tour Leaders

We organise tours for small groups, each with a Tour Leader, to environments as varied as rain forests, deserts and the Arctic.

Some people fear that any form of tourism is harmful, but we believe that people 1 give up travelling altogether – responsible tourism (ecotourism) is the answer. We can explore other countries, but we 2 keep our impact on the local environment and community to a minimum.

To achieve that, at Stamford Ecotours we have established certain rules: our Tour Leaders and our customers

- 3 do their best to conserve the environment and preserve the well-being of local people
- 4 dispose of litter in a responsible manner
- 5 buy products that exploit wildlife or harm the environment.

Anyone wishing to become a Tour Leader 6 be sympathetic towards the concept of responsible tourism. However, he or she 7 have worked in the tourist industry, as we will provide training. Please note that as a Tour Leader, you will 8 spend up to six months at a time based abroad, before returning home.

Unreal present / future

- 7 Complete each sentence with a suitable verb. Make sure you use the correct tense. Some verbs need to be negative.

EXAMPLE: I'd rather you *didn't give* me anything more to carry – I've already dropped your sunglasses.

- 1 Many people wish they enough time and money to travel around the world.
- 2 It's time the government more effort to reduce the use of private cars.
- 3 Drive if you really want to, but I'd rather you here by train.
- 4 It's a lovely day for walking along the beach. If only I so far from the coast!
- 5 I wish more shops open twenty-four hours a day.
- 6 You're obviously very tired – it's high time you to bed.
- 7 I'd rather you so much noise, as I'm trying to sleep.
- 8 It's about time you your own car instead of borrowing mine.

Grammar folder

Unit 1

The passive

The passive is used:

- when the action is more important than the person doing it
The World Wide Web was invented by Tim Berners-Lee.
- when we don't know who did something
Paper was invented in China.
- when reporting the news, and in academic and scientific writing where we are more interested in events and processes than in the person doing the action
The conference on Internet marketing is held every year in September.

Formation of the passive

The passive is formed with *be* + past participle of a transitive verb. For modals it is formed with the modal + *be* + past participle.

present simple	<i>It is made</i>
present continuous	<i>It is being made</i>
present perfect	<i>It has been made</i>
past simple	<i>It was made</i>
past continuous	<i>It was being made</i>
future simple	<i>It will be made</i>

Compare these sentences:

- A *Martin Cooper made the first public mobile phone call.*
 B *The first public mobile phone call was made by Martin Cooper.*
 Sentence A is active and follows the pattern of Subject (*Martin Cooper*), Verb (*made*) and Object (*the first public mobile phone call*). Sentence B is passive and the pattern is Subject (*the first public mobile phone call*), Verb (*was made*) and Agent (*by Martin Cooper*).

The infinitive

Where the situation is in the present and an impersonal sentence is needed, we can use the passive form of the verb plus the infinitive.

- The language is said to be dying out.*
 In the past, we use the passive plus the past infinitive.
Silbo is said to have come from Africa.

Unit 2

Comparison

Comparative and superlative adjectives

- Regular one-syllable adjectives have forms like these:

adjective	comparative	superlative
young	younger	(the) youngest

If an adjective ends in a single vowel and consonant (not w), the final letter is doubled, as in *thin* to *thinner*.

Examples: *sad, big, fat, hot, wet*

- Two-syllable adjectives ending in a consonant followed by the letter -y have forms like these:

adjective	comparative	superlative
dirty	dirtier	(the) dirtiest

Examples: *angry, busy, easy, funny, happy, heavy, silly, tiny*

- Most other two-syllable adjectives and all longer adjectives form their comparative and superlative like this:

adjective	comparative	superlative
careful	more careful	(the) most careful

- Some common two-syllable adjectives can use either of the forms above.

adjective	comparative	superlative
simple	simpler OR more simple	(the) simplest OR (the) most simple

Examples: *clever, cruel, gentle, likely, narrow*

- Irregular adjectives have the following forms:

adjective	comparative	superlative
good	better	(the) best
bad	worse	(the) worst
far	farther/further	(the) farthest/furthest
old	older/elder	(the) oldest/eldest

Negative comparatives and superlatives

- To make negative comparisons we use *not as ... as* or *less ... than*. We tend to use *not as ... as* with adjectives that have a positive meaning, e.g.
Chips are not as good for you as baked potatoes.
We tend to use *less ... than* with adjectives that have a negative meaning, e.g.
Some types of fat are less harmful than others.
- To make negative superlative statements we use *the least*.
He always chooses the least expensive dish on the menu.

adjective	negative comparative	negative superlative
heavy	less heavy (than) OR not as heavy as	(the) least heavy

Using adverbs of degree

- These adverbs of degree can be used in front of comparative adjectives: *a bit, a good deal, a great deal, a little, a lot, much, rather, slightly, considerably*.
Bananas are a bit better for you than apples.
There is a great deal more Vitamin C in a potato than in rice.
- These adverbs of degree can be used in front of superlative adjectives: *by far, easily*.
Chocolate is by far the nicest thing to eat!

Unit 3

Cause, purpose and result

Cause

Because and *because of* are used to express the cause of an event or state.

Because is a conjunction, so it must be followed by a finite clause:
Edinburgh attracts a lot of visitors during the summer because the festival is very popular.

Because of is a compound preposition ('compound' means that it consists of more than one word). It is most often followed by a noun phrase:

Many people prefer cities to the countryside because of the night life.

Because of can also be followed by a clause beginning with a *wh*-word, usually *what*.

I visited the museum because of what I'd been told about it.

A more formal alternative to *because of* is *on account of*.

Purpose

The purpose of an action (that is, what is hoped for as a result of the action) can be expressed by using *so that* (usually *so* in informal language). It is followed by a finite clause, often containing *could* or *would*.

I booked a hotel room in advance so (that) my friends could meet me there as soon as I arrived.

Notice that in this example, the two subjects (*I* and *my friends*) are different, and that we don't know whether my friends met me or not: all we know is that that was my purpose, or intention.

Result

Unlike a purpose, a result is something that actually happens. It can be expressed with *so* (**not** *so that*). *So* is a conjunction and is followed by a finite clause.

All the hotels seemed to be full, so I stayed in a youth hostel.

Be careful not to confuse the purpose and result meanings of *so*.
I booked a cheap hotel at a distance from the city centre so I could save money, but I spent a lot on taxis, so I didn't save anything.
The first *so* introduces a purpose; the second one – a result.

In formal language, results are usually expressed in other ways:

The city's advertising campaign led to / resulted in a big increase in the number of tourists.

The bridge was closed, with the result that traffic came to a standstill.

Unit 4

Review of present tenses

Present simple

This is the most common of the present tenses. It is used for certain meanings, and also when the meaning is not covered by one of the other tenses, so use it if you are not sure which present tense is right.

Main meanings:

- frequency (how often an action is carried out)
In my college, prizes are given once a year.
- a general or permanent truth (not only now)
Good teachers explain the subject in a way that their students can understand.
- This tense also has a future meaning: see page 140, Unit 8.

Present continuous

Main meanings:

- a temporary activity happening at this moment
I won't interrupt Johnny now because he's writing an assignment.
- a temporary activity happening around now
In music this year we're making our own instruments.
Only verbs referring to an action, whether physical or mental, can be used in the continuous tenses. This sentence is grammatical because the verb refers to a temporary action:
You're being very silly.
However this sentence is ungrammatical, because *to believe* doesn't refer to an action:
~~*I'm believing in the importance of studying with other people.*~~
This should be:
I believe in the importance of studying with other people.
- This tense also has a future meaning: see page 140, Unit 8.

Present perfect simple

This tense connects the past with the present.

Main meanings:

- an action or situation that started in the past and continues to the present
Schools of some sort have existed for well over two thousand years.
I've never studied economics.
- an action or situation that finished at an unspecified time in the past
The only foreign language I've studied is Spanish.

- an action or situation that started in the past, and may or may not have finished. The emphasis is on its result in the present.
I've forgotten my password, so I can't access my emails.

The present perfect simple is generally used with *just*, *yet* and *the first/only time*.

I haven't finished reading this book yet.

That was a really good lecture – it's the first time I've understood the subject.

Present perfect continuous

This combines the meanings of the continuous and perfect tenses.

Main meanings:

- actions which have lasted for some time and are likely to continue. Often a length of time is given.
I've been studying chemistry for three years and there's another year to go.
- actions which have lasted for some time and have just stopped. Usually no length of time is given.
I've been reading about colleges in this area, and there are several that offer the qualification I want.

Like the present continuous, this tense can only be used with verbs referring to a physical or mental action.

Unit 5

Review of past tenses

Past simple

This is used to talk about events which:

- began and ended in the past
The USA became independent in the late 1700s.
This indicates a completed action in the past with a fixed time phrase.
- happened regularly
The archaeologists returned to the site every summer.

Past continuous

This is used to talk about events which:

- were unfinished at a particular time in the past
The islanders were fishing when the explorers first saw them.

Past perfect

This is used to talk about events which:

- happened before a particular time in the past
Kim took some photos of the palace after he had taken ones of the temple.

Note that the past perfect needs to be used when it is important to show a time difference. Sometimes it is omitted if it is not important to the sense of the sentence.

Unit 6

Past simple or present perfect?

See Unit 4 for the present perfect and Unit 5 for the past simple.

Unit 7

Relative clauses

There are two types of relative clause:

Defining: gives essential information about the noun it relates to, making it clear what the noun refers to.

Many people of all ages enjoy TV commercials which rely on humour.
This means something different from *Many people of all ages enjoy TV commercials.*

Non-defining: gives additional, non-essential information. If this information is omitted, it is still clear what exactly the noun refers to. *In recent years, advertisers have had considerable success with viral marketing, which probably dates from 1996.*

As the examples show, commas are used in non-defining clauses, but not in defining clauses. It is important to use punctuation correctly in relative clauses, as inaccurate use can change the meaning of the sentence.

A manufacturer of sports clothes has cancelled its advertisements which have been criticised by the public.

A manufacturer of sports clothes has cancelled its advertisements, which have been criticised by the public.

In the first example, only the advertisements which have been criticised have been cancelled, and the manufacturer's other advertisements will continue. In the second example, all the advertisements have been cancelled because they have all been criticised.

Relative pronouns

In **defining relative clauses**, you can use:

- *who* or *that* when referring to people
I'm going to a talk to be given by an athlete who/that appeared in a TV commercial for running shoes.
- *which* or *that* when referring to things
The event which/that Toby Young describes was intended to advertise his latest book.

The relative pronoun can be left out when it is the object of a clause, as in the second example above, where it is what Toby Young describes. It must be included when it is the subject, as in *who/that appeared in a TV commercial for running shoes.*

In **non-defining relative clauses**, you can use:

- *who* when referring to people
Gary Phillips, who set up his advertising agency ten years ago, has become very successful.
- *which* when referring to things
At yesterday's meeting, which was arranged to discuss the current campaign, the manufacturers agreed to extend their contract with the advertising agency.
- *which* when referring to a whole clause
*In one particular commercial, a man washes his hands in car oil, which is intended to imply that the oil is also good for car engines. Here *which* refers to the whole of the underlined clause.*

whose

Whose is used to refer to people and – less often – things.
Our next speaker is Sharon Cooper, whose book on the history of advertising was published last year.
A commercial whose strength lies in humour is more likely to be remembered than a more straightforward one.

whom

Whom is mostly used in fairly formal language. It can be the object in a clause, or follow a preposition.
The group whom the government wishes to protect from the effects of advertising is children.
To whom it may concern: Stephanie Allen has been employed at this advertising agency since September 2003.

where, when, why

These words can be used instead of a relative pronoun after appropriate nouns. It is possible to omit *when* and *why* in defining relative clauses, as in these examples:
The launch of a new product is the time (when) you see if all your hard work has been successful.
The brilliant advertising campaign for these running shoes is the reason (why) sales have rocketed.

Unit 8

Talking about the future

There are many ways of talking about the future, usually reflecting the speaker's attitude. These are the main ones:

shall/will/'ll

- a decision or offer made at this moment
If you want to sell some furniture, I'll put an ad in the local newspaper for you.
- a prediction
This poster will definitely attract people's attention.

going to

- something already decided or (less often) arranged
We're going to use Veronica's ideas for the banner, and that's why she's been put in charge of the project.
- a future result of a present situation
Our advertising campaign did nothing to improve sales, so this is going to be a very bad year for us.

present continuous

- something already arranged or (less often) decided
I'm being interviewed on the radio tomorrow about my new book.

present simple

- time and conditional clauses introduced by *if*, *unless*, *when*, *as soon as*, etc.
I'll show you my proposal for the advert as soon as I get to the office.
- a timetable, usually not involving the speaker (this is much less common than the structures above)
My train leaves in ten minutes.

future continuous

- a temporary event in the future
This time tomorrow I'll be working on my next commercial.
- a future event that will happen as a matter of course, independently of the wishes or intention of anyone concerned
I try to avoid Jeremy Matthews as much as possible, but I'll be seeing him at the marketing conference.

future perfect

- an event or situation that will be finished before a particular time in the future
I'll have finished this project by Friday.

Unit 9

Countable and uncountable nouns

A noun can either be countable or uncountable. Uncountable nouns cannot be made plural, and they only have one form. They take a singular verb. Uncountable nouns are often the names of things or substances or abstract ideas which cannot be counted. Examples of common uncountable nouns are: *accommodation, traffic, news, pollution, work, weather, information, advice, electricity*

Singular countable nouns can use *a/an* and *the*.
A new project was started this morning.
The man next door is a government scientist.

Some nouns can be countable and uncountable and have a difference in meaning:

Her hair is very long. (uncountable noun meaning the hair on her head)
There's a hair in this sandwich! (countable noun)

Coffee grows in Brazil. (uncountable noun for the product)
Would you like to come round for a coffee? (countable noun meaning 'a cup of coffee')

There is an important difference in meaning between *a few / few* and *a little / little*. For example:
There were few people at the meeting. (It was disappointing because not many people were there.)

There were **a few** people at the meeting. (There weren't many people there, but there is no suggestion that more were expected.)

I've seen little improvement in your work recently. (negative comment)
I've seen a little improvement in your work recently. (positive comment)

Unit 10

-ing forms and infinitives 1

-ing forms

-ing forms can be the subject or object of a clause or sentence:

Analysing the results took them all day. (subject)

I enjoy **working** with computers. (object)

-ing forms are used:

- after certain verbs and expressions, especially those expressing liking/disliking

I don't mind sharing a flat.

Other examples are:

love	can't stand	miss
enjoy	dislike	imagine
adore	don't mind	finish
feel like	avoid	it's not worth
detest	suggest	it's/there's no use
hate	consider	there's no point

- after adjective and preposition combinations
My landlady is fantastic at cooking.
Other examples are: *good/bad at, pleased, worried about, afraid, terrified of, interested in, keen on*
- after verb and preposition combinations
I don't approve of having parties every night.
Other examples are: *look forward to, object to, insist on, believe in, succeed in, apologise for, accuse someone of, consist of, congratulate someone on*
- after phrasal verbs
The college took over running the hostel from a private landlord.

The infinitive

The infinitive is used

- after certain verbs
I can't afford to pay too much rent.
Other examples are: *agree, hope, promise, ask, want, expect, choose, intend, prefer, help, pretend*
- after certain adjectives
I was surprised to see him making his bed.
Other examples are: *difficult, possible, happy, certain, simple*
- after verbs with the pattern: verb + someone + to do + something
I asked her to open the window.
Other examples are: *encourage, permit, allow, persuade, teach, force*
- to express purpose
I went to Australia to study economics.

The infinitive without to

This is used after modal auxiliaries (*can, must*), after *let, had better* and *would rather*. *Make* has no *to* in the active, but adds *to* in the passive:

I made him go to school. / He was made to go to school.

Help is followed by the infinitive with or without *to*. *Let me help you (to) move into your new flat.*

Unit 11 Articles

There are three possibilities with articles: *a/an* (the indefinite article), *the* (the definite article) and no article (the zero article):

We stopped near a lion and a tiger. The lion noticed us but the tiger didn't. Lions are fascinating animals.

The indefinite article, *a/an*, is used:

- before a singular, countable noun when it is used for the first time, as in the example above: *We stopped near a lion and a tiger.* Before plural countable nouns used for the first time we use *some*, and before uncountable nouns either *some* or no article: *We stopped near some lions. I need some information.*

The definite article, *the*, is used before singular and plural countable and uncountable nouns when it is clear what is being referred to, for one of these reasons.

- it has been referred to directly before, as in the example above: *The lion noticed us but the tiger didn't.*
- it has already been referred to indirectly: *I visited a zoo recently, and really enjoyed watching the animals.* The *zoo* implies that there were animals there.
- it is clear from the situation
I took the children to the zoo yesterday. Here the speaker assumes that the listener knows which children I'm referring to (probably my own) and which zoo (probably the only one where I live).
- it is unique, or generally talked about as though it is unique
the Earth, the sun

No article is used

- with uncountable nouns
Zoology is a fairly popular subject.
- when something is referred to in general
Lions are fascinating animals.

Unit 12

Should, had better, ought to

These are used to give advice, or say what we think would be a good thing to do now or in the future.

- *Should* and *ought to* mean the same, but *should* is used much more often.
The team should spend / ought to spend less time chatting, and more time training.
- *Shouldn't* is used to give advice about what not to do. *Oughtn't to* is also possible, but is used less and less.
The team shouldn't spend so much time chatting.
- *Had better* (usually shortened to *'d better*) normally refers to the present situation, rather than the future, and is more informal than the other two. It is used in speech more than in writing.
We'd better do some more practice before the match.

Should have done and ought to have done

These refer to the past, and are often used for criticism because an action didn't happen.

We should have spent / ought to have spent longer practising.

Shouldn't have done and (occasionally) oughtn't to have done

These refer to the past, and are often used for criticism because an action happened.

We shouldn't have spent so long chatting. (We've missed our train.)

Unit 13 Conditionals

Conditional clauses state the condition which must be satisfied before the main clause may be true. There are four main types:

Zero conditional

If + present tense / present tense

Not a true conditional, as the events described both happen.

If I go shopping alone, I spend too much money.

First conditional

If + present tense / future tense with *will*

Used to talk about something that will probably happen in the future, if something else happens.

If I have enough money, I'll study abroad.

I'll go to the party on my own, if you don't make a decision soon.

Second conditional

If + past tense / *would, could, might*

Used to talk about unlikely or impossible situations. *Were* instead of *was* is often used after *if*. This is common in both formal and informal styles. Some people consider *were* is more correct, especially in American English.

If I inherited some money, I'd go on an expensive holiday.

I wouldn't watch TV if there was/were something better to do.

Third conditional

If + past perfect / *would have, could have, might have* + past participle

Used to speculate about what could have happened in the past.

If we had had a choice, we wouldn't have left school at 16.

If Marisa had caught the right train, she wouldn't have been late for class.

Other words with the same meaning as *if*.

- *Unless* has a similar meaning to *if not*, in the sense of *except if*.
I never wear a suit unless it is absolutely necessary.
- *As/so long as, providing (that), provided (that), on condition that* are all used to make conditions.
They were given permission to build the office block as long as they provided adequate parking facilities.

Unit 14

-ing forms and infinitives 2

Some verbs can be followed by both an *-ing* form and an infinitive.

In some cases the meaning of the verb may change according to whether it is followed by the *-ing* form or the infinitive.

No change in meaning

Verbs such as *start, begin, continue, attempt, intend, can't bear*

The artist started to paint the man's portrait.

The artist started painting the man's portrait.

Slight change in meaning

Verbs such as *like, prefer, hate, love*.

Compare: *I like wearing blue.* (talking about something in general)

I like to wear a black suit to work. (talking about a habit)

After *would like, would prefer, would hate* and *would love* an infinitive is used.

Would you like to choose a colour for the kitchen walls?

A change in meaning

Verbs such as *try, stop, regret, remember, forget, mean, go on*

I remembered / didn't forget to buy a newspaper while I was out shopping. (I remembered it and then I did it.)

I remember / I'll never forget going to the Louvre Museum two years ago. (I remember it after I did it.)

I mean to work hard at university. (this is my intention)

It will mean going to the library more often. (this will be the result)

Unit 15

Speculating about possibilities

May/might (not)

These refer to a present or future possibility. *May* is usually slightly more certain than *might*.

In England, unexpected guests may/might be offered some tea.

In future, people may/might not need to travel to business meetings.

May/might (not) have

The modal perfects refer to a past possibility.

Life when my parents were young may/might have been less demanding than it is now.

Must and can't

Look at the two clauses in this sentence:

Jackie has travelled a great deal, so she must know a lot about different countries.

In the first clause the speaker means 'it is a fact that Jackie has travelled a great deal'.

In the second clause the speaker means 'I am sure Jackie knows a lot about different countries because I have worked it out from the evidence (the fact that she has travelled a great deal)'.

Can't is used to show that the speaker has considered the evidence and is sure that something isn't true:

Jackie has only spent a few days in Canada, so she can't know much about the country.

Must have done and can't have done

These are used to come to similar conclusions about the past:

Jackie must have been to South Africa because she's got a lot of photographs of Cape Town.

Jackie's told me about every country that she's visited, and she's never mentioned Egypt, so she can't have been there.

Unit 16

Non-finite clauses

Non-finite clauses contain an infinitive (e.g. *to do*), present participle (e.g. *doing*) or past participle (e.g. *done*). In these examples the non-finite clauses are underlined.

I hope to write a best-selling novel.

Using international road signs reduces the risks when people drive in another country.

Books printed in the early days of the printing press are very valuable.

These clauses are ungrammatical on their own: they have to be part of a larger sentence, where they can function in a number of ways. In the first sentence above, the non-finite clause is functioning as the object (what I hope); in the second it is the subject (what reduces the risks) and in the third it is a relative clause, describing *books* (shortened from *which were printed ...*).

The main difference in meaning is that the present participle generally has an active meaning (*people use road signs*), and the past participle generally has a passive meaning (*books are printed*).

When a non-finite clause functions as the subject of a sentence, it normally uses a present participle:

Writing in Chinese is difficult for foreign learners.

Alternatively, the clause can be replaced by *it* and moved to the end of the sentence. In this case it normally uses an infinitive:

It is difficult for foreign learners to write in Chinese.

Unit 17

Modal verbs: obligation, lack of obligation and prohibition

Strong obligation: *must, have to, (informal) have got to must*

Must is used to talk about strong obligations in the present and future that are imposed by the speaker. It is also used to talk about laws and rules. To talk about the past we have to use *had to*.

I must arrange to have a telephone alarm call.

I had to take a taxi.

have to / have got to

Have to / have got to are used to talk about strong obligations in the present and future that are not imposed by the speaker.
I've got to work nights this week. (My boss says so.)

If in doubt whether to use **must** or **have to**, use **have to**.

had to

Had to is used to talk about past and reported obligations.
I had to help on the farm when I was young.
We were told we had to get a work permit before we started the job.

Lack of obligation: doesn't/don't have to

Don't have to is used to talk about things that aren't obligatory – they are optional.

She doesn't have to come to the meeting if she doesn't want to.
We didn't have to wear a uniform at our school.

Prohibition: mustn't

Mustn't is used when something is forbidden.
You mustn't use machinery when you are sleepy.

Unit 18

Phrasal verbs

Many English verbs can be followed by a preposition or an adverb particle. These particles join together with verbs to make two-word verbs, sometimes with different meanings. These are called phrasal verbs.

Adverb particles

Examples of phrasal verbs with adverb particles are:

put off – this can mean *postpone*
give up – this can mean *stop (doing something)*

- Adverb particles can go before or after noun objects:
The agency took on extra staff for the summer.
The agency took extra staff on for the summer.
- Adverb particles can only go after pronoun objects:
The agency took them on for the summer.
- When used without an object, the verb and adverb particle of a phrasal verb cannot be separated.
We sat up all night when our plane was delayed.

Preposition particles

Examples of phrasal verbs with preposition particles are:

fall off – *He fell off his bicycle on the way to work.*
look at – *Here are my holiday photos. Would you like to look at them?*

Prepositions normally go before the object and no separation is possible.

He listened to the safety talk on the plane.

Three-part phrasal verbs

For three-part phrasal verbs (these consist of a verb, adverb particle and preposition), no separation is possible:

I'm really looking forward to my holiday in Venice.

Unit 19

Unreal present and future

In certain structures that refer to a situation which doesn't exist, past tenses are used to refer to the present or future.

if (the second conditional)

If I lived closer to my work, I wouldn't have to spend so long in my car.

For more on the second conditional, see page 142, Unit 13.

it's time, it's high time, it's about time

It's (about/high) time we looked more seriously at alternatives to cars.
It's high time and *it's about time* are stronger than *it's time*, and generally express criticism.

No money has been invested in railways for years. It's high/about time the government did something about it.

These phrases are mostly used in informal English.

if only and wish

If only / I wish people drove more carefully.

I wish this bus weren't/wasn't so full.

These are mostly used with a past tense when the speaker (or the subject of the sentence) would like a present situation to be different from what it is. The structures are most common in informal English.

if only and wish + would

These are used when the speaker (or the subject of the sentence, e.g. John) is complaining about the present situation, and wants something to happen in future, but thinks it unlikely. The structures are most common in informal English.

If only / John wishes you would keep your eyes on the road.

Many people wish the government would spend more on education.

would rather

This means the same as *prefer* and is mostly used in informal English.

I'd rather you didn't go by car.

Unit 20

Position of adverbs

Normally at the end of the sentence

The most common position for adverbs (including adverbial phrases) is at the end of the sentence. This sentence contains two adverbial phrases:

A large number of immigrants arrived in Canada at the end of the nineteenth century.

Some adverbs can be placed at the beginning of the sentence, for emphasis.

At the end of the nineteenth century a large number of immigrants arrived in Canada.

Normally at the beginning of the sentence

A few adverbs normally go at the beginning of the sentence. Most of them add a comment, rather than being part of the main meaning of the sentence. See also page 95.

Perhaps I'll go to Scotland to study.

To everyone's surprise, the climate turned out to be very good.

Frankly, the multicultural festival was poorly organised.

Normally in the middle

Certain adverbs are placed with the verb. The most common ones include, *also*, *almost*, *probably*, *soon*, *no longer*, adverbs of frequency like *always*, *often*, *hardly ever* and other words like *all* and *both*.

Their exact position depends on the verb.

- Where there is only one verb, and it is *to be*, the words listed above follow it:
My grandparents were all immigrants from Sweden.
- Where there is only one verb, and it is **not to be**, the words listed above go in front of it:
Immigrants generally went to places where there was plenty of work.
- Where there is at least one auxiliary or modal verb, the words listed above go after the first one:
A high level of immigration would probably have been welcomed by the Canadian government at the end of the nineteenth century.

Objective IELTS Intermediate is a new course offering students complete preparation for the Cambridge IELTS test.

Designed for students aiming for a band score of 5.5 or 6, it combines thorough language development with systematic test preparation and practice. Its 20 short units cover a wide range of motivating topics and give a sense of progress.

Key features of Objective IELTS:

- Gives thorough preparation for both the General Training and Academic Modules.
- Examples from the Cambridge Learner Corpus target areas most likely to cause problems for IELTS candidates.
- Informed by the Cambridge Corpus of Academic English, it provides guidance in how to use appropriate academic style.
- 10 'Test Folders' cover each exam task in depth and provide practical advice.
- 10 'Writing Folders' develop writing skills and give thorough practice in exam tasks.
- Regular revision units consolidate language learned.
- A 'Grammar Folder' appendix provides further explanations and examples.
- The accompanying self-study CD ROM includes further grammar, vocabulary and pronunciation practice, as well as additional practice of all for

CAMBRIDGE LEARNER CORPUS

The Cambridge Learner Corpus (CLC) is a unique collection of over 60,000 exam papers from Cambridge ESOL. It shows real mistakes students make and highlights the parts of English which cause problems for learners. The CLC has been developed by Cambridge University Press with University of Cambridge ESOL Examinations to help in writing materials for learners of English.
